

## FOOD SUPPLIES ARE RAINED ON NORTH FRANCE

PARIS.—Revictualing the starving towns and villages of northern France by dropping parcels of food and clothing from the skies had a romantic glamor about it that makes most people overlook the business details of freight transportation by airship.

Matter of fact persons who pinned their faith to the humble motor truck find their views amply vindicated by a bill of expenses incurred by 15 airships which recently carried 3,000 pounds of supplies 250 miles from Le Bourget to Maubeuge and Valenciennes.

It cost just over a dollar for each pound of merchandise carried whereas by motor truck the cost would not have exceeded 100 dollars for the whole trip, or three cents a pound.

It seems the motor truck has a big start on the airship in the matter of cost of haulage.

## TROUT EGGS FOR STATE HATCHERIES

PORTLAND, April 29.—Carl Shoemaker, state fish and game warden, has obtained the promise of 1,500,000 trout eggs from the United States bureau of fisheries for Oregon state hatcheries.

A letter from Henry O'Malley, field superintendent of the United States bureau of hatcheries, promises 1,000,000 rainbow trout eggs, 500,000 black spotted trout eggs and as many eastern brook trout eggs as desired. The eggs will be distributed among the state hatcheries, the larger share going to the hatchery at Bonneville. It is probable that few eastern brook trout eggs will be accepted as eastern brook trout do not propagate very successfully in many western streams and as these fish are believed to be cannibals, destroying other species unless placed in landlocked lakes where it is impossible for them to reach other kinds of fish.

Considerable complaint has been made thruout the state by anglers who assert that Oregon streams and lakes have not had enough trout eggs planted in them. During the last year the government supply of eggs ran short and for the first time, the state fish and game commission was unable to obtain a large number of fish eggs from the United States bureau of fisheries. This amount promised by Mr. O'Malley will be the largest contribution the United States bureau of fisheries has ever made to Oregon.

## CLEMENCEAU'S HEALTH IS DUE TO EXERCISE

PARIS (Correspondence of the Associated Press).—Premier Clemenceau's wonderful constitution is ascribed partly to the fact that he devotes half an hour every morning to physical exercises. At eight o'clock Edouard Leroy, his gymnastic master, arrives to put him thru a series of movements demanding the greatest flexibility in all parts of the body.

M. Clemenceau, attired in gymnastic costume, endeavors to perform exactly the most difficult exercises. Sometimes, however, when a sudden idea crosses his brain, he darts from the room to make a note of his inspiration.

For years the Premier has not missed his morning drill except for a few days after the attempt made to assassinate him by Cottin, but he resumed it as soon as it was safe to do so. It is to this daily exercise that M. Clemenceau attributes his indefatigable energy. Even during the most anxious hours of the German offensive he conscientiously went through the drill and found that after a sleepless night it made him fit for the strenuous tasks of his office. The lesson is followed by vigorous massage. Ten minutes later, the Premier, who rises at six in the morning, winter and summer, leaves in his car for the War Office, fresh and ready for the day's work.

## OHIO FREEZE DOES HEAVY CROP DAMAGE

COLUMBUS, Ohio, April 29.—After receiving more complete reports of the damage done by the freeze in Ohio last Thursday night, Vernon H. Davis, head of the bureau of markets has predicted that the damage to fruit alone in Ohio will reach nearly \$1,500,000 besides the damage done to wheat and tender plants which is still uncertain. Not much damage was reported from the temperature of Friday night.

## NEW BURNER INSTALLED

J. S. Elliott just returned from Chillicothe, where he has been installing a boiler for the Modoc Lumber Company. They will start work on the burner this week for the Big Lakes Box Company.

## JAPS ABLE TO UNDERSSELL BY WIDE MARGIN

GLASGOW, April 29.—Japanese manufacturers in almost every line of trade are able to undersell their British and American competitors by as much as 33 1-3 per cent and still gain a profit, according to the Journal of the Glasgow Chamber of Commerce. The trade paper attributes Japan's advantage to lower wages and facilities for transportation.

