University of Oregon Glee Club Boys Invade Klamath Falls Tomorrow Night. Rousing Welcome Due Them.

For the first time in its history, Klamath Falls is to be visited by the Glee Club of the University of the State of Oregon.

The people west of the mountains are beginning to realize that Klamath is something more than the geographical designation of a region unknown and therefore to be disregarded. The University authorities are now for the first time aware of a great and growing community east of the

mountains—a community of progressive ideas. They want Klamath to support the University by sending their sons and daughters to Eugene for higher education. It is our duty to co-operate and make the University of Oregon, for the support of which we pay our taxes, a great educational power. Now is your chance to show your loyalty to the state and its greatest institution of learning. Tomorrow evening there will arrive eighteen fine young fellows.

picked from the student body of the University, who will give two glee club concerts—on next Monday and Tuesday evenings—at Houston's opera house. The people of Klamath Falls must show their appreciation of the honor done them, by filling the opera house on both evenings. All the young people who have been there, and all the school boys and girls who want to go and should go to the University, will be out in force. The air will be full of lemon,

yellow and green ribbons, and the College yell, "U. of O., Rah Rah, Oregon, Rah, Rah." All the older people should be there. Go and hear the boys sing. Renew your youth—go and laugh as you haven't laughed since you were sixteen. There is no such solvent for the ills and depressions of creeping age as a hearty laugh with the young people. Be boy and girl again, just for an evening. Go and do honor to the YELLOW, LEMON and GREEN.

SLEEPING SICKNESS GRADUALLY SPREADS

NEW YORK, March 22.—Cases of sleeping sickness, the new malady, which is believed to be an aftermath of influenza, are scattered over the country but not in alarming numbers. Twenty-one deaths have occurred. More than 100 actual cases have been listed in 17 cities but there are believed to be many as yet unreported.

Cleveland and Springfield, Ill., each reported 65 cases. New York has 40. Chicago's number is unknown, the health authorities not making it public.

Other points showing a "trace" of the malady are: Richmond, Va.; San Francisco, Fort Worth, Calumet, Mich.; Minneapolis, Des Moines, Los Angeles, Lancaster, Ohio; Boston, Harrisburg, Albany and Pittsburg.

In this disease the sufferer lapses into a state of coma. In many instances recovery is complete. Some have been known to sleep for from eight to ten days and then "come to life" in good health. A number of communities are considering taking precautions similar to those taken against the spread of influenza.

TO THE CITIZENS OF KLAMATH FALLS

As spring has opened up, and the sun shines bright and the little birds have started their spring work, so let the citizens of Klamath Falls do the same, by cleaning all rubbish from residences, out-buildings; and also remove all dry weeds from around buildings, and burn same; but before burning, call the fire chief and get instructions. The fire chief will call on all owners of buildings, starting today, and inspect same against fire; so, dear public, help us, and you will get the best of service. FIRE CHIEF.
