A new advertising plan for the famous Rogers silverware has been inaugurated by the Rogers Company. Instead of spending millions of dollars in magazine and newspaper advertising, the company has decided to put a certain amount of their goods in every home and let the goods speak for themselves. To this end they have selected a representative business firm in each city who will distribute cards to their customers and all that is necessary to do to obtain this valuable silverware is to save these business cards. On the reverse side of each card is printed the number of cards necessary to save to obtain the various articles. A beautiful display of the silver may be seen in the show window at 621 Main Street, opposite the Liberty Theatre. These business cards will be distributed by the Palace Market, Star Drug Store, The J. F. Maguire Company, Ford Garage and the Liberty Theatre. One card will be given to each purchaser of a twenty cent ticket at the Liberty Theatre at every performance, absolutely free.

Some say, those fine Oregon Cassimere all-wool \$25.00 Suits for \$14.85 at the K. K. K. Store for Friday and Saturday.

"Some-one, just for a joke, asked for some sweet-potato seeds. The clerk hunted all thru the seeds but could find no sweet-potato seeds and finally appealed to the boss."

Letters From The People

Editor Herald—There has been presented a petition today for signatures asking the County Court to appropriate a good share of the road money that is to be spent this year on some of the roads from Olene to Bonanza, and as the petition sets forth "this is the main artery that feeds Klamath County from the East and all the Lake county travel must come via this road." Now more than that, for the past five years the county has been divided into 3 Road Districts. For what purpose? The statute provides that 50 per cent of the funds raised from taxation for road purposes must be spent in the Road District wherein it is assessed. If the old order of things were in vogue we would have (and I believe it should be so) a Road District of each and every voting precinct in Klamath County, and for that matter the State at large should have just this law. Then one part of the county could not steal the funds that should be spent in a given locality to improve another part and let the people of the robbed district continue to improve a favored section indefinitely. Perhaps this is Charity.

Now this road has to be traveled 365 days in each year to distribute the U. S. Mails of this and Lake

Counties. Whereas the roads that are being mainly improved are for the benefit of strangers and would be County boosters of our "Scenic Beauties," via Crater Lake and the Lava Beds. Now are we who live all the winter in the snow and mud, and pay the taxes, and content to get part of our mail any old time and in any shape; are we not to be considered? or must we stand back until the "Coverted Tourist" is supplied with pavement "when the weather is good enough to camp out? Perhaps this is a narrow, self-conceited idea to want some of the comforts while we exist here, or perhaps we should move out when the roads get bad and stay with those "Tourists", but, then, we are up against that phrase, "Who pays the Freight Jones?" for we cannot afford to do so. Now, in all candor and from an unprejudiced standpoint, I believe that any road that is compelled to be traveled for the purpose of carrying the U. S. Mail or in other words, "Post Roads," should have the first consideration of our county courts. Simply because a man lives in the remote part of the county is no reason why he does not enjoy reading his papers and letters, and may be able (if the tourist will tell him) how to vote for president at the next election.

Now, as the Oregon legislature has adjourned and it in all its wise and legal acts, handed the "Initiative and Referendum" down to the several counties, perhaps we can take advantage of that law and adjust matters such as the court house fight, county roads and so on, as the resolution simply confines itself to "County Laws" and is made in the broadest sense it was possible to make it.

"These long nights, stormy days, and muddy roads make us all cross: So if this don't find the waste basket we will speak again in the future, if we don't get stuck in the mud going to the P. O.—J. O. HAMAKER.

For Chinese Noodles, Tamales and Chili Con Carne, go to Arnolds Chili Parlors, cor. Sixth and Klamath. 5-4t

"Aw, go on," grinned the clerk. "you can't kid me. Birds is hatched from eggs."—Los Angeles Times.

Klamath County News

SHASTA VIEW

The ranchers of this vicinity whose land can be irrigated by means of a pumping plant, for which they have earnestly worked for some time, felt well repaid for their efforts when word was received Saturday that an appropriation had been made for this purpose. No end to possibilities in this section when irrigation is assured.

