HEAD STUFFED FROM CATARRH OR A COLD

Says Cream Applied in Nostrils Opens Air Passages Right Up.

Instant relief—no waiting. Your clogged nostrils open right up; the air passages of your head clear and you can breathe freely. No more hawking, snuffling, blowing, headache, dizziness. No struggling for breath at night; your cold or catarrh disappears.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates thru every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly. It's just fine. Don't stay stuffed-up with a cold or nasty catarrh.—Adv

LILLE HUGS AND KISSES FIRST POILU TO ENTER CITY AFTER GERMANS RETREAT

Lille went wild with joy when a crowd of several thousand French troops entered that city after the Germans had been forced to evacuate it in the face of the British drive. This photograph shows part of a crowd which surrounded the first Poilu to reach the heart of the city. He was the most kissed soldier in Lille that day.

Heavy Sea Saves Big Ship From Submarine

LONDON, (By Mail).—Now that censorship rules have been much relaxed, extraordinary stories of close shaves and unexpected happenings are being published. Hard to beat is one related by the Liverpool Evening Express. It tells how a torpedo from a U-boat passed under an intended victim—which at the psychological moment was lifted beyond its reach by a big wave—and administered the quietus to another enemy submarine on the other side of the steamer. Here is the paper's account of it.

The British steamer Algol, commanded by Captain Frederick Taylor, was off Bardsey Island and had a cargo of timber from Rosslare to Garston. There was a heavy sea on and the ship was pitching about.

The first to see the first submarine was the gunner who also spotted the track of a torpedo, which, if something like a miracle had not happened, would have struck them amidships. Nothing could be done in time to turn the ship clear of danger, but a heavy sea lifted high on its crest the steamer which was only drawing a few feet of water and then those who had just been expecting to be torpedoed themselves, saw a second U-boat which was working in conjunction with the one on the other side of the steamer, struck by the torpedo.

They heard a deafening explosion and saw a mountain of spray thrown up into the air.

HUN OFFICERS' ACTS SEALED THEIR DOOM

AMSTERDAM, (By Mail).—The attempt of officers of the German High Seas fleet to make a suicidal sortie against the British Grand Fleet before the armistice was signed is characterized by the Berlin Vorwaerts as "the last devilish crime against the German people that sealed the doom of the Pan-Germans."

Refusal of the sailors to go out and fight is regarded as the first step toward the German revolution. This mutiny is described by the Vorwaerts as "an act of self-defense by 80,000 men against the villainous Pan-American plan."

"To understand the position," continues the newspaper, "it is necessary to go back to the feverish propaganda by the Pan-Germans at the end of October for a so-called national fight of despair. To save their necks they conceived the idea of baiting the people into a forlorn hope which could only end in complete extermination. The death of the doomed eighty thousand did not concern these maniacs, in whose reckonings human blood never counted. Their notion of military honor was that the whole people should suffer themselves to be butchered rather than undergo the shame of defeat."

"With their minds steeped in the worship of might they had no inkling of the revolutionary currents among the men. They still imagined that iron discipline was paramount. Their childish plan was to send out the ships to be sacrificed to the last ship. The news spread like wildfire.

BETTER LIGHT AT CHEAPER PRICES

PORTLAND, Dec. 23.—How to obtain better light with the use of less electricity is contained in the second edition of "Fuel Facts," just published by the United States Fuel Administration, a copy of which has been received by Fuel Administrator Fred J. Holmes. Among the hints for light efficiency are the following:

Tungston instead of carbon filament electric bulbs use half the fuel and give twice the light at half the cost.

All lights used for merely decorative purposes should be eliminated. Remove all bulbs having broken filaments. The broken filament uses twice as much current. Inspect all bulbs at least once a month.

Keep the bulbs clean. Finger-marked or dusty bulbs absorb light.

Lights should be turned out upon leaving an unoccupied room.

Lamp shades and all globes should be of translucent material.

Light wall papers should be substituted whenever possible for dark ones, since light colors absorb less light than the dark ones.

WORLD PEACE SAID SOUGHT BY SOCIALISTS

(By Associated Press)

CHICAGO, Dec. 23.—An effort to show that the anti-war campaign of the socialists was part of an international movement to abolish war and militarism in the interest of humanity and to make possible permanent world peace was made by Adolf Germer, general secretary for the national socialist party, in testifying in his own defense in the federal court, where five socialist leaders are on trial for violation of the espionage act.

Germer said that the socialists hoped to compel the United States to take the lead in the movement and to end the war and enforce the disarmament of the world. Germer did not deny that the socialist party published and circulated the anti-war literature which the government characterized.

ETIQUETTE OF BELGIANS IS REMARKABLE

BRUGES, (Correspondence of the Associated Press).—The Belgians are the most polite people in the world. Yesterday seven correspondents traveled to Audenarde. We were informed that we might cross the Escaut and proceed in the direction of Ghent. As our two automobiles came over the ridge before entering town they were spotted by an eagle-eyed observer in the German lines, and as we reached the entrance of the town and left from our cars preparing to enter on foot, a shell whizzed over our heads and exploded dully in a rain soaked field fifty yards beyond the road. Another followed about the same distance short. Then they came so fast that I lost count. Gas shells they were and we donned our masks, and made for the cars.

The lieutenant in charge of our party bowed to the oldest correspondent and bade him enter the car. The latter being Belgian in turn bowed to his neighbor motioned him into the car. He demurred and then followed some Alphonse and Gaston moving pictures until some one motioned to me to enter the car. I did. Then they all piled in. And as we raced down the road to Thielt shells spitefully spluttered along the muddy road.

HUGE SUM SPENT ON STATE ROADS.

SALEM, Ore., Dec. 23.—During the last two years the state highway commission has expended \$2,888,257 and now has a balance on hand of \$673,532, according to the biennial report of the commission prepared for submission to the governor.

SOLDIERS BEGGING IN BERLIN STREETS

BERLIN, Dec. 23.—(by the Associated Press).—There are between 60,000 and 70,000 unemployed workmen in Berlin, according to the Tagliche Rundschau. Of the number 7000 are metal workers.

The total the paper says, does not include strikers, the number of whom varies. The walkouts generally are of short duration.

The Vossische Zeitung refers to the increasing number of soldiers engaged in begging while there is much work to be done.

Thirty-two thousand school children in the schools of Paris were receiving regular lunches from the Red Cross during the past year.

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach aches, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive; harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.—Adv.
