

STATE POLICE IS OBJECT OF NEW MEASURE

SALEM, Or., Jan. 21.—The creation of a state police department and the appropriation of \$60,000 to start it are proposed in a bill introduced by Senator Orton of Multnomah county. A superintendent at a salary of \$3,000 a year, a deputy superintendent at \$2,400 and a force of 12 officers at \$1,500 a year each, authority being given the superintendent to appoint his subordinates, are proposed in the measure.

To provide the necessary equipment the state property officer of the national guard would be required to issue to the state police department, out of articles now on hand and formerly acquired by the military police, all supplies necessary. When requested to do so by the

governor, any state attorney or coroner, master fish warden or other prosecuting officer, it would be the duty of the state police to assist in running down offenders. Particular mention is made of liquor law violations. Members would be reimbursed for their expenses while on duty. The superintendent would give authority to suspend subordinates and would be required to report to the governor.

BIG BUTCHER KNOCKS PACKING REGULATION

WASHINGTON, Jan. 22.—Ogden Armour, who appeared as a witness before the Interstate commerce committee today, told the members that the pending legislation regulating the packing industry was reactionary and must of necessity result in great injury to the business. He further stated his belief that the proposed legislation was unconstitutional.

SERBIANS SUFFER FEARFUL MISERY

WASHINGTON, Jan. 21.—The official bureau of information of the kingdom of the Serbs, Croats and Slovenes made public today a dispatch from Belgrade giving a picture of the great misery which prevails in liberated Serbia. The dispatch, dated January 15 says in part:

"Belgrade today presents the aspect of a convalescent after a serious illness. The population which before the war numbered 100,000, is now reduced to a half. Certain streets, and even certain quarters are still deserted. A very great number of houses have been destroyed, wholly or in part by the bombardment. There is a want of material to reconstruct them.

"Trade is dealing only in goods of prime necessity. All other merchandise is available in very small quantities. The prices, in consequence, are extraordinarily high. A suit of

clothes costs \$200, a pair of boots \$50, hats \$10 to \$14, shirts \$20 and stockings \$6. In the provinces the state of things is still worse. All the children are anemic and infant mortality is great.

"Some foreign relief missions have begun to work and are doing good. All communication between Belgrade and Saloniki is interrupted. It is also a consequence of the war, destroyed. As a consequence, Serbia is practically isolated from the world. The population, whatever their social position are completely without underclothing, and are forced to wear ill-fitting and worn clothes. Some are even in rags.

"The prevailing misery is terrible. It is impossible to apply the most elementary measures of hygiene as there is no means of taking baths or washing linen. A kilogram (two pounds) of very inferior soap costs four dollars."

The new German Government doesn't seem very dependable, which shows that it may not be much of a government, but it's very much German.—Brooklyn Eagle.

American Heiress Who Will Be British Countess

LADY BEATTY

London reports that earldoms will be conferred upon Vice Admiral Sir David Beatty and Field Marshal Sir Douglas Haig in recognition of their services as commanders on sea and land during the world war. Lady Beatty, wife of the commander of the grand fleet, will, therefore, become a countess. She was formerly Miss Ethel Marshall Field, daughter of the Chicago millionaire.

operations of tile. On one area of white land drains are installed to study the relative value of gravel as against straw for bedding over the tile lands, to assist water in entering these drains in sticky soil. Results thus far favor the straw bedding as most desirable and far cheaper. It has been thoroughly established that white land can be successfully tiled, and there is a great increase in the use of tile on such land. Outlet ditches on the district plans will greatly stimulate tilling of individual fields.

Blood is thicker than propaganda.—Greenville Piedmont.

LEGAL NOTICES

Get the Habit of Drinking Hot Water Before Breakfast

Says we can't look or feel right with the system full of poisons.

Millions of folks bathe internally now instead of loading their system with drugs. "What's an inside bath?" you say. Well, it is a guaranteed to perform miracles if you could believe these hot water enthusiasts.

There are vast numbers of men and women who, immediately upon arising in the morning, drink a glass of real hot water with a teaspoonful of limestone phosphate in it. This is a very excellent health measure. It is intended to flush the stomach, liver, kidneys and the thirty feet of intestines of the previous day's waste, sour bile and indigestible material left over in the body which if not eliminated every day becomes food for the millions of bacteria which infests the bowels, the quick result is poisons and toxins which are then absorbed into the blood causing headache, bilious attacks, foul breath, bad taste, colds, stomach trouble, kidney misery, sleeplessness, impure blood and all sorts of ailments.

People who feel good one day and badly the next, but who simply can not get feeling right are urged to obtain a quarter pound of limestone phosphate at the drug store. This will cost very little, but is sufficient to make anyone a real crank on the subject of internal sanitation.

Just as soap and hot water act on the skin, cleansing, sweetening and freshening, so limestone phosphate and hot water act on the stomach, liver, kidneys and bowels. It is vastly more important to bathe on the inside than on the outside, because the skin pores do not absorb impurities into the blood, while the bowel pores do.—Adv.

TULE LAKE HOMESTEAD NOTES

Harry Caton made a trip to Langel Valley this week to bring down some farm machinery.

Three hay stacks belonging to Mr. Edler burned last week. They were on the lake land.

Mr. Kotera is hauling his grain to Malin.

Mrs. Crandall and son, Russell, spent several days in Klamath Falls last week.

Mr. and Mrs. Gregory were in Klamath Falls on a short visit.

The Red Cross work is being done by the women in their homes.

At present there is little influenza in the vicinity, but many have had colds.

at the MOVIE THEATRES

Hundreds of girls who are struggling for a foothold in the artistic world, where the paths that lead to recognition are especially slippery, will follow with tense attention the developments in "Her Price," a new William Fox production which will be shown at the Liberty tonight.

Virginia Pearson, heroine of the film, declared during its making at one of the Eastern Fox studios that she had never derived so much satisfaction from a picture characterization as in the delineation of Marcia Cathoun, this woman of laudable ambition and an iron determination to scale the heights, be the cost what it may. How Marcia discovers that there are more valuable things in life than the plaudits of a public

which but too easily forgets, how she meets the supreme crisis of her life when she cannot look a man in the face and say to him, "I am worthy of you, who bring me the tribute of pure love," forms one of the most thrilling situations in moviedom.

Monroe Salisbury, winner of screen laurels for his work in many master Bluebird photodramas, is at the Temple theatre with his latest and perhaps most appealing drama of the great west. Incidentally, he creates a new role to add to the wonderful gallery of characters he has already made famous.

As Alan McDonald, a Scotch homesteader, the star fights the cattle barons who are trying to drive him from

his land claim. The wealthy men oppress him in all ways; by persuasion and by force. Finally they resort to a practise made notorious by the recent expose conditions among New York gunmen. They hire a professional "killer," a man who agrees to do away with the troublesome rancher for a cash settlement of \$500.

If you like a good scrap, if you are in sympathy with the man of moderate means who is bucking the monopoly of big business, you will like Monroe Salisbury as Alan McDonald in "Winner Takes All," founded on G. W. Ogden's novel, "The Rustler of Wind River which will be shown at the Temple Theatre tonight.

IMPROVES AFTER OPERATION

Little Claud Kern, the nine year old son of Mr. and Mrs. Ben Kern of the Keno district underwent an operation for appendicitis Monday at the Klamath General Hospital and as his case was found to be very far advanced, his condition at first was considered most serious. At last reports, however he was said to be improving.