Mr. and Mrs. H. E. Wilson are the proud parents of a daughter, Hattie Emeline, born Wednesday, February 29th.

The Shasta View school enjoyed a visit from one of their directors, Mr. Zumpt Friday, who gave a most interesting talk on present conditions in Austria Hungary.

Mrs. Etta Sewell of Klamath Falls is visiting her sister, Mrs. C. M. Kirkpatrick.

J. L. Bailey was a business visitor at Merrill the first of the week.

Mary Cotera was a pleasant visitor at our school one day last week.

FORT KLAMATH

The high school boys of Fort Klamath recently organized an athletic club, the A. R. A.'s, and a game of basketball was played at the club room Saturday evening with a team of Fort Klamath townsmen. The end of the first half found the score in favor of the townsmen, 14 to 12. This served to arouse the A. R. A.'s for the second half, which started with a hard fight that continued to the finish.

The A. R. A.'s won with a final score of 34 to 23. The line-up was as follows:

Clinton Wiley.....center. Harold Wimer
Loran Moon.....R. F.....Ben Noah
Reece Pomeroy.....L. F.....Ludis Wimer
Robert Wells.....R. G.....Oris Moon
Millard Briscoe.....L. G.....Marcus Brewer
Forester Looseley, Referee

The A. R. A.'s have challenged the high school girls for a game, to be played in the near future.

The basketball game was followed by a dance, the first since the flu ban was raised.

SLEEPING SICKNESS IS LATEST DISEASE

CHICAGO, March 6.—It has become known that the "sleeping sickness," known to physicians as encephalitis lethargica, a mysterious malady, which, following in the wake of England's influenza epidemic, struck terror to London and other English cities, has appeared in Chicago and other northern Illinois cities.

Four victims of the curious malady have been reported in Chicago so far. Of these, two died. The other two victims have been given up by physicians to a sleep from which it is believed they will never waken.

Beeman Osgood Jr., 15 of Marquette, Ill., was the last to be reported suffering from the disease. He fell asleep seven days ago. Efforts of his parents to arouse him failed. Dr. Chas. Elliott of Chicago, a specialist at diagnosis, was summoned and pronounced the boy a victim of the "sleeping sickness" and predicted the boy would sleep until death seized him.

It may be that we had this year's winter last winter.—Detroit News.

LIMB WOOD

When used as a fuel, is a very efficient wood, for the reason that, in the first place, the limbs of a pine or fir tree contain much more pitch than the body, therefore they make much more heat than body wood.

Peyton's limb wood is "wood to burn," being properly cured and thoroughly dry, it is of superior quality, and will go much farther than ordinary limb wood.

Phone in your order at once, and allow us a little time, if possible, as we are very busy these days, and the muddy streets will not allow us to hurry.

We also handle the pick of the market in Blocks, Slab, Body Wood, Coal and Fuel Oil.

CAR NEARLY 3 YEARS OLD SELLS BEYOND ORIGINAL PRICE

INTERESTING RESALE HISTORY OF A DEMONSTRATOR

"The resale price is the unanswerable argument as to the status of a car in the public mind," said John A. Butler, president of the Butler Motor Car Company, Kansas City automobile dealer. "In that connection I can give you an interesting illustration, which shows typically how easy it is to move a certain make of car after two or three years' service."

"In February, 1915, we showed our original demonstrator, No. 101, to three thousand people at our opening. The car was then sold, and in December of the same year was resold to the United States Stock Food Co."

"In January this company bought a new car, and we again took possession of No. 101 in trade. For some months we used this car to demonstrate the remarkable durability of the finish. We cleaned up the car, repainted the wheels, put on new fenders and actually very few people knew it was a used car until we called their attention to the fact."

"Finally, in August, 1918, this car was sold for \$850, just \$25 more than its original price in 1915. If any other car has a more interesting resale history, I'll stake my judgment that it's another Dodge Brothers car."
