

LANE TO WRITE WATER USERS

Questions Asked by Directors of Project Require Reply Too Long For Telegram—Letter to Follow.

G. W. Offield:

The telegram signed by you and Bradbury involves so many questions that telegraphic reply is not practicable, will answer soon as possible.

FRANKLIN K. LANE.

The above message has been received by the directors of the Klamath Irrigation district in answer to the list of questions wired in a few days ago regarding the status of the water users here in relation to their rights for the power, sites and other matters on the Klamath Project.

The list of questions submitted to Secretary Lane are as follows:

"People on Klamath project desire to know the policy of the Reclamation Service relative to final disposition of power features of project. Recent act of service negotiating a lease of 19 years with California-Oregon Power Company of Keno canal with privilege of building dam across Link River with control of same for 50 years without consulting wishes of people has aroused much hostility and suspicion. People willing to co-operate with Reclamation Service in all matters pertaining to proper development of project but high handed acts render such course difficult. Would be pleased to receive from you explanation of your course which shows same to be compatible with best interests of people on project and to that end would kindly ask for immediate telegraphic reply to the following questions:

"Is the power account, if any, charged to the Klamath Project?"

"Is the Klamath Irrigation District liable for expenditures made by Reclamation service in connection with power canals, sites and other power features incident to Klamath Project?"

"If power features have been segregated from Klamath Project have individual water users been given credits for amount charged to power features under their annual installments on the cost of the Klamath Project?"

"Have the recommendations of the Board of Review been adopted as a matter of policy wherein one-half of the cost of the power features have been charged to Units one and two and one-fourth to Tule Lake and one-fourth to Lower Klamath Lake marshes Klamath Project, and if not why recommendations were not followed?"

"If the power features of the Klamath Project have been segregated and are no longer charged to said project by what authority was it done and who is to repay the money expended in that connection?"

"If no portion of the power account is chargeable to canals will the title to and management of said canals be turned over to water users?"

"If it is contemplated to sell the Ankeny power canal, site for power house and water right, will Klamath Project get credit for the amount realized on said proposed sale and will the liability mentioned in contract between United States and the Klamath Irrigation District be reduced to that extent?"

"Will the Klamath Irrigation district at any time in the future acquire absolute ownership of the canals and lateral system supplying water to the district with sufficient water to irrigate the district lands?"

"Does the sum of money specified in the contract between the United States and the Klamath Irrigation District represent the total liability to the United States and will that be all that said district will be held liable for on account of the development and cost of project?"

"Is the Klamath Irrigation District now liable for any deficit that may exist in connection with the Klamath Project as a whole, and may it become liable therefor in the future?"

"Does the contract now existing between the Klamath Irrigation District and the United States abrogate or supersede the contract of guaranty between the Klamath Water Users' association and the United States for the whole amount expended in connection with the Klamath Project?"

"Inasmuch as the following clause with reference to the Ankeny Canal in the contract between the United States and the Klamath Irrigation district was not in said contract when voted on by the water users do you

consider the Klamath Irrigation District to be bound thereby:

"Provided that said maximum sum does not include any proposed cost of additional drainage, replacement of perishable structures, or any rights to the Ankeny Canal, but covers only amounts expended or authorized to be expended prior to date hereof."

"By what authority do you add \$6 penalty on lands brought into the Klamath Irrigation District not previously under stock subscription and contract, or water right application, and if this penalty is waived, will the United States give Klamath Irrigation District a corresponding reduction of the amount of the indebtedness assumed in contract between United States and Klamath Irrigation District?"

"Do you consider that the Klamath Irrigation District would be liable either directly or indirectly for possible damages resulting from the construction of the proposed dam and dykes pursuant to authority given California and Oregon Power company?"

"Will the Klamath Irrigation District or Klamath Project at large have first privilege of purchasing power possibilities incident to Klamath Project for the amount actually expended by the Government in connection therewith?"

