OREGON STOCK MEN HONORED IN COLORADO

PORTLAND, Ore., Jan. 29.—O. M. Plummer, manager of the Pacific International Livestock exposition, was elected, together with William Hanley of Burns, to the executive committee of the American Livestock association, representing Oregon, at its meeting in Denver, according to a telegram received here. Senator Kendrick of Wyoming was elected president, and John Roberts of Spokane was added to the executive committee to represent Washington.

The National Western Stock show was the greatest success in history, according to Mr. Plummer. A bull belonging to Mr. Chandler at Baker, Or., sold among the three highest at the sale.

The American Hereford Cattle Breeders' association matched the awards of the Pacific International Livestock exposition dollar for dollar, and it is predicted it will do the same at the Lewiston show.

Frank Harding and Tomson of Shorthorn fame are optimistic over the outlook for the Pacific International under the breeders' control, and predict wonderful support, according to Mr. Plummer.

Spokane was a popular choice as the next meeting place, but the matter was left for the executive committee to decide. Mr. Plummer and Mr. Roberts spoke in favor of Spokane.

A horse show circuit for next fall is being considered by Manager Painter of the California International Livestock exposition, Mr. Schilling the horse-show man, and the managers of the different shows.

LAWLESS SAYS HE WAS NEARLY DOWN AND OUT WHEN HE BEGAN TAKING TANLAC

"When I first began taking Tanlac I only weighed ninety-seven pounds and was just about down and out," said O. D. Lawless, the well known, Omaha produce merchant, residing at 604 South 28th Street, recently, "but I now weigh one hundred and thirty-seven, and so far as my health is concerned, I couldn't ask to feel much better."

"I have not gotten all my lost weight back yet," he continued, "for I had dropped down sixty-one pounds. But I am still taking Tanlac and expect soon to tip the beam at one hundred and fifty-eight, my weight before my troubles began. I began suffering from stomach trouble and getting into a run down condition five years ago, when my appetite went back on me. I lost all desire for food and everything I did eat caused nausea. I had to give up my coffee and many other things I like best, as I could not retain them, and the only thing that half way agreed with me was fruits. There were terrible pains in my right side, which would almost cramp me double two or three times a week. I became uneasy fearing appendicitis, and no one seemed to understand my case or do me any good. I just kept suffering and losing weight until it looked like I would shrink up to nothing.

"My condition had become noticeable to all who knew me, and while talking over my case with a friend one day he asked me why I didn't try Tanlac. Well, this put me to thinking there might be something in Tanlac for me, and there certainly was, for I have already picked up forty pounds and my old time strength and energy have come back to me. I hadn't finished my first bottle until the pains, which I feared were caused by appendicitis, had disappeared. I can drink my coffee now and eat just anything I want and never have the least trouble with my stomach. So you can see why I'm so strong for Tanlac. It has made life worth living for me and I feel like I ought to pass the good word along."

Tanlac is sold in Klamath Falls by the Star Drug Co., and in Lorella by the James Merc. Co.—Adv.

TIGHT SKIRTS THROWING RAIL SCHEDULES OFF.

PHILADELPHIA, Jan. 31.—Tight skirts worn by women passengers have upset schedules on the railroads.

The Pennsylvania Railroad, with scientific accuracy, has found that since women have begun wearing tight skirts the average stopping time of a train at a station is now seven seconds longer than it was when the skirts were short and roomy around the bottom.

In reply to a complaint of the South Jersey Commuters Association that trains were not run on time the management gave this information and stated that unless styles in skirts change very soon the running time of local trains must be lengthened.
