THE VICTORY LOAN

Opening of the Victory Loan Campaign in Oregon signals the close of the drive as well. This is as it should be. Subscription to the loan is the duty of the individual, and it should not be necessary when the government offers its war bonds for soliciting committees to devote effort to obtaining the subscription.

The privilege of American citizenship is one that has been sought by millions of immigrants from other lands where the door of opportunity was closed. In the land of the free they have found equal opportunity with every other citizen and most of them have been content to become a part of the government of their adoption. But to the person fortunate enough to have been born an American citizen, the obligation of duty to country is inherent. The opening of the fifth and last of the government war loans closes the date for settling the individual obligations that the government has assumed for the people in order to pay the accumulating costs of the last period of the war.

There are still 1,600,000 American soldiers overseas. The big task of the government is the bringing home of these men and their return to civil life. Since the signing of the armistice there have been many divisions of American forces returned home, but with the ceasing of hostilities other and different demands for ocean tonnage and heavy expenses were involved in the closing of great munition and other industries. The ship of the state was moving "full speed ahead" on a war program of such magnitude as has never been anticipated until the present war. It was for this reason that the heaviest expense of the whole war period was borne by the United States during the last five months.

It was indeed a cause for rejoicing when the Victory Loan quota was announced by the Treasury Department that the total was 25 per cent less than had been anticipated. The ease with which the financial ability of the American people enables them to absorb this loan is eloquent of the power of the nation.

CITY BACK OF BIG CLEAN UP

COUNCIL TAKES MOVE LAST NIGHT—MAYOR WILL ISSUE PROCLAMATION FOR FORENOON OF THURSDAY.

Endorsing the recommendation of Health Officer Dr. A. A. Soule, the City Council last night authorized Mayor I. R. Stable to issue a proclamation requesting the closing of all business houses on Thursday forenoon for the purpose of a general clean up of the business and residence sections of the city. It was plainly evident from the attitude of the Council members that they are unitedly back of the mayor and health officer in the effort to bring about a change in the sanitary conditions of this city. Dr. Soule intimated that the ordinance bearing upon this important matter has been allowed to become a dead letter in the files of the city's papers but that a change was to be brought about.

WIFE OF CROWN PRINCE WANTS DIVORCE NOW

ZURICH, April 19.—The former German Crown Princess Cecilie has taken steps to divorce her husband, Frederick William, according to a statement given to Swiss newspapers by the former Grand Duchess Anastasia of Mecklenburg-Schwerin, mother of the former crown prince.

The statement says that it long has been the desire of Cecilie to divorce her husband, but that the pressure of the Hohenzollern family up to this time had prevented her from carrying it out.

The statement of the grand duchess charges Frederick William with cruelty to his wife, saying: "On one occasion some time ago, the situation became so unbearable that my daughter actually fled from her home. She almost succeeded in reaching Switzerland. Orders were sent from Berlin to intercept her and she was captured at the German frontier like a common criminal and taken to Berlin under arrest."

"My daughter will be able to place before the German court overwhelming evidence against her husband and will be able to prove many instances of gross cruelty. His infidelities were numerous and there is abundant proof of them. His brutality was atrocious. On more than one occasion my daughter was treated with great violence. She was bruised and her face was disfigured by her husband's blows."

Berlin dispatches by way of Zurich February 3, said that Frederick William had instituted proceedings for a divorce, but there have been no further reports on the case.

SUCCESSFUL DANCE.

The dance at St. Cloud on last Saturday night was well attended. Many town people were present by special invitation. Prof. Terrells led the orchestra and furnished splendid music.

VICTORY LOAN TEST OF PATRIOTISM—Wood

Major General Leonard Wood, who at Camp Funston trained two divisions of Americans for overseas service, has asked the American people to support the Fifth Loan. He says:

"We have carried the war on successfully so far and we must see it through. The Fifth Loan, coming as it does after the armistice, will be a more severe test than the others, of the patriotism of our people. It is just as important as any loan we have made, and it should be carried through just as vigorously as the others. It is no time now to let up on our efforts. Reorganization is even more difficult and almost as important as the period of preparation. Put it over, and good luck. We must have it."

THE PEOPLE WILL PAY

Regardless of what our feelings may be as to the management of the war, our honor as a nation is pledged to the payment of the bills for the war. No man who holds his own reputation for business integrity above reproach doubts that. He would scrupulously pay his own debts and the debts of his country are a very definite part of his own obligations.

The government has contracted certain debts. It has come to the people for the money with which to satisfy these obligations. Through statements of its highest officials it has repeatedly made clear to all that it expects to secure this money not from the banks or the great financial institutions, but through the whole hearted support of the great majority of its citizens.

It will be a higher type of patriotism that will be called to the test during the coming days than responded to the former appeals of the government. Aside from a few technicalities the war is over. The fifth loan will be raised without the spur of hostilities because the American people are capable of reaching greater heights of patriotism than they have ever attained.

GUARD BABY'S HEALTH WITH PURE LIME WATER

As lime water is used mostly for babies, too much care cannot be taken in its preparation. Ordinary builder's lime and city water are not good enough, according to our idea. We use pure lime and distilled water in making our lime water, and make it fresh each week.

It will cost you no more than the ordinary kind which some druggists sell.

Saved Many Soldiers by Use of Blood Transfusion

Major O. H. ROBERTSON

Many a soldier owes his life to Major O. H. Robertson of the Rockefeller Institute who has just returned from France. He went to Europe in May 1917, and served for a time with the British before joining the American forces. Major Robertson, who is an authority on blood transfusion, said that exceptional results from the treatment had been obtained, particularly in hemorrhage, shell shock and major surgical cases.
