BUY THE BONDS.

One of the big contributing factors in making America's doughboys such splendid fighters was the realization that this nation was solidly behind them.

Through letters from home, clippings from home town newspapers and articles appearing in the official publications of the A. E. F., they were in fairly close touch with the war-waging activities of those they left behind them.

It served as an inspiration and made more endurable all the privations, suffering and horror of modern warfare.

Since the signing of the armistice thousands of these boys have returned.

They are going to get a "close-up view" for the first time of how this country goes about "putting over" a Liberty Loan issue.

These boys have a lot of faith in us. "You folks sure didn't go to sleep on the job while we were 'over there,'" they say.

If we fall down on the Victory Liberty Note issue we are going to disillusion a lot of these soldiers. They immediately will begin to discount all the good things they have been hearing and thinking about us.

The whole thing would be inexcusable and humiliating.

Not only must the whole note issue be subscribed, but what is more important, every citizen must wear a Victory button so that our boys will know we all had a share in it.

EDITORS' COMMENTS ON THE LEAGUE OF NATIONS.

Northampton Mass., Gazette—College professors and ministers are for it. The plain people are not.

Lancaster, Pa., Examiner—To us it seems that Mr. Wilson's exposition is definite only in its nebulosity.

Mechanicville, Pa., Journal—The United States should be a free lance, not bound to any bolshevik uprising or socialist farce.

Yakima, Wash., Republic—Business men and practical men of affairs are skeptical; idealists, reformers, persons of strong religious convictions, women—all who are constitutionally opposed to violence—are more or less in favor of the league without stopping to inquire into the probable efficacy of the proposed organization of its effect on American institutions and sovereignty.

New York City, The American Banker—We believe that the United States rendered a tardy but necessary service and now should withdraw entirely from European affairs.

Gallipolis, Ohio, Tribune—We believe the proposed league of nations hazardous and contrary to Washington's counsel, under which we have become the most influential nation in the western hemisphere.

Poughkeepsie, New York, Legal News—Why change our slogan from "America first" to "America ninth"?

MAKING MONEY GROWING BELTS

Clearing more than \$1500 from 11 acres of sugar beets is the record of a Twin Falls, Idaho, farmer last season.

This crop was a trifle less than 20 tons to the acre, but gross returns were \$2,529.50. This includes \$2,183.50 for his beets, \$295 representing value received from pulp in feeding his stock, and \$45 for pasturing from nine of the eleven acres.

After paying himself and his horses \$400, seed and hired man \$173.33, water tax \$33 county tax \$352 this farmer found that his expenses totaled \$991.33. This left him a clear profit of \$1538.17.

WHO WOULD PAY?

The Standard Oil company of California paid \$4,900,000 as first quarter payment on its 1918 income and excess profit tax.

And thereby hangs a tale. Suppose the government owned the oil wells, as many politicians of bolshevistic leaning advocate; also the railroads, wire lines, insurance, utilities, shipping, etc.

Who would be paying the taxes, and who would be buying the Liberty Bonds? Did you ever hear of the postoffice paying any taxes or buying any bonds?

No. The added tax burden would be shifted to the common people together with increased cost of operation and added expense of public officials.

The railroad administration and Mr. Burleson have dearly proved this with the railroads and telegraph lines by increasing cost and reducing service to the public.

Europe crumbled under government ownership and paternalism, let us fight it to the end in this country.

DO NOT BE DISCOURAGED.

Champions of western development should not be discouraged. The setback given the oil land leasing bill is only temporary, and it should encourage, rather than discourage the people.

What We Eat

Said Mr. Fly to Mrs. Fly, "I hear they're after us. It seems unfair for great, strong men To raise such an awful fuss."

"I heard it at the table Where I went to get my lunch; The cooks have turned against us too— They're such a stupid bunch."

"When the waiter scared me off the cakes He said, 'Oh, darn the flies!' But I just hid in a lady's hair And then explored the pies."

"Out through the kitchen door, in the yard, I found 'smothered-chicken-in-swill,' I really thought I was going to burst, I had eaten such a fill."

"When I came back to the dining room, I fell into a glass of water; But I crawled out and got away, Before they found the swatter."

"I drank from a handy cuspidor, Then flew out into the street Where I rode on a baby's candy And his lips so sticky and sweet."

"It seems a shame to war on us— We live in such bountiful ease!— And all because man with his notions, Declares we spread death and disease."

"Don't worry, dear," said Mrs. Fly, As she preened her wings and legs. "If we must die, our name shall live, I just laid a thousand eggs."

MEAT CAUSE OF KIDNEY TROUBLE

TAKE SALTS TO FLUSH KIDNEYS IF BACK HURTS OR BLADDER BOthers

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to excrete it from the blood.

To neutralize these irritating acids, to cleanse the kidneys and flush off the body's urinous waste get four ounces of Jad Salts from the pharmacy here, take two tablespoonfuls in a glass of water before breakfast for a few days and your kidneys will then act fine.

Get the Habit of Drinking Hot Water Before Breakfast

Says we can't look or feel right with the system full of poisons.

Millions of folks bathe internally now instead of loading their system with drugs. "What's an inside bath?" you say. Well, it is a guaranteed to perform miracles if you could believe these hot water enthusiasts.

There are vast numbers of men and women who, immediately upon arising in the morning, drink a glass of real hot water with a teaspoonful of limestone phosphate in it. This is a very excellent health measure. It is intended to flush the stomach, liver, kidneys and the thirty feet of intestines of the previous day's waste, sour bile and indigestible material left over in the body which if not eliminated every day becomes food for the millions of bacteria which infests the bowels, the quick result is poisons and toxins which are then absorbed into the blood causing headache, bilious attacks, foul breath, bad taste, colds, stomach trouble, kidney misery, sleeplessness, impure blood and all sorts of ailments.

People who feel good one day and badly the next, but who simply can not get feeling right are urged to obtain a quarter pound of limestone phosphate at the drug store. This will cost very little, but is sufficient to make anyone a real crank on the subject of internal sanitation.

FIGURE EIGHT IS JINKS FOR "BILL'S" FOLKS

BERLIN, April 28—A student of history has discovered that the figure eight has played a dramatic role in the lives of the Hohenzollerns. Two German emperors died in 1888. Two attempts were made on the Kaiser's life in 1878. Frederick William's fourth mental disease compelled him to make way for a regency in 1888.

LOGGER FATALLY CRUSHED

BEND, April 28—His chest crushed by a log which fell from the top of a pile of logs at Shevin-Hixon camp No. 10, Jacob Nyback, 32, an employe died Tuesday afternoon before the train on which he was being carried reached Bend. He is survived by a wife and two children.
