## BOLSHEVIST WARNING.

The outbreak of Bolshevism in Hungary is only the forerunner of similar outbreaks throughout Europe. Bolshevism is smoldering in every nation, and if the statesmen over there think that they can keep it down by holding before the eyes of the people a picture of the acquisition of conquered territory, indemnities and victory they are only fooling themselves. The people are demanding something else, but the leaders have not heard them yet and they will not hear them until it is too late. They are demanding the signing of the peace treaty. They are demanding a return to pre-war conditions. They are demanding a cessation of the enormous expenditures still being made by the conquerors, the officials of which seem to be possessed of the idea that the people who have to pay the bills are not watching with keen apprehension the mountains of debts that are being piled sky high by men who seem to have become drunk with power.

The leaders of the Bolshevik movement, however, are not asleep to these mistakes and they are brewing a poison out of them that will permeate every nation unless the source of supply is removed by a prompt return to peace conditions. The people want something else to think about besides the terrible nightmare thru which they have just passed. They want once more their friends, their children, their employment, their home life. They have tired of the military, they long for the things they have not enjoyed since that fateful day in 1914 when they were torn from their families and plunged into the bloody maelstrom of war.

And the United States had better turn its eyes and gaze on this scene and take warning. We are none too safe here. Already have we seen puffs arising thruout the Nation. Yet from Washington all we hear is the planning for enormous expenditures, camouflaged with claim that it is for the returning soldier. This fools no one but the easy-chair warrior who failed to do this duty when the boys were at the front. What is needed now in the United States is governmental economy and a cessation of the efforts of office holders to perpetuate the tenure of their employment by squandering the people's money on the plea of helping the soldiers. The soldiers know how this help has been extended in the past, and they are not asking for it in the future. They are asking for the signing of the peace treaty, demobilization and prompt return to normal business conditions. They are tired of this continued effort at

political propaganda, that only has resulted in disappointment and discontent.

## NOW FOR A CLEAN-UP.

Klamath Falls must have on its best bib and tucker next August when the Elks' State Convention is held here, and the time to begin making that apparel is right now. That is why The Herald is going to appeal to the Elks themselves to join in this movement. We want to see Klamath Falls transformed into a bower of beauty, and it can be done at such a small expense that we will all wonder why it has not been done before. This is the plan that the Herald submits for the consideration of the Elks:

Divide the city into districts, with a captain in charge of each district. This captain will divide his district into blocks, with a lieutenant in charge of each block. When this has been done, then it becomes the duty of that lieutenant to visit every resident and induce him to clean up his premises—not only clean them up, but beautify them. This will not be a difficult task, for we do not believe there is a person in Klamath Falls who is desirous of having his home an eyesore to the people of the city. It is the vacant property that is going to be the bugbear. It always has been a nuisance and will continue to be unless there is a concerted move made to clean it up and beautify it, and this is the work that the lieutenant will have to take up and carry to successful completion.

The residents of his block should join with him in the work, and if help has to be employed, the cost should be borne by them, unless it is too heavy, and then it should be paid by the city or out of a public fund collected for that purpose. After everything is thoroughly cleaned, flower seeds should be scattered, using such seeds as will require no care, such as the California poppy, or some other flower that will be blooming during the convention. The cost for these will be small, but the result will be all that one could desire.

If such a program is to be followed out, there is no time to be lost. The soil is just right for germinating the seeds and the cleaning up should be done before the grass and weeds start.

We would strongly urge the Elks to take this matter in hand and call upon the various organizations of the city for such assistance as may be needed and The Herald will be glad to co-operate to the fullest extent to make the campaign an absolute success.

SO EASY! LIKE ROLLING OFF LOG

Sore, touchy corns stop hurting, then lift right out with fingers

You corn-pestered men and women need suffer no longer. Wear the shoes that nearly killed you before, says this Cincinnati authority, because a few drops of freezone applied directly on a tender, aching corn stops soreness at once, and soon the corn loosens so it can be lifted out, root and all, without pain. A quarter ounce of freezone costs very little at any drug store, but is sufficient to take off every hard or soft corn or callus. This should be tried, as it is inexpensive, and is said not to inflame or even irritate the surrounding tissue or skin. After you lift away the troublesome corn or callus the skin underneath is as pink, firm and healthy as the palm of your hand.—Adv.

Mr. and Mrs. W. Black this morning left for a visit with the latter's parents Mr. and Mrs. S. E. Rhodes of the Midland district.

Stanford Aiken, who has been employed by the California, Oregon Power Company here left this morning for a visit at Oakland.

Mrs. C. Wooderson, who has been visiting at the home of Miss Elizabeth Williams here, returned to her home at Ashland this morning.

Carl Coleman, clerk at the Hotel Hall left this morning for San Francisco on a vacation visit. He will return in about two weeks.

E. S. Terwilliger of Berkeley and E. Stukel of Merrill are in this city for a short business visit and are registered at the White Pelican Hotel.

Mrs. C. D. Brown left this morning for a visit with her mother and other relatives at Pendleton. She expects to be away for about six weeks.
