MEXICAN TOWN ON THE BORDER GROWS POPULAR

EL PASO, Tex., April 21.—Jaurez, the Mexican metropolis of border towns, has become the oasis in the great American prohibition desert.

On Calle Comercio, the number of saloons has increased since the operation of the Texas ten-mile military zone law, until every other door opens into a barroom.

Many of the old-time El Paso saloon keepers, who were familiar figures at famous and notorious places here, have donned white aprons in Jaurez.

Boozeleging, the hand-maiden of the border saloon, is becoming an important industry. American author-

ities have discovered that Mexican servants, wash women and street laborers who cross to El Paso each morning carry contraband liquor in quantities, and are making far more money through its disposal than they are from their labors.

The prosperous Mexican saloon keepers say that a return to normal passport regulations will make Jaurez the Mecca of sporting men from the United States.

WOMEN LAWYER EXPECTED SOON THRU ENGLAND

LONDON.—(Correspondence of the Associated Press)—The house of lords having passed the second reading of Lord Buckmaster's bill letting down the bars of the legal profession to women, the indications are that the measure will become a law during the present parliamentary session.

One by one, as a veteran observer of the struggle for women's rights points out, all the old sex barriers are tumbling down. It was strange,

he says, to hear the government's blessing of this bill pronounced by the Lord Chancellor, who, as Sir F. E. Smith, was one of the chief opponents of woman's suffrage when he was a member of the house of commons.

The work performed by women during the war, the Lord Chancellor explained, in vindicating his former opposition, had profoundly altered matters. "I must say," he continued,

"that under the changed circumstances of the time the government welcomes this proposal, and that it is their hope that they may be able to give it such assistance as will render its passing into law highly probable."

The bill confers upon women the right of qualifying either as solicitors or barristers. It does not extend, however, to Scotland or Ireland.

DEATH LIST OF FRENCH WRECK TOTALS THIRTY

PARIS, April 21.—The death list on the railroad wreck near Lens last Thursday amounts to thirty-three, including sixteen Americans. Among the dead is a ten year old French boy adopted by the Americans as a mascot.

The great popularity of the Travelers LOW COST Guaranteed life policies is reflected in the fact that during 1918 this progressive company issued more than \$218,000,000 of new life business. Ask Chilcote & Smith about the NEW 1919 policies. 9-17

DRINK A GLASS OF REAL HOT WATER BEFORE BREAKFAST. Says we will both look and feel clean, sweet and fresh and avoid illness.

Sanitary science has of late made rapid strides with results that are of untold blessing to humanity. The latest application of its untried research is the recommendation that it is as necessary to attend to internal sanitation of the drainage system of the human body as it is to the drains of the house. Those of us who are accustomed to feel dull and heavy when we arise,

splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the slices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should each morning before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the day's indigestible waste, sour bile and poisonous toxins; thus cleansing, toning, liver and bowels the previous evening and purifying the entire alimentary canal before putting more food into the stomach. The action of an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying hot water and limestone phosphate on your breakfast the phosphate hot water is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatic stiffness; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.—Adv.

PEACE ENVOYS ASK COUNTRY TO TAKE LOAN

American Delegates in Paris Sent Victory Message to Nation

Four members of the American peace mission in France, Secretary of State Robert Lansing, Col. E. M. House, General Tasker N. Bliss and Henry White, have sent this message to the American people urging support of the Victory Loan:

"TO THE AMERICAN PEOPLE: We have had the opportunity here in France to see and realize the magnitude of the accomplishment of our country in this war and the magnificent spirit with which this great task has been carried through to a triumphant issue.

"What has been done and what remains to be done before normal conditions are restored demand your continued and united support with the same spirit of self sacrifice and determination as that which was manifested by the nation while the German armies faced our men at the Marne and in the Champagne, at St. Mihiel and in the Argonne. We must not relax our efforts until every soldier of the republic is landed on the soil of America.

"To finish this mighty task imposes upon the government of the United States a great financial burden. The Victory Liberty Loan must thrive. If it should fall it would indicate that the Nation is willing to leave its task uncompleted.

"To secure the ideals for which Americans fought and died this great demand on national patriotism and united effort should meet a generous and universal response. Let us do our duty to the end.

"ROBERT LANSING, "HENRY WHITE, "E. M. HOUSE, "T. N. BLISS.

SHOT 9 TIMES SOLDIER TAKES HUN TRENCHES

Corporal Storms Heights of Ourcq River With Remnants of His Platoon

At the direction of the War Department General Pershing has forwarded from France accounts of 100 deeds of heroism performed by soldiers of the American forces, most typical of the spirit of our army. The story of Corporal Sidney Manning is one of conspicuous gallantry.

Corporal Manning was in charge of an automatic rifle squad when his battalion assaulted the heights of the Ourcq River. During the advance on the hill Manning's platoon commander was killed, and just as the line reached the crest of the hill the platoon sergeant fell.

Corporal Manning then assumed command of the platoon. Though he himself was severely wounded and was the only survivor of his squad, this soldier led forward the 35 remaining men of the platoon against an enemy strong point, wired, entrenched and defended by machine guns, which dominated the Ourcq valley. He was repeatedly wounded but with seven men took the position. While his men consolidated the line he held off a considerable number of the enemy fifty yards away with his rifle. When the position had been consolidated he crawled back to shelter, having received nine wounds.

Backing up such examples of sacrifice as this the government is calling on the people to take the Victory Loan to pay for the expenses of our war time army.

CANNY DOCTOR PUMPS FRIEND AND PROFITS

San Francisco Physician Lets Patients Pay Him in Bonds Rather Than Cash at Par

This reads or tastes or looks like the foam of a press agent's brew. But it isn't. It actually happened although it is propaganda.

There is a physician and surgeon of high professional standing in San Francisco who, if he wasn't Irish, would be Scotch. He is that canny.

The other day he met a friend of his, a stock and bond expert. "Doc," as his friends call him, is always looking for information. He pumps everybody and they like him for it. So the bond man wasn't a bit surprised when "Doc" shot this at him:

"How about the next Liberty Loan—it it going to get over?" "It sure will," replied the bondman. "It's going to be the last and the best of the Liberty Loans."

"Advise me to load up?" persisted "Doc."

"I sure do—best security in the world—year from now it will be worth half again as much as you pay."

"Well, I figured it out that way myself," confessed the physician. "Of course I was going to buy anyway, but I think I'll strain everything a bit and really load up."

"Suppose you've got previous issues?" asked the bondman.

"Sure, and what's more I'm still piling those Liberty bonds up. Every time a patient offers them in payment I grab them. They look good to me."

"You're a wise guy—hang onto them, Doc. I've got a few myself. Gotta date with the wife—so long."

HALF BILLION SAVED ON AIRCRAFT BILL

Half a billion dollars was saved by the War Department up to April 1st by cancellation of aircraft contracts. These contracts, according to the government statement, are only a small part of the saving which has been made by abandonment of contracts for war material. In spite of these savings, the statement adds, material costing millions of dollars will have to be paid for largely through money to be raised in the Victory Loan.

PRESIDENT'S DAUGHTER IN LAST TRENCHES OCCUPIED BY HUNS BEFORE WAR ENDED

This photograph shows Miss Margaret Wilson, daughter of the President, in the last line of trenches deserted by the huns before the armistice was signed. She made a tour recently of the famous battlefields,

feeling an especial interest because of the work she had done near the front by singing for the doughboys under the auspices of the Y. M. C. A. French officers are describing the methods used by the Germans in throwing their hand grenades.
