

TRAITOR TRIAL BEGINS TODAY IN BAY CITY

SAN FRANCISCO, Jan. 7.—Trial of the so-called Sacramento neutrality cases, which began here today, involved two officials of the Imperial German consulate general in San Francisco, a dozen other individuals and three corporations under indictments returned in 1916 and 1917.

A blanket indictment returned on July 7, 1917, charged conspiracy to violate the neutrality of the United States in 1914 and 1915, thru an attempt to make San Francisco a base of supply for a German fleet then operating in the South Pacific ocean, and conspiracy to obtain false clearance for various ships needed to carry out the plan. The case centered about the steamship Sacramento, which was alleged to have delivered a general cargo to the German fleet after it was "captured" off the coast of Chile the steamship Mazatlan, which was alleged to have delivered coal to the German cruiser Leipzig at Guaymas, Mexico, the steamship Olson & Mahoney, which was denied clearance papers here, and the steamships Maverick and Annie Larsen, which were alleged to have been used in an attempt to send arms and munitions to revolutionists in India.

The principal defendants are: Baron Eckhard H. von Schack, former German vice consular general at San Francisco; Henry Kauffman, former chancellor of the Imperial German consulate general here; Hans Tauscher, husband of Johanna Gadski, the singer, as agent for the purchase of the Annie Laura's cargo; Franz von Papen, formerly naval attaché of the Imperial German consulate general at New York.

Robert Capelle, former Pacific coast general agent for the North German Lloyd Steamship company; Frederick Jensen, captain and owner of the Mazatlan, never apprehended, and variously reported as killed, as aboard a submarine, and as safe in Germany; J. L. Hefey, custom house broker; T. A. Anderson, captain of the Sacramento; R. H. Swayne and John Hoyt of the firm of Swayne & Hoyt, ship brokers; Philip R. Thayer, president of the Northern & Southern Steamship company; Dr. Simon Helmer, said to have been a German naval officer; C. D. Bunker & Co., custom house brokers; The Northern & Southern Steamship company; Capelle, von Schack, Kauffman and Hefey were convicted here of conspiracy to overthrow British rule in India. Tauscher and von Papen are said to be in Germany.

The Sacramento, then a German merchant ship known as the Alexandria, was interned at this port when the war began in 1914. She was taken over and renamed the Sacramento by the Northern & Southern Steamship company, which, it was alleged, was organized for that purpose by Swayne & Hoyt and others. A cargo, including beer, sauerkraut and other food stuffs and ship supplies, was purchased thru C. D. Bunker & Co., and the vessel was cleared from this port for Valparaiso, Chile, in October, 1914. When she arrived at her destination she was as empty as a drum.

Soon after the Sacramento left San Francisco, it was said, a German officer, a stowaway, appeared and assumed practical direction of the ship, used the wireless and co-operated in the "capture" of the vessel by the German fleet. This fleet included a dozen cruisers, among them the Leipzig, Baden, Santa Isabel, Scharnhorst, Nürnberg and Gneisenau, most of which were subsequently sunk by British warships.

Poor Reception For Returning Russians

LONDON, (Correspondence of the Associated Press)—England's welcome to her starved and ailing prisoners returning from Germany is in striking contrast to the indifference with which soviet Russia receives the hundreds of thousands of emaciated, forlorn soldiers of the Russian army who are straggling back into practically foodless and fuelless, snowbound and in the throes of zero weather tempered by only four or five hours of sunshine.

England's King and Queen have greeted many of the returning prisoners. Hundreds of patriotic societies have committees of loyal women, on the docks where the exiles land to provide them with warm drinks and food and express the gratitude of the nation for their sacrifice to the Entente cause. Bands play the familiar airs of the homeland as the victims of German prison hardships again set their feet on British soil. Flags line the streets and grateful citizens cheer the returning heroes.

But it's a far different picture in disorganized Russia. Dispatches from the Russo-German boundary announce that thousands of the comparatively disabled Russians released by the Germans, insufficiently clothed and without food are being along the big ways of the once glorious empire of the Romanoffs.

The red flag has replaced the emblem of red, white and blue stripes under which the prisoners marched to battle. The cause for which they fought has been disavowed by the Bolsheviks. Officials are calloused to the sufferings of hunger and disease and wholly devoted to efforts to perpetuate the great political experiment they launched a year ago.

Conditions have gradually grown worse from week to week. Food has become scarcer. Coal and oil are not obtainable. Spanish sickness has intensified the disorganization. Premier Lenin has issued orders to border royalties that they must better physical conditions for the returning soldiers, but the food supply is so limited and the conditions are so hard for all the population in Central Russia that even if officials were inclined to heed the mandates of the Bolshevik premier, they probably would be helpless because of the utter lack of supplies and indifference of the great mass of red supporters.

QUIT MEAT WHEN KIDNEYS BOTHER

TAKE A GLASS OF SALTS IF YOUR BACK HURTS OR BLADDER TROUBLES YOU

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which excites the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.—Adv.

SAGE TEA TURNS GRAY HAIR DARK

IT'S GRANDMOTHER'S RECIPE TO BRING BACK COLOR AND LUSTRE TO HAIR

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application or two of Sage and Sulphur enhances its appearance a hundred fold.

Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients for 50 cents a large bottle, all ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair.

Everybody uses "Wyeth's" Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous. This ready-to-use preparation is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.—Adv.
