

SAGE TEA TURNS GRAY HAIR DARK

ITS GRANDMOTHER'S RECIPE TO BRING BACK COLOR AND LUSTER TO HAIR

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application of two of Sage and Sulphur enhances its appearance a hundred fold.

Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients for 50 cents a large bottle, all ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair.

Everybody uses "Wyeth's" Sage and Sulphur Compound now because it deters so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous.

PERSONAL MENTION

LITTLE SKELETONS ON LOCAL HAIRPININGS AMONG THE PEOPLE OF THIS CITY AND VICINITY GOINGS AND COMINGS OF LOCAL FOLKS

H. M. McFadden, special representative of the Edison White Chauliqua system who has been here completing arrangements for the big Chauliqua left for northern points this morning. He held a meeting with those who are promoting the affair here late yesterday afternoon.

Roy Propert left this morning for Denver, Colorado. He has been recently discharged from the military service.

Mr. and Mrs. Walter Campbell have returned to their home on Sprague River after a short visit in Klamath Falls.

Marvin Cross, a prominent stockman from the Hly section is looking after business interests in the County seat for a few days.

Mr. and Mrs. James Pelton came in yesterday for a short visit from their home in the Wood River Valley.

W. H. Gaddess, the new proprietor of Eagle Ridge Tavern is a business visitor in the County seat.

Mrs. May McMahon was among the train arrivals last night from Oakland. She is stopping at the White Pelican Hotel.

Ray Talbot is registered at the Hotel Hall from Hly today.

Mr. and Mrs. D. W. Crawford of Chilquin are among today's visitors from the outside country districts.

Mrs. Robert S. Fry is here for a short time from Algoma.

Charles C. Cooper, who has been here for a short time after being released from the military service, left on the train this morning for San Francisco.

Mrs. M. C. Nowlen left this morning for Worden after a short visit in Klamath Falls.

A. D. Addison, who has just recovered from an extended illness has left for Oakland and other California points, where he will spend some time recuperating.

Mrs. L. D. Fiddler and children left this morning for Yreka after a visit in Klamath Falls.

George Hansen left today for San Francisco after a short business visit in Klamath Falls.

Mr. and Mrs. W. D. Campbell and Mrs. H. E. Winnard came in from Lorella for a short visit yesterday afternoon. They will return this evening.

SAYS HOT WATER WASHES POISONS FROM THE LIVER

Everyone should drink hot water with phosphate in it, before breakfast.

To feel as fine as the proverbial fiddle, we must keep the liver washed clean, and almost every morning to prevent its sponge-like pores from clogging with indigestible material, sour bile and poisonous toxins, says a noted physician.

If you get headaches, it's your liver. If you catch cold easily, it's your liver. If you wake up with a bad taste, furred tongue, nasty breath or stomach becomes rancid, it's your liver. Sallow skin, muddy complexion, watery eyes, all denote liver uncleanness. Your liver is the most important, also the most abused and neglected organ of the body. Few know its function or how to release the dammed-up body waste, bile and toxins. Most folks resort to violent calomel, which is a dangerous, salivating chemical which can only be used occasionally because it accumulates in the tissues, also attacks the bones.

Every man and woman, sick or well, should drink each morning before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it, to wash from the liver and bowels the previous day's indigestible material, the poisons, sour bile and toxins; thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Limestone phosphate does not restrict the diet like calomel, because it can not salivate, for it is harmless and you can eat anything afterwards. It is inexpensive and almost tasteless, and any pharmacist will sell you a quarter pound, which is sufficient for demonstration of how hot water and limestone phosphate cleans, stimulates and freshens the liver, keeping you feeling fit day in and day out.—Adv.

Mrs. Henry Wilson, wife of Chief of Police Wilson, has gone to Los Angeles for a month's visit with her mother Mrs. M. E. Green.

Mr. and Mrs. R. B. McCollum are here from Fresno visiting at the home of Mr. and Mrs. J. B. McCollum on Ninth Street. They have come here with the idea of remaining permanently in Klamath County.

R. M. Anderson is a guest at the Hotel Hall today from San Francisco.

Mrs. Mary Marsrow is down for a short visit in the city from Chilquin.

