

FORTY MEN WANTED TO PUT UP TABERNACLE

Building to Be Erected for
Billy Sunday.

WORKMEN WANTED

Although Four Days Only Remain
Until Arrival of Famous Speaker
Who Will Talk for Victory Loan,
Plans Are Made for Putting Up
Structure to Hold Crowds.

There is one thing about the people of Klamath Falls, if they want a thing and they haven't got it, why they simply go out and get it. What would mean unsurmountable obstacle to some districts doesn't feaze the folks here at all. If we see it a railroad we simply go ahead and build it.

Of course we had not planned to have so distinguished a visitor as Billy Sunday and his advent comes as considerable of a surprise. We therefore find ourselves unprepared for the crowds which will attend his meeting so it behoves the community to meet this contingency.

With the usual speed which characterizes Klamath Falls, arrangements have been made by the Victory Loan leaders to construct a building in the next four days which will accommodate the vast crowds which are sure to be on hand, and to carry out the work. Forty men are wanted at once. If the co-operation is extended that has been given in the past, the tabernacle will be ready in time for the speaker's appearance Monday evening.

Workmen should apply to Coger Brothers or R. E. Wattenburg.

CHANGE MADE AT PRINTING OFFICE

Z. C. Kimball, one of the founders of the W. O. Smith Printing company, who has been connected with the firm since 1911, ceased his active identification with that concern yesterday. Mr. Kimball has made no announcement as to his future moves except that he is going to take a vacation at Spencer Creek.

