

HUGE SUM IS GIVEN FOR WAR ON DISEASES

The Rockefeller Foundation of New York intends to spend its income, approximately \$6,750,000 for one year, in fighting disease in various countries. Of this amount \$2,247,130 will be for public health and \$3,726,504 for medical education. The other items of the budget include \$103,000 for miscellaneous payments and \$146,862 for administration.

The public health activities will consist chiefly of efforts against yellow fever, tuberculosis in France, malaria and hookworm. The yellow fever commission, headed by General William C. Gorgas, will sail shortly for Central and South America and it is hoped that it will succeed in entirely eliminating the disease. The Commission on tuberculosis which during the war was operating in France with the American Red Cross, will continue its work on an enlarged scale at the request of the French authorities. Demonstrations showing how to control malaria will be carried on in two of the southern states, and a campaign against hookworm will be waged not only in twelve states of America but in twenty one foreign countries as well.

In addition to this public health work to be carried out by the Foundation's International Health Board, appropriations have been made for studies in Mental Hygiene and Public Health at Johns Hopkins University, and for the development of public health nursing.

The chief work of the Foundation in medical education, according to the announcement, will be in connection with the development of training in modern scientific medicine in China. The Foundation's China Medical Board is organizing a medical centre at Peking, which will be opened in the fall, and it is proposed to open another medical school and hospital at Shanghai. It is the plan of the Foundation to co-operate with other organizations already established in China and to furnish fellowships for medical study in America by Chinese physicians and nurses and by medical missionaries on furlough.

Additional expenditures which have been authorized are for the Rockefeller Institute of Medical Research and toward a contribution of \$1,000,000 made two years ago for the development of the medical school of the University of Chicago.

The Foundation will continue its war-work program this year, and at the request of the War Department will maintain the War Demonstration Hospital. It will assist in the care and treatment of soldiers mentally and nervously disabled.

SINN FEINERS PLAN INCREASE OF INFLUENCE

DUBLIN, April 12.—(Correspondence of the Associated Press.)—The Sinn Feiners are preparing very thoroughly for the capture, at the next elections, of complete control of the Irish local bodies. The work of canvass and propaganda already had begun. As no other organization is similarly prepared, it is considered likely that the Sinn Fein plans will be successful, and that in the majority of cases the local governments will pass into Sinn Fein hands.

At least four thousand Guardians and a similar number of District Councillors and many hundreds of County and Urban Councillors will be chosen as candidates.

Nationality, the principal organ of Sinn Fein says concerning the election: "It will give us an opportunity of proving to the world what Ireland can do in the domain of self-government and will prepare the country for the greater task of national government later on."

The Sinn Fein leaders have not explained how they propose to operate local government bodies apart from the control of the British government. The local bodies have the power to levy and spend very large sums in local matters, but the whole system is subject to the code of British law, and every local body is under the jurisdiction of the Irish Local Government Board which is a body appointed by Dublin Castle, whose assent and authority is required to everything.

Their opponents say that if the Sinn Feiners work under the Local Government Board, as is unlikely, they will be making themselves a branch of the existing Irish administration. If they do not, it is claimed, they cannot legally work at all.

The Sinn Feiners have decided to use the local bodies in which they obtain control as a means for the spread of the Irish language. In the recent Parliamentary elections an attempt was made to select as candidates only men capable of conducting public business in the Irish language. So far as possible the principle will be applied to the coming local elections although there will be several thousands of nominees.

KLAMATH IS ON COLLEGE LISTS

COUNTY HIGH SCHOOL WITH EIGHTEEN OTHERS IN STATE IS PLACED ON ACCREDITED COLLEGE LIST

SALEM, April 12.—Eighteen Oregon high schools, including four in Portland, were accredited by the commission on accrediting at the Inland Empire Teachers' association convention in Spokane last week, according to a report brought back by E. F. Carleton, assistant state school superintendent for Oregon, who is a member of the commission. The accrediting of schools makes their graduates eligible for entrance into any standard college or university in the United States without examination.

The four Portland high schools accredited are Franklin, James John, Jefferson and Washington, and the other 14 are Albany, Ashland, Astoria, Baker, Bend, Corvallis, LaGrande, Klamath Falls, Marshfield, McMinnville, Medford, Oregon City, Salem and The Dalles. Four other high schools of Oregon will meet the requirements, but reports had to be returned for additional information and will be passed upon during the next 30 days. Applications were passed upon from Oregon, Washington, Idaho and Montana.

reason to be proud. The latest to gain public notice is Mrs. Don J. Zumwalt, whose delightfully pleasing voice has so often charmed the people of this city. Mrs. Zumwalt has been sojourning in California for the past year for the benefit of her health, and latest reports indicate that the improvement has been great enough to warrant the expectation of her return to her home and many friends here in the near future.

The following items from copies of the San Jose Mercury will be of interest to Mrs. Zumwalt's many friends and former pupils:

The program concluded by an interpretation of Russian music by Mrs. Zumwalt who has unusual ability both as a pianist and a soloist. Her comments on the different composers added to the pleasure and education of worth of the afternoon. A prelude by Rachmaninoff showed the wonderful contrasts in their music, from the slow and majestic to the lighter vein; a nocturne by Borodin, with a minor rhythm thru the whole piece. Mrs. Zumwalt then delighted her audience with "Mother Dearest," and other folk songs in happier mood, by request she gave a rendition of "Romance in F Minor," by Tchaikowsky.

The feature of the afternoon was the music by Mrs. D. J. Zumwalt who has voice of rare charm. She delighted her listeners with the rendition of (a) Lullaby from Jocelyn, by Godard; (b) "There, Little Girl, Don't Cry," by Sobeski. She was sympathetically accompanied by Miss Alice Cewsklin.

Mrs. Zumwalt's home is in Klamath Falls, Ore. She is passing the winter with her mother, Mrs. A. L. Kinsey, of San Jose avenue. Later in the afternoon Mrs. Zumwalt kindly gave several piano selections and songs acting as her own accompanist.
