FOOD CANNERS OPEN MEETING IN CHICAGO

CHICAGO, Jan. 20.—World food needs and after-the-war business opportunities will occupy leaders of the great industries of producing, canning, preserving and distributing food products to America and other countries at a joint convention which opened here today.

The National Canners' Association, Canning Machinery and Supplies, the National Canned Foods and Dried Fruit Brokers, and the National Pickle Packers Association meet coincidentally for discussions that will continue for four days.

The food men will take up from all angles vital questions dealing with production, distribution, sources of material, labor, cost systems and other problems of a financial nature.

Experts from government departments, including the department of agriculture, the food administration, the public health service and the

army and navy bureaus, will speak at the sessions. The whole range of scientific and practical phases of handling food will be covered in the broad program for a score of sectional meetings.

There will be the tomato, the baked bean, the pea, the molasses, the milk, the corn, the fruit and the kraut divisions. In addition there will be a home economics section conducted on broader lines than in past years.

FRENCH STEAMER SINKS FIVE HUNDRED LOST.

ROME, Jan. 20.—The French steamer Chaprol has struck a floating mine in the Straits of Messina, sinking in a few minutes. Five hundred passengers, mostly Greeks, Serbians and Russians, have been drowned. Another steamer saved 150 of those on board.

STUDENTS AT O. A. C. WILL BEST H. C. L.

OREGON AGRICULTURAL COLLEGE, Corvallis, Jan. 20.—A new organization is being perfected at the Oregon Agricultural College, the purpose of which is to provide for the fraternities, sororities and clubs a centralized plan of buying food, fuel and equipment. The organization will be known as the Co-Operative Managers of the Oregon Agricultural College, and will be controlled by a board of directors, five chosen from the group of managers representing the various organizations on the campus and one faculty advisor. The directors will be elected annually, and will have charge of purchasing supplies for the entire group.

The organization has grown from the feasibility of buying fuel and foodstuffs in wholesale quantities at much lower rates than could be obtained by the single club. At the present time, 25 societies have joined the association.

Allan Manning of Vancouver, Wash., is at the head of the organization, and the articles of incorporation are being prepared by Esther Shea, George Schwartz (Portland), Irene Curtis (Salem) and Ben Nichols (Glendale, Calif.).

CHANGES COMPLETED AT NEW MOVIE HOUSE

Following the change in the ownership of the Liberty Theatre, many new improvements have been made, and these will tend towards the health and comfort of the patrons of this amusement house. The one great difficulty, that of properly heating the downstairs, has been overcome by the laying of a new floor. Two pound deadening felt and another floor on top of the old one, with a dead air space in between, will remove one of the chief troubles. In addition a decided change has been made in the heating equipment and the new management is positive that there will be no further inconvenience from this cause. Particular attention has been given to the question of ventilation, and this is declared to be perfect.

The new management is going to pay particular attention to the children of the city, and manifests his desire for their attendance by stating that all children will be admitted free when accompanied by a parent with a twenty-cent admission ticket. A special rate of ten cents will be in effect at all time for the little ones. The theatre will be cleaned and fumigated every night.

NOTICE TO CREDITORS

Notice is hereby given that the undersigned was, on January 18, 1919, by the County Court of Klamath County, Oregon, appointed administratrix of the estate of William G. Tallman, deceased, and all persons having claims against said estate are requested to present same to said administratrix at the law offices of R. C. Grossbeck, Klamath Falls, Oregon, within six months from the date of this notice. Dated, January 20, 1919. JUNIATA TALLMAN, Administratrix of the Estate of William G. Tallman, Deceased. 20-27-3-10-17

At the Theaters

"Toys of Fate!" What are any of us, except toys of fate? That's what a man says when he is "blue,"—when things will not go right—when destiny itself seems to balk him in every effort. But, as Browning says, "Sometimes the worst turns the best to the brave—"

The black moment's at end."

Well, that is the way it is with Azah, the fascinating gypsy princess in "Toys of Fate," in which the great Russian artist, Nazimova, stars. When there seems to be no way out—when misery has taken possession of her soul,—then comfort with its healing power revives and refreshes, and love gladdens her.

