

Defense Body Continued On a Voluntary Basis

The following letter has been received by the local chairman of the State Council of Defense:

"Please refer to circular letter of December 19th which, in view of matters which have since transpired, requires a further statement.

"Under date of December 11th, His Excellency, Governor Withycombe, wrote the Chairman of the State Council in part as follows:

"That while perhaps it would be unwise to continue the Oregon State Council of Defense on an active basis I have always thought it should by all means continue as a voluntary organization, in order that it may cooperate whenever and wherever possible with Federal or State Organizations.

"We have particular functions to perform in reference to the work of readjustment.

"After the painstaking service rendered by the various members of your entire organization over many months of wartime activity, it would be unfair to ask them to continue to devote all of their spare time to the different type of problems which will now confront us, but I am in hopes that the Council of Defense machinery may be utilized to advantage in the new work."

"Conscious of our obligation to the

people of this State, it is the opinion of the members of the State Council, as expressed in a meeting held this day, that our organization on a voluntary basis should continue as long as, or until such a time as the Governor of our State by whom and thru whom this body came into existence, should indicate that its services are no longer needed; and this letter is to advise you that our organization on a voluntary basis will continue until such a time.

Further details as to activities will be sent you in the near future.

WILLIAM F. WOODWARD,
Chairman."

Mr. C. D. Chorpene resigned as County Chairman, January 1, 1919, and the Advisory Committee elected C. C. Hogue, Chairman.

Mr. Hogue accepted with the understanding that another shall be selected at the next meeting of the County Council.

Mr. Hogue has also been appointed County Chairman for the work of listing returning soldiers for employment and will call a meeting of those interested as soon as the influenza conditions improve sufficiently.

You're welcome to a calendar for the New Year. We have a good supply of homey ones and some pretty ones.—Chilcote & Smith. 24

AGED TOY MAKERS WORKING IN FIFTH AVENUE TO HELP SWELL RED CROSS FUND

Santa Claus may wear a cap and a beard, but a lot of his assistants do not. Here are two of them, busy at the Red Cross toy shop in Fifth ave-

nue, New York City, who helped to make it possible to fill a lot of Christmas stockings and at the same time fill the Red Cross treasury.

Letters From The People

Editor Herald:—As to the compromise of the court house site I would suggest that if it could be settled satisfactory to both factions it would no doubt add very materially to the progressiveness of Klamath County, besides remove the stigma of being the laughing stock of the whole Pacific coast which we now enjoy.

The suggestion of those who have proposed, in good faith, a compromise is commendable indeed, but the question is, how can it be done? There is a very important financial interest, as well as a great moral principle involved, which will seriously enter into a just and satisfactory settlement.

The warring factions of the world could have settled with the Kaiser more than a year ago on peace terms, but they said, "no! it must be settled Right!"

Now the question arises, what is right in the court house controversy? No self-respecting citizen will dispute but what right ought to prevail. To my mind there is but one right place for the court house and that is the Hot Springs. It is not even presumed from general observations that the tax-payers of the country districts

care one snap where the court house is located, but at the same time they are not, in their good judgment, expected to overlook the fact that they have already cashed in approximately \$200,000 in hard money on the Hot Springs site, which they fully realize will be lost in its entirety besides a gift of a five acre tract of valuable land in case the old site should prevail. They are not going to forget this fact; and neither will any number of unnecessary vexations and embarrassing petty law-suits make them forget it. On the other hand, should the Hot Springs site be selected the county would then own both locations, where upon the old site could and would be disposed of for a valuable consideration and the proceeds used for the payment of just debts or improvements, in the judgment of the county court. In fact, the theory of building a new court house because it was cheaper than finishing one partially constructed is absolutely laughable—it is as facetious as the Cal. & Ore. Power Co. backing water over swamp land to make it dry.

Again there is a grand principle practiced from the first inception of our government down to the present moment—that the majority ought should and, by right, must rule.

The vote of the tax payers of Klamath County have expressed the preference for Hot Springs site no less than six times and probably will continue to do so as long as they

stand to lose \$200,000 which they have already invested and paid in. The voters of this county have never elected a member of the county court who was known to oppose the hot springs location and, on the other hand, have by their votes retired at the very first opportunity every member of the court who favored any other place.

Then if it is right for the majority to rule where is the justice of even considering any other location?

If a compromise can be made, as Mr. Siemens suggests, by using the hot springs for a county seat which when completed would be a building of most excellent construction, beautiful in appearance, modern design, slightly to travelers, located on an elevation overlooking the whole country, then disposal of the old site to the United States for a federal building might be wise solution of the controversy if it can be accomplished.