J. M. Utter is here for a short time on matters of business from Fort Klamath. He is a guest at the Hotel Hall.

Mrs. Will C. Wilson left today for Canyon City in Grant County, where she has been called by the serious illness of her sister, Mrs. Henry Herburger. She expects to be gone about a month.

Mrs. Harry D. Waters left this morning for Dunsmuir, where she conducts a millinery store.

E. S. Terwilliger, who has been in town for a few days, left this morning for McCloud, California, after which he will go to Red Bluff.

Mrs. H. H. Edmonds left this morning for Yreka, called there by the death of the youngest son of Mr. and Mrs. Scott Howard, who died this morning at 1:30.

W. E. Griffith of Merrill was in the city on business yesterday.

Mr. and Mrs. G. H. West came in last night from Medford for a short visit. They are stopping at the Hall Hotel.

Mr. and Mrs. Jessc Siemens are in the city from their ranch in Fort Klamath.

Chas. McCarty, a prominent sheepman of Hly is in the city on business for a few days.

Mrs. G. M. Tompkins and daughter and Jas. Kline came in from Bonanza on business yesterday.

SAY, JACK, LISTEN!

I've been boosting this Diamond Tite & Vulcanizing company for quite a while, and it just struck me that I ought to tell you seriously just what it is and something about it. It was started on a shoestring and some nerve. He still has the nerve, but he has added quite a bunch of shoestrings to the business and he keeps adding. He recently took in a partner in the business, Frank Smith, and the two of 'em sure make a dandy team. They do vulcanizing, of course, and when I say they do vulcanizing I mean all that statement implies. They may not do it quite as cheap as you can get it done, but their work stands up, and if by any chance it does not meet expected requirements all you have to do is to let 'em know and if they don't make it square with you it will be because they have both died. Another thing, they don't give you any of that bull corn stuff. When you take work there they will tell you what can be done, and what's more, they can do it, and still further, when it's done it will be done RIGHT. Don't ever get the idea that work is so scarce around that place that they will take on any old job and TRY to make it satisfy you—when they do work for you they MAKE it satisfy you. So just keep that in your mind when you want any casings or tubes vulcanized.

Say, Jack, Listen! I picked up The Herald last night, and there was a likeness of our old friend W. Jenny Bryan—you know—the man who used to talk some. Well, it was the first time I had heard of him since he quit his job at Washington.

Don't you know, I think he is one of the greatest advocates this country has ever produced, and he is always advocating for change—and he wants the change. What's more, he gets it—and, believe me, he keeps it. And, say, Jack, he's changed some himself since he started out advocating free silver in the gladstone free lunch days of our youth—those happy days when we refused to buy an umbrella with a crook in the handle because they fit on the rail so nicely it was so convenient to forget where we hung 'em. Of late years it would seem that he has been advocating silence, for the general public has not met his on the front page for many moons. When he did say something you would generally find it in an inside position—and not top of column, next to reading matter either.—BUD.

AMERICANS KILLED OVERSEAS.

ORLEANS, France, May 6.—Three American soldiers were killed and eight injured when a railroad train hit a motor truck, near here.

SECRETARY BAKER HOME. NEW YORK, May 6.—The transport George Washington with Secretary of War Baker and 6,000 troops has arrived from abroad.

At the Theaters

Vivian Martin, who plays the star part in "Unclaimed Goods" has long held a leading place in film circles, owing to her vivacity, naturalness and childlike charm. As a Paramount star she has won hosts of admirers who assert that she is one of the most delightful of all screen actresses, possessing a naivete that is inimitable and a charm of manner that is irresistible.

In her new picture she will portray a western role, that of the daughter of a sheriff and her remarkable experience is that of being sent "by express" from one town to another. Unclaimed at her destination, she is about to be sold at auction, when she is rescued and a "bad man" she has once befriended sacrifices his life in her defense. "Unclaimed Goods" will be displayed at the Star Theatre tonight.

"The Great Victory, Wilson or the Kaiser? The Fall of the Hohenzollerns," a powerful play dealing with the international events which have decided the fate of the world, will be the attraction at the Liberty theatre tonight for a one day engagement. This great Screen Classics, Inc. production shows the tragic and heroic events of the upheaval of nations—the great struggle and the final dearly-bought victory of the Allies. It shows in vivid contrast the difference between the upbringing and the training of Wilson and the Kaiser—drawing a parallel of their lives at various ages and showing how and why their minds developed in diametrically opposite directions making of one a lofty and deep thinker to whom self was last and his country first, and the other who used his country only for his own greed and aggrandizement—the acknowledged super-egotist of the world.

