

# Reserves Excel Open Range for Grazing

PORTLAND, Dec. 21.—Nearly two million one hundred forty thousand head of cattle and more than eight million four hundred fifty thousand sheep were grazed under permit on the National Forests of the country during the 1918 season, according to the report of the Secretary of Agriculture for 1918, which has just been received by District Forester George H. Cecil, Portland.

In two years there have been placed on the Forests approximately one million additional head of livestock representing about twenty-five million pounds of beef, sixteen million pounds of mutton, and four million pounds of wool. This material increase in the production of meat and wool on the Forest ranges was brought about after careful observation of range conditions and study of the methods by which the

most complete utilization of the forage might be secured without overgrazing the forests.

The season of 1918 illustrated in a striking manner the advantages offered by the National Forest ranges to the Western livestock industry. Because of drought conditions, the ranges throughout the West outside the Forests were generally in bad shape. Owners dependent upon the open public range find the livestock business becoming so precarious that many are closing out and the number of range stock is being reduced. On the other hand, the use of the National Forest ranges is increasing and their productivity is rising under the system of regulation. The wisdom of Government control of these ranges was never more manifest than at the present time, according to the Secretary.

# HUNS CAROUSE IN EFFORT TO FORGET WAR

LONDON, Dec. 21.—The Berlin correspondent of the Daily Express says the scenes of enthusiasm marking the homecoming of the German troops are ended.

"Men have been coming home at the rate of 10,000 a day," says the correspondent. "Every day Herr Ebert (the chancellor) takes his place on a rostrum opposite the French embassy. He addresses the homecoming men and the bands play martial music, while the crowds cheer and wave their handkerchiefs."

"Deutschland über Alles" brought me into the street this morning. To my amazement—and to the apparent amazement of the French officers grouped in the window of the embassy—a regiment was passing the Brandenburg gate to the old tune. Later I heard it played continuously as cavalry, infantry and artillery went by.

"What particularly struck me was the attitude of the homecoming officers. Those I have seen in the Berlin garrison were quiet men, many of whom had removed their marks of rank. They seldom were saluted by their men. On the other hand, the troops just returning from the front are well disciplined and saluted as of old. The officers themselves are unchanged. They exhibit themselves monolingual and tight waisted to the populace, who cheer them loudly.

"Berlin is dancing mad. There are about 50 cabarets in the city, and dancing goes on all afternoon and until 9 o'clock at night. In a week's time the edict closing dancing halls at 9 o'clock will be removed, and dancing then will continue all night. Berliners are looking forward to this.

"It is a remarkable sight to see cabarets packed to suffocation with women in expensive toilettes and both soldiers and civilians dancing and drinking wine costing two pounds a bottle. Seats at the theaters can only be booked two days ahead.

"We are trying to forget," said a Berliner to me today.

# FINE BASEBALL PROSPECTS NOW FOR THE WEST

SAN FRANCISCO, Cal., Dec. 21.—All indications are that the Pacific Coast baseball league will resume the game next season and that followers of the national sport on the coast will be provided with a regular schedule. Officials connected with the coast league are sanguine that there will be a big revival in all lines of sport, in which baseball will participate.

Plans now are in the making for holding a meeting of the Pacific Coast league officials sometime during January when the various details for the season will be taken up. There has been some talk of reducing the regular playing schedule. Heretofore the coast players have been the first of the country's league to begin the season, the opening series being played after the first week in April. That

the season may be started a month or six weeks later than this in 1919 seems quite possible.

The matter of railroad fares will have considerable to do with the makeup of the teams in the league. It is hoped that before the season begins there will be a reduction in fares to something approximating pre-war days. With the present high cost of traveling, considerable doubt is expressed as to the feasibility of the Salt Lake City club being included. It always has been a long and expensive trip even at best and under present conditions, those interested are dubious as to the advisability of attempting the long jump.

# WAR GARDEN DRIVE PLANNED FOR NEXT YEAR

LOS ANGELES, Cal., Dec. 21.—Under the direction of Douglas White, regional director for agricultural agents of the railroads, the drive for Victory Gardens is on. Two thousand posters from the National War Garden Commission at Washington arrived today and these are to be distributed to the agricultural agents for posting at various stations in the zone operating under Mr. White. These states are: California, Utah, Nevada, Idaho and Oregon.

J. L. Edwards, director of agricultural agents for the U. S. Railroad Administration at Washington, has appointed regional directors for other parts of the country and similar

# LADIES DARKEN YOUR GRAY HAIR

SE GRANDMA'S SAGE TEA AND SULPHUR RECIPE AND NOBODY WILL KNOW

The use of Sage and Sulphur for coloring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But coloring at home is messy and unsightly. Nowadays, by asking at the drug store for a 50 cent bottle of Sage and Sulphur Compound, you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well known downtown druggist says it darkens the hair so natural and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it, and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.—Adv.

# Cook Your Christmas Dinner Electrically

Electric cooking is one of the greatest modern aids to house-keeping, a science has proved a saving in weight, and hence cost, of meats electrically roasted, sometimes as high as 80 per cent. The G-E. ranges have made scientific cookery a reality, saving a world of time, labor, discomfort and inconvenience.

The G-E. range involves no new methods of cookery, but sure better and more uniform results. These ranges can be had with or without warming closet, with high or low oven, and with arrangement of vegetable cookers and hot plates to suit your requirements.

All types of G-E. range are thoroly practical and reliable. We have them at a variety of prices to suit almost every purse.
