THE INFLUENZA SITUATION

Each day there will be published in this column complete information as to the influenza situation. Here will be found the report of Health Officer Soule, the names and addresses of new cases, and all information that will convey the exact condition of the public health. As all official information regarding this question will be published, the public is warned against believing any stories that do not have as their foundation the facts contained in The Herald.

DR. SOULE'S REPORT

I find that the situation throughout the city is greatly improved. All the old cases are making rapid recovery, and for the past two days the following cases have been reported and the residences quarantined:

John Matney, High and Ninth. Two Taylor children, Seventh and Walnut. Mrs. A. M. Hamilton, Emergency hospital.

Mrs. F. C. Young, 1001 Rose. Mrs. Millie Johnson, 706 Walnut. Mrs. Daniels, Seventh street. Mr. and Mrs. Garcelon, Lookout. J. G. Swan, Emergency hospital.

Frank Moreland, son Arnold and daughter Dorothy, on Merrill road. Leslie Rogers, Hot Springs Addition.

K. Sugarman, 824 Washington. Adams, 343 Sixth. Rose, Mills Addition.

Donart, Third and Lincoln. Black, White Pelican hotel. Mrs. Moore, Star Lodging house. W. G. Wilson, 903 Walnut.

One Santamau child, Worden avenue and Delta street. Kincaid child, Mills Addition.

Mrs. Julia Pomeroy, Mills Addition. One child at Graves home, Second and Washington.

Dr. Hunt is the only physician who has not reported to me.

We have under observation four other cases, and these will be promptly quarantined if developments justify such a course.

I have met with united and cordial support in the matter of cleaning up and fumigation, and I want to thank the people for the hearty manner in which they have co-operated with me. A. A. SOULE, City Health Officer.

Physicians are requested to report to the health officer the full name and address of the person afflicted. The purpose of publishing these names and addresses is to aid in the enforcement of the quarantine, and the Herald will continue doing so only so long as the physicians and health board co-operate to the extent of furnishing accurate information. When either or all cease to do so, The Herald will stop this method of publication, and tell why it is stopped, and who is responsible for its doing so. Some of the doctors seem to be of the opinion that it is up to the health officer to ascertain the given name, age and address of some of the cases reported. This attitude is ridiculous, and the public will be acquainted with all of the facts after today. It is the visiting physician's duty, above all others, to lend every assistance to The Herald and the health board to handle this matter in an efficient manner, and the public is going to hold all doctors to a strict accounting along this line.—The Editor.

ENGLAND GRADUALLY GETTING MORE FOOD

LONDON, (Correspondence of the Associated Press).—England's war time food restrictions are slowly, but gradually disappearing. Early in the new year the sugar ration will be raised to 12 ounces. Lard is now obtainable without coupon, all restrictions are removed from the making and selling of sweet pastries and cakes, as well as the restriction on afternoon teas in restaurants and tearooms. Fancy bread is still forbidden but white bread is now supplied to hotel and private houses, while white flour is obtainable almost anywhere.

Stocks of food in London are increasing daily. More than forty thousand tons of wheat are under discharge at the docks, meat is arriving by the shipload, thousands of boxes of oranges, nuts and apples are arriving and more are afloat.

Tea appears to be in greater supply than demand and people are being urged to buy. Sugar stocks in London alone total 20,000 tons in public, and 20,000 tons in private warehouses.

Mr. Gregory's letter of resignation, dated January 9, and the President's reply, cabled from Paris the next day has been made public at the White House. The Attorney-General's letter disclosed that he had long considered retiring from office and had discussed the matter with the President before Mr. Wilson went abroad.

Mr. Gregory's successor has not yet been appointed, and there has been no official intimation as to who he will be. In speculation today the names of Frank L. COUNTY MAKES PROUD RECORD IN BIG LOAN

Big Per Cent of Population Invest

COUNTY IS NEAR TOP

Only Three Counties in State Lead Klamath in Proportion to Population Subscribing. Some of These Being Districts Where Ship Building Industries Are Located.

That Klamath County made a record to be proud of in the Fourth Liberty Loan Campaign, is indicated in the final report of subscriptions by Counties just completed at Portland.

On the list of thirty-six counties Klamath stands twelfth with an over subscription of 126.12 percent. The number of subscriptions totaled 3,521, which according to the last census was 41.65 percent of the total population of the County.

In this column Klamath is brought up much nearer the top, only three counties, Clatsop, Coos and Tillamook leading it. It is also probable that this percentage in these coast counties was increased by the fact that there were shipbuilding industries located within their boundaries. Clatsop leads with 79.17 percent, while Tillamook and Coos are nearly tied for second place with 49.77 and 49.52 respectively.