The cast of players for this production is composed of fifty-five stars of the stage and screen who play the important characters while hundreds of other noted players are seen in lesser roles. Such names as Frank Currier, Henry Kolker, Joseph Kilgour, Fred C. Truesdell, Margaret McWade, Earl Schenk, Fanny Cogan and Pauline Dempsey are listed among those who make the performance one of unusual and artistic value.

The story was written by Maxwell Karger, adapted by June Mathis and A. S. Le Vins, and directed by Chas. Miller under the personal supervision of Maxwell Karger, director general of the Metro studios.

A man's hatred of a faithless wife wrecked on his son, is the theme of "A Mother's Sin," the Vitaphone Blue Ribbon Feature, which will be the attraction at the Temple Theatre tonight. In this powerful drama written by Hilda Sharpe, the father permits the son to go the pace, and then when he is hopelessly in debt, disinherits him in the hope of gloating over his disgrace. But the son thwarts him to the extent of leaving the country and the father dying realizes the great injustice he has done. He makes a new will which does not make to light for several years.

Meanwhile a profligate nephew gets the estate and almost gets the girl the son loves, but finally the will is discovered and all turns out happily. The picture is replete with strong situations which are well taken care of by Earle Williams, the star, and by Miriam Miles, Denton Vane, Ernest Maupain, Fred Peters, Charles Horton, Louise Du Pre, and Eleanor Lawson.

A Drop On a Touchy Corn

Instant relief! Then corn or callus lifts off with fingers

Just think! You can lift off any corn or callus without one twinge of pain.

A Cincinnati man discovered this other compound and named it Freezone. Any druggist will sell a tiny bottle of Freezone for very little cost. You apply a few drops directly upon a tender corn or callus. Instantly the soreness disappears, then shortly you will find the corn or callus so loose that you can lift it right off.

Freezone is wonderful! It dries instantly. It doesn't eat away the corn or callus, but shrivels it up without even irritating the skin.

Hard corns, soft corns, or corns between the toes, as well as painful calluses, lift right off. There is no pain before or afterwards. No soreness or spurning. Women should keep a tiny bottle on the dresser, and never let a corn ache twice.—Adv.

SERVICE TODAY IS SERVICE TOMORROW

Even if your car has good treatment and excellent care—it needs inspection occasionally.

An expert who knows every detail of a car's mechanism, of tire construction, who lives in an atmosphere of automobiles and trucks, may locate some hidden weakness that may result in a serious breakdown.

In the care of hard-working trucks, in the care of tires that bear the brunt of road conditions—regular inspection is profitable insurance. Inspection today is protection against loss of time tomorrow—a chain is as strong as its weakest link.

LET'S DEVELOP OUR OWN RESOURCES

NOW that the government's needs are satisfied—why not turn the remaining energy in the community to capitalizing the resources of the Klamath country. By willing and working together we can make our output and income increase accordingly.

The First National Bank is always for legitimate development and expansion.

KLAMATH FALLS OREGON

THE LEXINGTON

\$1995 F. O. B., Klamath Falls

CAN YOU MATCH IT AT ANY PRICE?

OLD STYLE EXHAUST SYSTEM USED BY ALL CARS EXCEPT THE LEXINGTON

All cylinders exhaust into one manifold and before the completion of any exhaust period another cylinder begins to exhaust. The result is that part of the dead gas in every cylinder is trapped. With the old style single exhaust system, no cylinder ever takes in a full charge of fresh mixture and the faster the engine runs the larger the volume of trapped gas. This means waste of fuel and 15 to 20 per cent less power.

MOORE MULTIPLE EXHAUST SYSTEM, AN EXCLUSIVE FEATURE OF THE LEXINGTON

With this device, in the case of a 6-cylinder engine, at least one exhaust is taking place all the time, and nearly half the time two cylinders are exhausting at the same moment, but into DIFFERENT MANIFOLDS. Thus the Moore Multiple Exhaust System eliminates trapped gasses and increases power 22.8 per cent.
