Starving Austrian Babes Carried in Newspapers

LONDON, Dec. 23.—Serious conditions in Vienna because the lack of food and textiles there are reported to the British mission by prisoners of war in Austria, now in the Austrian capital, according to a Vienna dispatch.

Starving mothers in the Austrian capital are unable to obtain milk for their children, and the babies are dying by hundreds, the message states. The mothers also are without swaddling clothes for their infants and are obliged to wrap them in rags or even newspapers.

Have you noticed how cheap you can buy a good overcoat at the big sale at the K. K. K. STORE.

Blankets numbering 1,200,000 were sent to France by the Red Cross emergencies.

Fifteen thousand automobiles since August 1st have been shipped to France for the Red Cross.

Every American prisoner in Germany receive a big food parcel every week from the Red Cross. Return postals prove it.

CRATER LAKE CALLED BIG SHELL HOLE

HERE, SAYS REPRESENTATIVE SINNOTT, MILTON WOULD HAVE FOUND THE IMPACT FOR LUCIFER'S FALL

Representative Sinnott, of Oregon, recently described Crater Lake on the floor of the House in these words: "Southward, Crater Lake, cauldronlike and circular, 7,000 feet high, is perched amid the peaks. Perpendicular sides of slippy lava, rise over a thousand feet from waters of indigo blue 6 miles across and 2,000 feet deep.

"To the scientist, a mighty volcano collapsed within itself Mount Mazama 15,000 feet high thousands of years ago.

"To the poet, 'the sea of silence,' 'a lake of mystery.'

"To me, a shell hole of a war of Worlds—who knows?"

"Could the great blind poet have seen this marvel ere his pen had Lucifer and his host of rebel angels—

Hurled headlong flaming from the ethereal sky,

With hideous ruin and combustion, down—

in Miltonic imagery here he'd have found the impact."

OPEN LETTER

Repeated inquiries are being made as to whether or not we shall be permitted to attend church on Christmas Day. Our local health officers say we shall not. We are pleased to acquiesce to their judgment, tho we do not quite agree with them, and cannot see the logic of the argument in permitting churches, etc., to open precisely at the hour when the birthday of the Prince of Peace shall have passed—too late to observe befittingly this day of days for all Christians.

However, neither law nor health officers forbid us the worshipping of God privately in our churches on Christmas morning, and I urge all Catholics to attend to their duties on that day. The sacraments may be approached on Christmas Eve from 7 till 9 and Christmas morning from 6 till 9 o'clock. This opportunity may also be taken to visit the crib—a most realistic work of art. Messrs. Kenneally and Sullivan are to be complimented on the result of their attempt to produce a true representation of Bethlehem.

The usual Christmas church solemnity will be postponed till New Year's Day. Mr. C. W. Eberlein, with a grand selected chorus, is now preparing the singing, and present indications are that lovers of good music will appreciate the results.

Sincerely,
FATHER HUGH MARSHALL.

HENLEY RED CROSS TO MEET

The Henley Red Cross will meet Thursday, Dec. 26 also Thursday January, 2 from 10 to 4 at the Henley High School.

MRS R. E. BRADBURY, Chairman.

All barber shops closed all day Christmas. Open until 10 the night before.

Merchandise certificates issued for any amount, or any article at 19-5t K. K. K. STORE

Influenza Listed for Modified Quarantine

At its annual meeting Saturday, December 14th, the state board of health placed influenza under the modified quarantine list under section 7 of its rules and regulations.

This requires the confinement of the patient to one apartment or suite of rooms, attendant to use gauze masks under strict sanitary precautions. All utensils used by patient to be thoroughly disinfected after use. All discharges from nose and throat to be burned. Officers and attendants only may have access to the sick room. Placards must be placed conspicuously at the front and rear entrance, showing the name of the disease in type of approved size. The patient is released from quarantine only upon permission from the health officer in charge.

Since the length of time a patient may remain a carrier of influenza is not yet determined, and since our present epidemic is being apparently extended by such carriers, it is suggested that you require the patient to remain in quarantine for a period of ten days dating from the last elevation of temperature or entire subsidence of nose and throat symptoms.

In lieu of such extended quarantine you may permit the patient the alternative of going about properly masked for the same period of time.

The use of the vaccine issued by the state laboratory is urged by the board since reports show it to be valuable, not only in cutting down the incidence of influenza, but preventing in most cases the grave complications. As the period of immunity is not known, a revaccination is advised in from two to four weeks. The laboratory is prepared to supply this thru your office. Kindly make requests as early as possible and supply the physicians in your district upon demand. It is suggested that the vaccine be kept in a cool place and that it not be used after ten days.

