OPEN BIDS FOR ANNA CREEK ROAD

IMPROVEMENT HELD UP BY FEDERAL GOVERNMENT ON ACCOUNT OF WAR WILL BE RESUMED IMMEDIATELY

PORTLAND, April 8.—The long delayed improvement of the Crater Lake road is now in sight. Proposals for construction will be opened April 11th by the district office of the United States public roads for the construction of the forest section between the park boundary and Prospect on the Jackson County side, and for Anna Creek section on the Klamath side of the Cascades. These projects are in co-operation with the federal government under the forest road aid act.

The distance to be improved from Prospect to the park line is 22 miles, and the estimated cost of grading and bridges is \$237,000. Of this amount the government contributes \$121,500. The remainder is to be paid by the state and Jackson County. The plans call for three bridges of concrete. Owing to the importance of the road the class of construction will be a little higher than that of forest roads in general.

The Anna Creek section is only two miles in length.

These projects were agreed upon two years ago, but construction was postponed by the federal government owing to war conditions.

The improvement will follow closely the present road, and as a result travel to the park will be somewhat affected during the period of construction.

When the forest end of the work is under way there will be a stretch of 50 miles between Medford and Prospect to provide for. Plans are being made to do this work, or at least a great portion of it in co-operation with the federal government under the post road act.

SUMMER FARES TO BE RESTORED

SAN FRANCISCO, April 8.—Restoration of the low round trip summer fares to practically all summer resorts, effective May 30 to September 30, inclusive has been announced by F. E. Batters, assistant traffic passenger manager for the United States railroad administration.

The rates apply to practically all summer resorts to which summer tickets were sold in the past, said the announcement.

There will be two general classes of fares:

1—For tickets limited to three months—reduction of 20 per cent from double the one way fare.

2—Tickets limited for 15 days, sold Fridays and Saturdays—reduction of one third the double one way fare.

Fifteen day tickets will not be sold to points more than 400 miles distant.

WILSON'S SHIP TO GO ABROAD

PARIS, April 7.—Orders which it is learned have been given for the United States transport George Washington to proceed from an American port to a French port are not taken to mean that President Wilson is contemplating a premature departure from France, but are thought to reflect the belief that the peace conference will be unable to effect an adjustment of outstanding problems at a comparatively early date.

A Message to Parents

We want every boy and girl in Klamath County to have a Savings Account. That's one of the reasons we opened this new Savings Department—to help promote the prosperity of the younger generation. In addition to paying them a liberal rate of interest on their deposits, we are going to encourage them in other ways.
