**SCHOOL OPERETTA WILL BE ORIGINAL**

Those who have not yet secured their tickets for the school Operetta "America First," which is to be given Thursday and Friday of this week at the Houston Opera House should realize that the seats for this event are going fast and that an event such as this promises to be should not be missed. It is to be given entirely by the boys and girls of the public schools and is something entirely new in this city. The cast is working hard under the direction of Miss Evelyn Applegate and a fine entertainment is assured.

**LOCAL CHAMBER TO HELP BOYS COMING HOME**

Captain O. C. Applegate as secretary of the Klamath Commercial Club has received two letters from Washington, D. C., one from the United States Chamber of Commerce and the other from the War Department relative to facilitating the return of discharged soldiers, and providing employment for them. The following quotation is taken from the first of the letters:

In the headquarters of the National Chamber, Riggs Building, Washington, there will be established a bureau for the purpose of expediting and clearing this work with which you can get in touch at once by addressing the general secretary of the Chamber. The bureau will be conducted under the supervision and advice of the committee which makes this report. May I ask you as soon as possible to have status taken in response to this request the nature of the agency you may create and the name of the principal officers in charge of it.

The other letter described the necessity of getting the boys into something whereby they could make a living.

Accompanying the two letters are printed details for this work which have been worked out under the auspices of the two agencies.

Captain Applegate declared that the local organization would be ready to stand behind any move whereby the returning heroes could be assisted to prompt and congenial employment.