Kindly notify the physicians of your district of the above measures, and please impress upon them the necessity of returning the vaccine bottles at once, as we are in great need of them. Since we supply the vaccine without charge, the physician should be sufficiently appreciative to return the bottles promptly.

A. C. SEELY,
State Health Officer.

DEMAND THAT RAILROADS BE TURNED BACK

NEW YORK, Dec. 23.—A definite program calling for prompt return of the railroad after the passage of remedial legislation, was worked out at a meeting here of the standing committee of the Association of Railroad Executives. The program will be submitted next month to the senate interstate commerce committee, if it is approved at a full meeting of the association, called here for December 30.

Whatever the cost, it is said, the executives are opposed to extending the period of federal control beyond 21 months after the signing of peace, as prescribed by law. It is understood, that, rather than have the time extended to five years, as suggested by Director General McAdoo, they would prefer return of the roads without the proposed legislation.

A hint as to what form the executive think this legislation should take is found in the reasons they ascribe for improved conditions effected by government operation, additional equipment, abolition of the shipper's power to route his own traffic, increase in demurrage rates, decrease in time allowed for loading and unloading cars, and strict supervision of shipments.

Send your mail order to K. K. K. Store for Christmas goods or anything in Clothing and Footwear. They guarantee satisfaction and pay all postage and express charges. 61t

Jam at the rate of 500 tons a month goes to France for the Red Cross. Our soldiers eat most of it.

CHILI-PERU AFFAIR UP TO PEACE MEETING

BUENOS AIRES, Dec. 23.—Latest press dispatches from Chile report that political circles there see small hope in settling the controversy with Peru and Bolivia by compromise. It is reported in Chile that Peru intended to carry the question of the provinces of Tacna and Arica to the peace congress.

Reports from Lima, Peru say that 18,000 nitrate workers in the district of Tarapaca had been ordered by Chile to return to Peru. Chilean dispatches say that the nitrate workers are returning voluntarily, after having been discharged from their positions because of the present nitrate crisis. The Peruvian government is reported to have appointed a commission to care for the workers.

Press dispatches from Lima assert that anti-Peruvian manifestations are general thruout northern Chile.

WHERE'S YOUR BUTTON?

WHOSE IS IT?

Came to the Oregon House Saturday, one bench-legged yellow dog, evidently raised in a flat and kept under the bureau; about one yard long from tip to tip, with part of one tip gone; has no visible brand; has one leg on each corner about three inches long, which just reaches the ground; one wing on each side of its head (not used for working purposes); answers to any name you wish to call it; has strong liking for red meat, which makes it utterly impossible to keep it at the present place. Owner can have same by calling at Oregon House. Will be heartily thanked for claiming property and will not have to pay for this ad.

BELIEVES RACE ISSUES WILL BRING ON WAR

TOKIO (Correspondence of the Associated Press)—Belief that the next war will be the outcome of race prejudice is expressed by Yukio Ozaki, formerly Minister of Justice, and a leading member of the Constitutional Party. Mr. Ozaki said that in his opinion, the colored races which steadily were developing their civilization would demand finally the same treatment as the white races, and that the result would be an armed collision.

Mr. Ozaki recommended that at the Peace Conference, Japan acting on behalf of all the Asiatic races should introduce the racial and population questions for consideration, and if possible, secure a solution.

In a country like Japan where the population is increasing with alarming rapidity, he said it was but natural that the surplus population should try to obtain an outlet even by resorting to arms. From Japan's standpoint said Mr. Ozaki, the racial or population questions were more important than President Wilson's "Fourteen Points" as laid down for a basis of Germany's surrender. These racial questions, he said, concerned the future of millions of souls in Asia.

Mr. Ozaki warned the Japanese not to develop the German system of state organization which in the present war had proved to be a mere ma-

chine for destroying civilization and for trampling under foot the rights of other nations and peoples. On the question of Japan's occupation of the German South Sea Islands Mr. Ozaki declared that the United States should dismantle her forts in the Philippines and Hawaii and that this would be more important for Japan than the taking over of the South Sea Islands.

If in doubt what to give, give him a merchandise certificate at 19-5t K. K. K. STORE

RECOVERS FROM "FLU"

Fred McManus is able to be about again after a severe siege of the influenza.