"Toys of Fate" is vivid, vital, dramatic. It is the story of a child of nature, brought into contact with the ways of civilization. Azah suffers, rejoices and in the end finds happiness and heart's desire. The star is at her best in "Toys of Fate" a brilliant companion-piece to "Revelation." At the Liberty tonight.

Dearest Public:

Thanks very much for your timely aid. Right this day I am going to eat three lovely meals, and it's all 'cause you were so good to me.

We have still some lovely diamonds. One for \$400, and it's a dream. Just like you—perfect in every way.

Say, Mary, you little puddle of love, you land this "bird" while the landing is good, and you can sidetrack the heart work, if you want to, but get this ring.

Say, have you got that garnet yet? It's your birth stone. You'd better put it on or you ain't goin' to have any luck.

A "figger" is something one has, regardless of weather or relatives. The greatest portion of the "figger" can be seen best at the sea shore. We got a lot of stuff we want to sell, and it will pay to see us.

If your watch is taken with the "jessy" bug and the tick stoppeth. We can sell your old gold for you. We reset your diamond while you wait.

We love you, and you can't help yourself, and please do your best for us and we'll do the same by you. McHattan, at 605 Main street.

UNDER FOUR FLAGS IS BIG WAR FILM

The management of the Star Theatre feels fortunate to secure the big war film, "Under Four Flags", which will be shown at that house this evening. Like America's Answer, a short time ago, this film is presented by the Committee of Public Information of which George Creel is Chairman and the pictures shown are those officially pronounced genuine by the Government. The Germans last drive and the Allies' victorious reaction is cleverly visualized in this story.

Klamath County News

MIDLAND

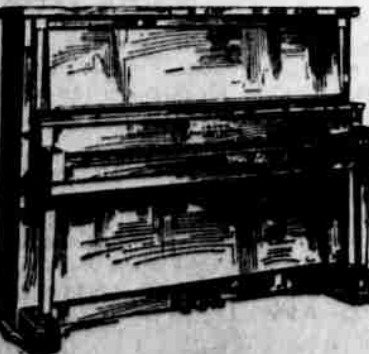

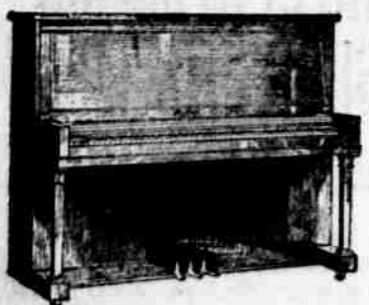

George E. Furber spent Monday in Klamath Falls.

Miss Veta Potter and Miss Clara Kirkpatrick visited the Midland School Tuesday afternoon.

Mr. and Mrs. Geo. E. Furber spent Saturday afternoon at the J. D. Hooper home.

Mr. and Mrs. James Jury returned from California Wednesday where they have been visiting for the past two weeks.

Mr. Clyde Barks was in Midland Thursday from his home at Merrill.

We Are Talking Pianos

Our prices are talking, our instruments are talking for us, and the number of deliveries show that it's not all talk, but that the people are buying.

How anyone who is thinking of purchasing a piano in the next three years can fail to investigate our sale is beyond our comprehension. We not only offer you a substantial reduction, but save you the War Tax, which goes on February 1st, and lasts several years.

It is a pleasure to show you our instruments.

This Saw Cuts 25 Cords of Wood in One Day

The Wade Gasoline Drag Saw is making money for hundreds of farmers—because it is a big time and labor saver.

Wade's Gasoline Wood Saw (Portable) 1918 Model—4 H. P. Engine

This Wonderful Invention Does Ten Times the Work of Two Men in the Woods

The WADE is made of the best materials throughout and the whole machine is constructed for hard work in the woods—practically never gets out of order, and is always ready for use. The husky little 4 H. P. Engine on the WADE fairly hums the 6 foot saw through your toughest logs. (Larger saw blades on special order)

One man can move the WADE along the log while two men easily move it from log to log. Weighs only 285 pounds complete. The WADE is especially low in upkeep cost and gasoline used—the tank holds two gallons (enough to cut 16 to 20 cords). It is the cheapest, easiest, fastest way for you to saw your logs.

Come in and see the WADE work—also get our free booklet "HOW DAN ROSS SAWS 40 CORDS A DAY"
