

HINES FAVORS GOVERNMENT HOLDING THE RAILROADS.

WASHINGTON, D. C., Feb. 28.—Director General Hines has announced, with the President, his approval that the railroads should not be relinquished from the government control until there had been an opportunity to see whether a constructive permanent program of legislation is likely to be adopted, within a reasonable time.

ACTUAL OREGON PICTURES

Many of the scenes in "Prisoners of the Pines", made in the big woods of Oregon and California are actual incidents in the logging camps of our own great state. These pictures will naturally be of great interest to local people and the production is filled with exciting situations that are true to life as the author is thoroughly familiar with his subject, having spent years in the woods himself. At the Liberty tonight only.

BOLSHEVIKISM SAID WORST IN HUNGARY

VIENNA. (Correspondence of the Associated Press).—The menace of Bolshevism has created a critical situation in Hungary whose general outlook is considered infinitely worse than in German-Austria. Under the present government the condition of the country is described as chaotic and a serious Bolshevist outbreak is expected. With its army disbanded the government is unable to offer resistance even if it had the courage and energy to do so.

Public mopeys, it is asserted, are being "squandered" at an "appalling rate" and leading financiers express fear of bankruptcy of the state. The whole situation of the country is reported to be "inconceivably worse than at anytime during the four years of war."

The government is preparing to hold general elections but under the present conditions this appears to be a physical impossibility. There are no lists of voters, and the franchise has been extended from 1,500,000 to 7,000,000 including women who have been granted suffrage. With part of the country occupied by enemies' elections in these districts will be impossible, it is declared.

The fear of Bolshevism is growing daily and everywhere the people are urging that the allies intervene. They express the fear that the conditions now existing in Russia will be repeated in Hungary. Hungarian prisoners of war have returned from Russia imbued with Bolshevist ideas and are spreading the propaganda. It is the general opinion of the people that the Karolyi Cabinet made a mistake in disbanding the army leaving the country at the mercy of the invaders.

While the greatest dissatisfaction is expressed in political circles and among the people generally, and ministerial crises are daily occurrences, no political party is willing to assume the reins of government. Count Karolyi appears to be the only leader available.

ANNOUNCEMENT.

If patrons of the City Free Delivery service will shovel the snow from the sidewalks it will greatly increase the efficiency of that branch of the service. Did you ever think what it means to a Carrier burdened with 50 lbs. of mail to walk from 15 to 20 miles daily over this hilly town on walks covered with snow and slush? The Postal regulations provide for suspension of service to patrons who fail to meet this requirement. We do not wish to suspend service to anyone but all should cheerfully cooperate in this matter, especially in such a long continued storm as the present one.

W. A. DELELL, Postmaster.

That Klamath Falls . . .

Is the best small city on the coast, has been demonstrated by the growth of this Bank. Our business has far exceeded our expectations, as our resources now total over a

Quarter of a Million Dollars

And we do not believe there is another city of its size in which a new Bank could have equalled this record.

Klamath Falls is somewhat muddy at the present time, but barring that, she is an all right city in which to live.

MRS. WILSON SETS NEW TURBAN STYLES

BOSTON, March 1.—Mrs. Wilson returned from Paris wearing a fascinating turban but what has disturbed the local millinery experts was its peculiar shade. Customers now demand that their bonnet makers produce "that color Mrs. Wilson had on." Albert A. Allendorff, president of the New England Retail Milliners' association, declared the president's wife "certainly has started a fad," both in the color and design of the turban. He tried to describe the color.

"It isn't maroon and it isn't rose," he said. "It's somewhere in between these."

Shop windows boasted several new turbans today and it is certain they will be the rage immediately.

WILL MEET SOLDIERS.

Miss Mildred Thrasher and "Pat" Montgomery went to Weed this morning to meet the boys of the Sixty-Fifth Coast Artillery, who are coming in tonight. Asked whether he would be glad to see his brother, Clarence, young Pat said he "sure would be some glad."