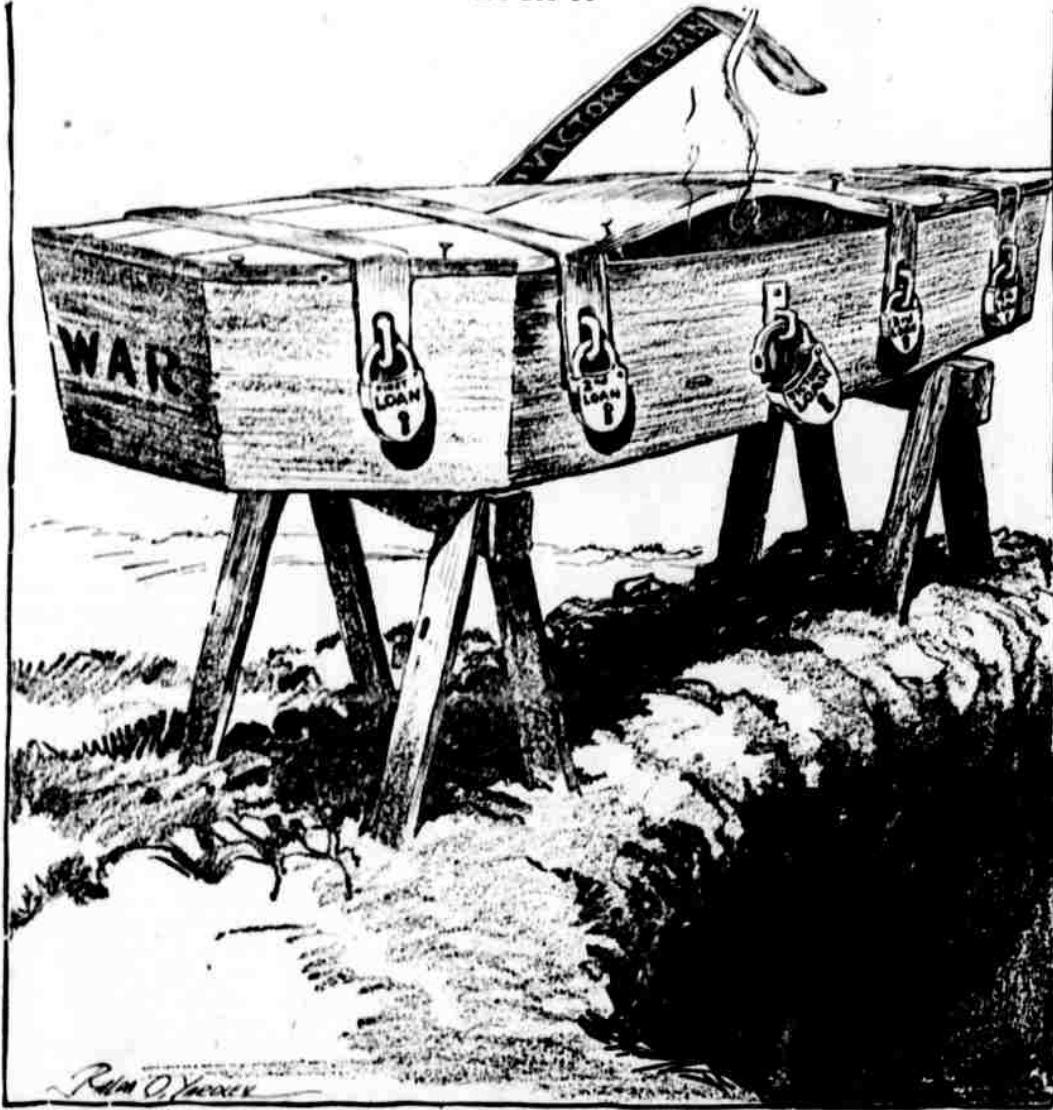

R. L. Merritt has arrived from Sacramento to take a position in the printing office. The young man was recently discharged from an officers' training camp.

CUPID HITS A SNAG BUT WILL TRY AGAIN

The sun which shown here so brightly yesterday for C. M. McDow and his lady friend from Bray, had a sombre hue this morning for this young couple. It looked a lot like rain, a big freeze was predicted and the May Day "Surprise" of the anarchists found a sympathetic chord in the breast of the young man. Not only this, but County Clerk C. R. Delap, who had three dollars almost within his grasp for a marriage license was obliged to see it made away to some other cash box in California.

McDow came in on the train last evening with his bride-to-be and accompanied by his proposed mother-in-law, with the intention of being united in the holy bonds of matrimony in short order. He made his application of the County Clerk and the license was being made out when it developed that neither party resided in the county. The intended bride's mother, while apparently anxious to see the romance culminated, was too truthful to make this variation in the statement and the kind hearted clerk could only wish them the best of luck in getting their legal sanction at their California home. The party left for that point this morning and it is hoped the happy event has been brought about ere this.

Magnificent Demonstration of
Power—Wilson Pleased at Labor
Feature of Peace Treaty.

PARIS, May 2.—Two hundred and fifty policemen were hurt during the May day disorders yesterday and only one person killed.

They claim the day was a magnificent demonstration of power of the laboring classes, marred only by the brutality and ferocity of the police.

WASHINGTON, D. C., May 2.—President Wilson has cabled Secretary Tumulty that in his opinion the labor program as adopted as part of the peace treaty constitutes one of the most important achievements of a new day in which he interests of labor are to be systematically and intelligently safeguarded, and that he believes no other single thing done could help more to stabilize the conditions of labor throughout the world.

Reports indicate that it will be a "Victory Peace" and that there is to be no oral conversation, except the merest formalities.

The enemy is to be given fifteen days to consider the treaty with a few additional days for the exchange of views between the Allied and the German delegations. Thus May 27th should see the treaty concluded.

Italy is still not represented but the Ambassador has been asked to attend such conferences as the regular delegation would attend. The Council of Three yesterday gave Belgium prior to the claim on the five hundred million dollars of reparation money to be received.

M'NARY FAVORS NATION LEAGUE

WASHINGTON, May 2.—Senator McNary has declared his intention to support the revised covenant of the League of Nations. He said: "I have read the revised covenant of the League of Nations with sufficient care to say that I will give it my support when it comes before the United States senate for consideration. Whether it is perfect in all its details or not is insignificant as compared with the high principle it is calculated to serve, which in time will be perfected as far as human efforts can achieve and will be as devotedly respected as the constitution of our own country. That feeling in itself will be a sufficient force to guarantee everlasting peace.

"In my opinion the covenant has been amended to meet all the legitimate objections raised against it."
