SPECIAL MATINEE AT THE LIBERTY TOMORROW.

A fine picture of the logging camps is seen in "Prisoners of the Pines", which will be shown at the Liberty Saturday afternoon and evening. As there are not enough seats for the Saturday night crowds the manager has decided to offer an extra inducement for the children at the afternoon performance and thus relieve the crowded condition prevailing at the evening performance. All of the big feature picture will of course be shown and the regular Saturday Mut and Jeff cartoon. In addition there will be the new Hearst News showing all the late events and last but by no means least a special Charlie Chaplin Comedy.

BIG TRADE MEET ON AT CHICAGO IN FEW WEEKS

NEW YORK, Feb. 28.—To furnish to American business men practical information for the development of the foreign trade of this country is the announced purpose of the Sixth National Foreign Trade Convention to be held in Chicago, April 24, 25, and 26th by the National Foreign Trade Council.

James A. Farrell of this city, chairman of the council in calling the convention, says: "Now as never before, the United States must rely upon foreign trade to make certain the full employment of labor and to provide investment for capital; to stabilize industry and prevent disturbance of domestic conditions; to insure the permanent retention and operation of our new merchant counsels under the American flag; to maintain prosperity among American producers and to forestall any retrogression from the high standards that have been achieved."

The Foreign Trade Convention, he says, is called to arouse American manufacturers, farmers, merchants, laborers, bankers, educators, railway and steamship men—all the factors of foreign trade in all sections of the country—to the immediate necessity of promptly solving the foreign trade problems which the country faces. Mr. Farrell pointed out that the productive capacity of America has made a great advance, that "our national fiscal policy facilitates the introduction of foreign goods into our domestic market and that these facts increase the importance of expanding America's foreign trade. "A great foreign trade is ours," declared Mr. Farrell, "if only we proceed with energy upon lines of sound policy. A great carrying trade under our own flag is ours, if only we make it possible to operate our new ships in competition with those of other nations."

It is announced that the Department of State will assign to the convention some members of the Consular Service who have just returned from Europe, Latin-America and the Far East and that the Department of Commerce will send a number of its experts from the Bureau of Foreign and Domestic Commerce. The Shipping Board and the Pan-American Union will be represented.

BIG STRIKE AT NEW YORK.
NEW YORK, Feb. 28.—The Executive Council of the Marine workers has voted a strike of sixteen thousand harbor workers, which will be effective tomorrow. This is the result of dissatisfaction in the awarding an eight hour day without a wage increase. It is believed that only President Wilson himself could prevent this strike.

INCOME BLANK FORMS SHOULD NOW BE FILLED

WASHINGTON, Feb. 28.—Within the next three weeks, or by March 15, every unmarried man or woman who earned \$1,000 or more in the calendar year 1918 and every married person whose income amounted to \$2,000 or more must make a detailed report of his income to the federal revenue collector of his district. On or before March 15 the first installment of the income tax must be paid one fourth of the amount due or all of it if the taxpayer chooses.

This means that millions of Americans must get to work at once to prepare their returns, and for the guidance of tax payers, the Internal Revenue Bureau has issued explicit instructions covering the preparation and filing of returns. This is the A B C of the procedure:

First get a tax return form from the revenue collector's office or from a bank. There are many kinds of these forms. If a person's income was below \$5,000, he should ask for the form especially intended for the smaller incomes. It might be advisable to get two or three of these forms, since one may be spoiled in the preparation. The form is a six-page printed sheet, with detailed instructions for reporting various items of income and for calculating the tax due. By following this form closely even an inexperienced person probably will have little difficulty, particularly if his source of income was not complicated or if it was in wages or salary rather than in business transactions.

The tax rate for most individuals is 6 per cent. For a single person this is imposed on the difference between the total net income for the year and \$1,000 (the so-called exempted amount). For a married man, or for the heads of a family the exemption is \$2,000 and the 6 percent tax is imposed on the difference between that and the total income. There is provision for an additional exemption of \$200 for each child or other dependent person, under eighteen years of age or incapable of self-support. Thus a married man with one child or an aged parent would have an exemption of \$2,200 and would pay tax on the difference between this and his net income. A man with two children would have an exemption of \$2,400; three children, \$2,600 and so on.

The Rider As It Is.
