

Buster Brown Shoes

Wear Well Under All Conditions

Good Shoes—strong, sturdy, yet pleasing to look upon—are not the product of chance. Nor

is the total absence of foot-pinchings. Buster Brown Shoes are good all through—in the careful selection of the leather used, the design of the lasts and care taken that any point subject to extra strain should be strongly reinforced.

Buster Brown Shoes are made in a wide variety of styles and leathers by Brown Shoe Company, Inc., of St. Louis.

FORMER RESIDENT VISITS

E. S. Terwilliger, who formerly operated a ranch for many years in the Merrill district and who now resides near Sacramento, has returned to Klamath County and expects to spend the next two weeks on matters of business here.

HERE FOR CONFERENCE.

C. P. Van Houtte of the Pacific Telephone and Telegraph Company at Eugene, and L. R. Robertson and John Hessig, who recently took over the Lake County phone system, are here for a conference regarding the new rates instituted by the government authorities.

ANNOUNCEMENT

The Art Needle work club will meet at the Library Club Wednesday afternoon at two o'clock, to do Red Cross work. Mrs. George Chastain will be the hostess on this occasion. All members are cordially invited to attend.

A PLAIN TALK

It is going to take a lot of hard work to make Klamath Falls a beautiful, clean city. Health is wealth. Let us strive to maintain our health by cleaning up, and be ready if another wave of influenza comes.

The responsibility of the lives already lost and the number that may be sacrificed in the future can be placed on the individual who does not clean up, or who willfully violates sanitary measures.

The City Health Board of Klamath Falls believes that health and the protection of life are more precious to our people and more necessary to their happiness than even the up-building of our lumber industry, or the development of our farming interests, the solving of our financial problems, or even the building of good roads.

Let us get ready for a spring cleaning. What has become of our Civic Improvement Club? The warm, balmy days of spring are coming. Let us be ready.

Did you ever take a walk up on the hillside and look at your city nestled in the hills?

"Rock-ribbed and ancient as the sun: the vales stretching in pensive quietness between;

The venerable woods; rivers that move in majesty and the complaining brooks that make the meadows green."

Are you in for a clean, healthy city? In the next day or two do this:

Telephone Manager Mr. Ludden will give you permission to clean your telephone with a 4 per cent formaldehyde solution. Unscrew the rubber mouthpiece and clean. Do not put any of the solution into the other parts of the phone, however, as you will spoil the delicate mechanism there.

CITY BOARD OF HEALTH.

NOTICE, K. OF P. MEETING

Special meeting Wednesday, February 5th, at 7:30 p. m. Important; please attend—Chester C. Cleveland, C. C. 4-2t

RABBITS SAID SPREADING THE SPOTTED FEVER

BOZEMAN, Mont. Feb. 1.—That wild rabbits play a part in the spread and recurrence of spotted fever, if they are not in fact the main reservoirs of this fatal disease, is the theory that Dr. R. R. Parker, assistant to the state board of entomology, plans to work out on live wild rabbits from various parts of the state. He has requested that live rabbits be sent in by the people of Montana for the purpose. "We have asked that live wild rab-

bits be shipped to us in order that we may work out our theory," said Dr. Parker. "At present the matter still is in the theory stage and nothing must be taken as definitely conclusive that the rabbit is the guilty agent in the spotted fever recurrence and spread."

According to Dr. Parker's theory, humans contract spotted fever from the wood tick, which carries the germ of the disease. Only a small percentage of the ticks actually transmit the germ, he explained, but any may transmit it if they come in contact with the germ. The tick, which has four stages of life, may transmit the germ of the disease thru its eggs to the young. Through the three later stages of the larva, nymph and adult the tick is parasitic.

"PROSPERITY" IN THE MAKING

Right here in the Klamath Country is the place to produce prosperity. Let that which filters in from the outside be so much "velvet."

Supporting home industries and home institutions is a good beginning to make. That, together with an account here at the FIRST NATIONAL BANK keeps the money working where it will do the most good.

E. R. REAMES, President.

The First National Bank