Viewing the matter from another standpoint and from past observations, it would seem idle to place much faith in the very remote probability of the United States accepting any second-hand building, either by purchase or even by gift, that had been constructed for another purpose which would have to be remodeled and worked over in the entire interior—the outward appearance being objectionable—the foundation being very questionable, indeed—the location down among other buildings and obstructions until it can not be observed more than a block distant and every way lacking in grandeur.

It would seem the most natural thing for an agent sent here to procure a site for a postoffice, having in consideration the convenience of the patrons, that down about Seventh and Main streets would be the most practical spot. This in any event, is a long way off.

In fact, there is more or less gentle whippers in the wind at the present time about moving the postoffice into that vicinity without waiting for the slow process of securing a Federal building.

If a compromise can be effected on this or any other basis compatible with justice, it would be a great surprise as well as pleasing to your humble servant.

R. A. EMMITT.

Cinched

"Isn't he rather fast, dear?" asked the anxious mother.
"Yes, mamma," replied the girl, "but I don't think he will get away."
—Argonaut.

Not Always the Same

"So you have promised to make Cholly happy, eh?"
"I've agreed to marry him. That's all."
—Kansas City Journal.

DRINK A GLASS OF REAL HOT WATER BEFORE BREAKFAST.

Says we will both look and feel clean, sweet and fresh and avoid illness.

Sanitary science has of late made rapid strides with results that are of untold blessing to humanity. The latest application of its untiring research is the recommendation that it is as necessary to attend to internal sanitation of the drainage system of the human body as it is to the drains of the house.

Those of us who are accustomed to feel dull and heavy when we arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should each morning before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the day's indigestible waste, sour bile and poisonous toxins; thus cleansing, stomach, liver and bowels the previous sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying hot water and limestone phosphate on your breakfast the phosphated hot water is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatic stiffness; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.—Adv.

LITTLE THINGS LIKE SHIPWRECK IS ONLY AN INCIDENT IN LIVES OF WAR NURSES

Miss Mary A. Murphy

Miss Ruth M. Walker

A little thing like a shipwreck didn't bother Miss Mary A. Murphy of Saylesville, R. I., and Miss Ruth M. Walker of North Dartmouth, Mass., nurses who were returning from France when the transport Northern

Pacific went ashore on the Long Island coast early New Year's morning. They were rescued after waiting bravely for help for 48 hours. This photograph shows them just after they reached shore, cheering up on hot coffee and sandwiches.

NORTH RUSSIA BACK TO PRIMITIVE LIGHT

WITH AMERICAN FORCES ON DWINA. (Correspondence of the Associated Press).—The shortage in kerosene and candles in Northern Russia has brought into use once more a primitive lighting arrangement known as the "svetila", an arrangement to burn birch twigs.

The "svetilas" have been resurrected from some ancient storing place in the log houses of the villages and are wooden trough, about two feet long, with an iron pan to catch the ashes from the burning birch twigs, which are placed in a fork like arrangement so that they slant downward and burn easily.

Each twig or "lutchinka" burns about five minutes, with about as much light as a candle and much more smoke. The members of the family take turns feeding it.

The "svetila" is but one sample of the resort to old time customs occasioned by the general shortage of almost every imported commodity in the villages along the Dwina River. The peasant women are again generally employing the "preelko", a primitive wooden loom on which they card and weave flax for their garments. The result is cloth both of coarse and fine varieties, and not at all bad looking.

TO DARKEN HAIR APPLY SAGE TEA

LOOK YOUNG! BRING BACK ITS NATURAL COLOR, GLOSS AND ATTRACTIVENESS

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a 5-cent bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

NO WRIST WATCHES IN LANDES' COURT

CHICAGO, Jan. 14.—Federal Judge Landis has issued orders that only lawyers who had seen military service could wear wrist watches in his court room.

The question arose when a young attorney wearing a wrist watch appeared to argue a motion. Judge Landis noticed the time piece and inquired:

"What particular military service have you performed for your country and when were you discharged?"

The attorney blushed, and admitted that he had not served in either the army or navy.

"Hereafter, I don't want lawyers who have not served in the army or navy to wear wrist watches in my court room," remarked Judge Landis.

SOUTH AMERICAN

RIOTS CHECKED

BUENOS AIRES, Jan. 13.—The government apparently has the strike situation in hand here after severe riots yesterday. Seventy-two persons were killed and 83 wounded in the riots which occurred here the last of the week.

LEGAL NOTICES

HEAD STUFFED FROM CATARRH OR A COLD

Says Cream Applied in Nostrils Opens Air Passages Right Up.

Instant relief—no waiting. Your clogged nostrils open right up; the air passages of your head clear and you can breathe freely. No more hawking, snuffling, blowing, headache, dryness. No struggling for breath at night; your cold or catarrh disappears.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates thru every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly.

It's just fine. Don't stay stuffed-up with a cold or nasty catarrh.—Adv