KLAMATH IRRIGATION DIST.
Geo. W. Offield,
R. E. Bradbury,
Directors.

Klamath County News

LORELLA LOCALS.

After several days of high winds, Easter Sunday dawned bright and fair and was a perfect day. A good sized congregation gathered at the Lorella school house and listened to an able discourse by Rev. Mr. Blackwell of Bonanza. A large number carried basket lunches of which they partook after the services.

The many friends of Mr. and Mrs. David McComb are pleased to hear that a new son has arrived in their household.

Miss Frantz, the teacher of the Lorella school, has been obliged to give up her school on account of ill health. This is regretted by all as Miss Frantz is one of the most ef-

ficient teachers the school has ever had, and has done most excellent work. She is succeeded by Miss Cole, who will finish the year.

The school in the Brown district closes next Friday. A program will be given in the afternoon under the direction of the teacher, Miss Farnum. The school from the head of the valley—Miss McReynolds teacher—will join with them that day.

Miss Kate Cairns, of San Francisco is visiting in the home of her sister, Mrs. T. Bieler.

Mrs. Charles Loomis from Portland is visiting her parents, Mr. and Mrs. H. J. Ticknor.

Mrs. A. B. Brown, who has been in poor health for some time, has been much worse the last week. She is confined to her bed and suffers a great deal.

Mr. Robt. Casey, who has been visiting his children, Mrs. Geo. Noble and Mr. J. B. Casey, returned to his home in Ashland last Friday.

HENLEY

The Easter exercises at the Mt. Laki church were a great success and a good crowd enjoyed the program.

The Ladies Aid meet at the church Wednesday and tacked a quilt for Mrs. Smith of Klamath Falls. Those present were Mrs. John Koonz, Mrs. Steaman, Mrs. Zaman, Mrs. Gleem, Mrs. Butler, Mrs. Grizzle, Mrs. Case.

Mr. Fairclo has been on the sick list but is some better at this writing.

Miss Nellie Latta received 20 baby chicks from a hatchery at Salem one day this week.

Harry Booth is hauling hay from the Fairclo ranch.

NEW JAPANESE LAWS PASSED.

SACRAMENTO, April 23.—The State assembly has passed a school bill here today prohibiting the Japanese from attending the regular elementary schools where special schools for Mongolians are provided.

FEW FOLKS HAVE GRAY HAIR NOW

DRUGGIST SAYS LADIES ARE USING RECIPE OF SAGE TEA AND SULPHUR

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmothers made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture, improved by the addition of other ingredients by asking at any drug store for a 50-cent bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and

draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications it also brings back the gloss and lustre and gives it an appearance of abundance.

NEW COMMANDER AT CAMP LEWIS

SPOKANE, April 24.—Major General William H. Johnston, commander of the 91st Division has been assigned as permanent commander of Camp Lewis, a special dispatch from Washington, says.

ADLER-LKA DID IT
"I had pain in the pit of my stomach, no appetite, sour stomach and very much gas. Doctors could not help me. The FIRST dose of Adler-Lka helped me." (Signed) Henry Welp, Lake View, Iowa.
One dose Adler-Lka relieves sour stomach, gas and constipation INSTANTLY. Empties BOTH upper and lower bowel. Flushes ENTIRE alimentary canal. Removes ALL foul CURERS constipation. Prevents appendicitis. We have sold Adler-Lka through, cascara, glycerine and other simple drugs. Whitman Drug Co.—Adv.

Paint is Cheap Today
YOU producers and growers who sell such things as beef, hogs, grain, beans, wool, eggs, butter, potatoes, do you know that the money you get for these things will buy more Heath & Milligan Paint today than ever before? Then why not use paint freely on your buildings this season rather than wait and have expensive repair bills later on?
Heath & Milligan Paint on your house acts like a mackintosh. It shuts out any chance of decay. It is dependable—cheapest in the end.
