### HURRAH FOR SENATOR

BALDWIN:

Our hats are off to Senator Baldwin. He has shown that he has the real interests of Klamath Countywe congratulate him on the masterly manner in which he has put through the senate the amendment to the constitution, whereby counties are permitted to vote bonds for the construction of roads. If anyone thinks that he had an easy time of it, then he is mistaken. We have been fully advised through special correspond ents as to the progress this resolution was making, and the obstacles that had to be overcome. There were times when we were discouraged But each day brought the informa tion that Baldwin was on the job So persistently was he after the senators that they hated to see him come. To get peace of mind they agreed to put his resolution through He had to give 'way a little, but even 6 per cent is a big victory for him personally, as well as for Klamath Hearst Pathe News Latest War Pic-

The resolution is now reposing in the committee on resolutions of the house. This committee has adopted the policy of holding up all resolutions until they can be reported to MERRILL OPERA HOUSE the house in a bunch. We hope that Merryman and Burdick will adopt the same tactics as Senator Baldwin, and succeed in getting the resolution reported at once, and having it adopted by the house. Klamath County simply has to have it, and it will not give its members any rest until the resolution has been signed by the governor. Senator Baldwin already is busy pleading with the members of the house, and with this trio working insistently and persistently, we know that the members will listen, heed, and act favorably.

We want to urge every resident of Klamath County who is acquainted with any member of the house, or who has a friend who knows one, to get busy. Write to the member: have your friends write. Leave nothing undone. Get busy today. Don't put it off for a day or two, for we must act NOW. The legislature of Oregon stays in session only forty days. The remaining fime is very short, and if you are interested, you will have to start something immediately. Do not think that the other fellow is going to do the work. He will do his part, but you must do yours. The Herald urges you not to let another day pass before you write to at least one member of the houserot the members from Klamath, for they are alreday doing all they canbut to some other member that you may know. If you do not know one, then you must have a friend somewhere in this state who does. Then w're him, asking that he wire his representative to get back of the Baldwin resolution to amend the constitution. Remember, it will cost you only 50 cents for a telegram, and it may be just the very thing that will land the one vote necessary to pass the resolution.

Keep The Herald posted on the results of your efforts!

If you own an automobile, or operate one, just read the little note published elsewhere in this paper and signed by the Mayor. You can bet your last cent he means what he says and that he is backed up by public sentiment! The day of joy riding on the streets of Klamath Falls is over. So keep down your speed. keep your mufflers closed and don't park, your cars along the restricted blocks of Main street. The people are demanding that the reckles, and fiagrant violation of this ordinance shall stop and those who ignore it in the future shall be brought before the police judge and fined. Play no favorites and enforce the law of the letter.

### TALK OF THE TOWN

BY U. NO.

Ever hear of "Billy" Shreve? You haven't? Then you're no sportsman! Billy has been "making this territory" for something like 16 years. He represents the Remington Firearms outfit, and you know them. Like their stuff, their men are about the best to be found anywhere, and Billy is one of them. In Northern California his name is a household word and instead of asking for "U. M. C." they ask for "Billy Shreve's", Well, Billy's in town on one of his semi-annual trips and he brings a new story with him.

Down in Nevada not long ago he was listening to one of the "big ones" he has to listen to all the time, and this was a whopper. The hunter was telling about hunting mountain sheep. After days of prowling around he and his partners, by the use of strong binoculars, saw a bunch of sheep 'way up on top of a mountain. The leader of the sheep came to the brink of the precipice at the foot of which was a river, and after hesitating a moment jumped off. As he same down the hunter shot him .The other sheep followed the leader and met the same fate, until "every darned one of them was landed." Billy agreed that that was fine work, and he knew it was true, for he and his friend happened to be in that same section and had a somewhat similar experience. They saw the sheep creeping along the same mountain

and the leader jumped off in the same fashion at the same point, "but", said Billy, "I didn't have the a cooked food and kitchen apron sale same luck you had. The darned Co., Saturday afternoon. cuss came half way down, changed his mind and went back up again. He

was never in range of my gun." "BILLY" SHREVE The cruck shot who's friends are legion.
