A WISE SUGGESTION

The Herald is in receipt of the following letter, and its contents are so full of good ideas that we wish to commend it specially to the attention of the water users of the county and to all other interests generally.

The matter of organization of the various irrigation districts into a federation is a splendid suggestion. The old rule of "in union there is strength" applies with equal force to such an organization as this.

The most important question of the hour is conservation and development of the natural resources of the county. It is imperative that the country provide homes and work for the returning soldiers and those who have been engaged in war industries.

The United States government and every state and community in the Union is striving to provide a solution to this problem. The state and community that first provides a practical plan will reap the benefits thereof and do a great public service.

There are probably few, if any, places in the United States that possess the natural resources and facilities for their immediate development that is enjoyed by the Klamath country.

A German economist says "Germany strove for a new order." Well, she got it and it was "move on!"—Atlanta Constitution.

Thanks to the irrigation law enacted two years ago, which has made it practical for local irrigation and drainage districts organized in accordance with this law, to co-operate with the United States for a water supply and construction, or both, it is feasible to enter at once upon the reclamation of arid and swamp lands of the Klamath project without further legislative enactment.

There are already constructed reservoirs and control systems sufficient to provide for upwards of 500,000 acres of arid and swamp lands.

The benefits to be derived from an early solution of the drainage problem of the swamp lands around the Upper Lake cannot be over-estimated, when considered in connection with the livestock industry of Klamath County.

There are great possibilities in the development of power in connection with the development of irrigation and drainage, and the furnishing of power for manufacturing.

HUN TONGUE IS DISAPPEARING IN MILWAUKEE

MILWAUKEE, Wis., Jan. 24.—The teaching of the German language in Milwaukee grade schools may disappear entirely when the new semester begins in February.

In 1916, 200 teachers were employed to give instruction in the German language to 30,000 pupils and at the end of 1918, only one teacher was employed to instruct 400 pupils in the German language.

One of the final instances in connection with the elimination of German instruction came with the recent announcement that Leo Stern, assistant superintendent of schools in charge of the foreign language department had resigned.

The school board last August voted to abolish the foreign language department, at the end of the present year. Mr. Stern's term expires June 30.

Mr. Stern was president of the Wisconsin branch of the German-American alliance from the time of its organization in 1906 until it was disbanded in 1917.

Another change proposed is to permit Japanese picture brides to obtain passports for the United States immediately after their marriage has been reported to the American authorities.

IF BACK HURTS BEGIN ON SALTS

FLUSH YOUR KIDNEYS OCCASIONALLY IF YOU EAT MEAT REGULARLY.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well known authority.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.—Adv.

WAR AIR FIGHTING WEARS SMILES AWAY DES MOINES, Ia., Jan. 24.—Courtney death in clashes with Boche planes in the clouds or toying with fate in fantastic aerial acrobatics has driven the once constant smile from the lips of Captain "Eddie" Rickenbacker, ace of American airmen in France.

This is disclosed in a photograph of the airman, with his machine, just received by a friend of Rickenbacker's auto racing days, when he resided in Des Moines. His face now seems grim and set.

"The smile of days gone by has faded considerably, as you will notice," he confesses in an accompanying note. "This is my 220 horsepower Spad, which I have had eighteen victories with. Am feeling bully and hope to be back in God's Country again soon. Expect to arrive on the Rhine in another week. The message was dated December 12th.

The choir will furnish special music at both services. Strangers and new comers to our city are cordially invited to these services.

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, for about 50 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it is so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and beautiful.
