AIRPLANE USED BY OIL MEN ON TEXAS FIELDS

DALLAS, TEXAS, Jan. 31.—Financial success or failure in the new Texas oil fields so often depends upon being first to reach a certain point that the airplane may become a common means of locomotion among oil men, according to big dealers. The airplane was used recently by officers of two oil companies to hurry from Ranger to a new found field. Officers at Barron Field, the government flying field here, say it will be only a short time before airplanes are in general commercial use in the oil fields, because of their speed and the adaptability of the country for flying purposes. The Barron Field authorities estimate that it costs the government \$50 an hour to keep a plane in the air, but that the oil men could operate a machine for \$40 an hour. Good pilots could be selected at not prohibitive salaries from among the hundreds graduated by the War Department in the last year.

ACID IN STOMACH SOURS THE FOOD

SAYS EXCESS OF HYDROCHLORIC ACID IS CAUSE OF INDIGESTION
A well-known authority states that stomach trouble and indigestion are nearly always due to acidity—acid stomach—and not, as most folks believe, from a lack of digestive juices. He states that an excess of hydrochloric acid in the stomach retards digestion and starts food fermentation then our meals sour like arbage in a can, forming acid fluids and gases which inflate the stomach like a toy balloon. We then get that heavy, lumpy feeling in the chest, we eructate sour food, belch gas, or have heartburn, flatulence, waterbrash or nausea. He tells us to lay aside all digestive aids and instead, get from any pharmacy four ounces of Jad Salts and take a tablespoonful in a glass of water before breakfast while it is effervescing, and furthermore, to continue this for one week. While relief follows the first dose, it is important to neutralize the acidity, remove the gas-making mass, start the liver, stimulate the kidneys the kidneys and thus promote a free flow of pure digestive juices. Jad Salts is inexpensive and is made from the acid of grapes and lemon juice, combined with lithia and sodium phosphate. This harmless salts is used by thousands of people for stomach trouble with excellent results.—Adv.

YANKEES NOT EQUAL TO HUN WASH WOMEN

COBLENZ, Feb. 1.—(Correspondence of the Associated Press).—The German washerwomen of Coblenz have won a victory in their first skirmish with officers of the American Army of Occupation. Lack of soap caused the complications. In Germany soap is in greater demand than chocolate or tobacco. The poorer classes virtually have been without it for years, managing to get along some how by the use of inferior mineral substitutes. Many of the washerwomen of pre-war days had gone out of business—until the Americans came. When the travel soiled American arrived in Coblenz by the thousand naturally there was a grand rush to send out bundles of washing. The women were perfectly willing to do the work, but they demanded a cake of soap with each consignment of clothing. The Americans scoffed at the suggestion. The laundries had all they could do to attend to their old customers and a limited number of new ones, and bundle after bundle sent out by generals and colonels and privates too were returned in a hurry. And back again to the washerwoman went the bundles, and the women returned them to the officers with the simple explanation "No soap." All the pleadings of the German speaking orderlies had absolutely no effect. Even the terms of the armistice were considered, but there was no reference to the shortage of soap, and so the situation became worse day after day. Just when it appeared that the Army of Occupation would be compelled to get into the laundry business a United States sales commissary opened in Coblenz and an officer discovered plenty of soap for a few cents a cake. Then the bundles began going to the washerwomen again in great numbers and wrapped in the center of each was a nice little white piece of soap. And when the bundles came back all the clothing was clean and the washerwomen of Coblenz are now doing the greatest business in their history—with the Americans furnishing the soap.

Swift & Company
Year Book 1919

Do You Want to Know Both Sides?

Swift & Company's 1919 Year Book, just out, tells you

What Swift & Company's profits were in 1918,
The truth about the Federal Trade Commission's investigation,
Why the prices of butter and eggs are so high,
And many other vital facts.

Whether or not you agree with us after reading this Year Book, you will at least know both sides.

You will find it interesting; Americans like to hear about big things done in a big way.

You will also discover that we are merely human beings like yourself, doing in the best possible way a necessary service.

Legislation is pending in Washington; as a good American citizen you want to know both sides of this question. It concerns you, as well as one of the most important industries in the country.

Do not hesitate to send for a copy of this booklet. Your name and address are all we need.