In 1917, the Journal adds, Japan made a very marked advance in importation of raw materials and the conversion of them into finished goods for export. The cost of labor says the paper, is the crucial question in the problem of how far Great Britain can hold her own against Japanese competition. In the Japanese weaving factories fourteen women or girls are employed to one man or boy while the proportion in the great English textile industry in Lancashire is two women to one man.

## STATE TO FIGHT RATE INCREASES

SALEM, April 29.—The Oregon public service commission has authorized Charles E. Elmquist, president of the National Association of Railroad and Public Utilities commissioners, to represent it in filing a brief as amicus curiae in the South Dakota and Massachusetts telephone rate cases and the North Dakota railroad rate case, which will be argued before the United States supreme court May 5.

These cases are proceedings for injunction to restrain Postmaster General Burleson in the telephone cases and the head of the railroad administration in the railroad rate case from imposing intra-state rates.

These cases are said to bear directly upon the question which is now pending before the Oregon commission.

## U. S. SAILORS DROWNED

NEW YORK, April 28.—Four sailors from the United States Destroyer Bell were drowned when their motor dory sank after a collision in the Hudson River.

## DRINK HOT WATER IF YOU DESIRE A ROSY COMPLEXION

Says we can't help but look better and feel better after an inside bath.

To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of incombustible material in the form of ashes, so food and drink taken each day leaves in the alimentary organs a certain amount of indigestible material, which if not eliminated, form toxins and poisons which are then sucked into the blood through the very ducts which are intended to suck in only nourishment to sustain the body.

If you want to see the glow of healthy bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning upon arising, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material and toxins from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and purifying the entire alimentary tract, before putting more food into the stomach.

Men and women with sallow skins, liver spots, pimples or pallid complexion, also those who wake up with a coated tongue, bad taste, nasty breath, others who are bothered with headaches, bilious spells, acid stomach or constipation should begin this phosphated hot water drinking, and are assured of very pronounced results in one or two weeks.

A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, purifies and freshens the skin on the outside, so hot water and limestone phosphate act on the inside organs. We must always consider that internal sanitation is vastly more important than outside cleanliness, because the skin pores do not absorb impurities into the blood, while the bowels pores do.—Adv.

# SPECIAL Subscription OFFER for April Only

Once more you will have an opportunity to secure the Herald for one year at our annual Bargain Rate. Each year during the month of April we accept subscriptions at the following rates:

- DAILY, BY MAIL, IN KLAMATH COUNTY.....\$3.00
- DAILY, BY CARRIER, IN KLAMATH FALLS .....\$4.00
- DAILY, MAIL, OUTSIDE KLAMATH COUNTY ....\$4.00

To get the benefit of this rate your subscription must be paid up to date. If your subscription expires any time in the future, you may take advantage of this special offer, and we will extend your subscription for one year from the date to which it is now paid.

## This special offer is good only during the month of April

This week you will receive a statement showing the date to which your subscription is paid. It will be the only notice you will receive. If the subscription is not renewed by the date indicated on this statement, we will accept it as a notice to stop your paper, and it will be discontinued.

Next year is to be the big year for Klamath Falls, Klamath County, and the State, and the Herald, and the Herald, in anticipation of the great strides towards reconstruction and development that are to be made, has enlarged to eight pages. We are going to keep a step ahead of all development, and this means a better newspaper than you have ever had before. You will be furnished all the big news of the world, of your state, of your county, and of your city, for about a cent a day—hardly enough to pay the cost of the paper used for printing it. The Herald wants to enter every home in Klamath County, and that is why we are making a special effort to give you a bigger and better paper, one far in advance of the real needs of this section, and why we are making this big, special Bargain offer.

Do not postpone sending in your subscription until the last day—Get the spirit of the times, and DO IT NOW—today. And, please remember that this special offer is good only during the month of April.
