

HUGE LOGGING RAILROAD ON RESERVATION

More Than Twelve Miles Now Completed.

NORTH FROM KIRK

Pelican Bay Lumber Company Builds Road on Reservation Longer Than Strahorn Line to Dairy—Immense Tract to Be Logged Off Within 10 Years.

The big lumber cut of the Pelican Bay Lumber Company on the west side of the Upper Klamath Lake will be completed with the end of the present season, according to a statement made by President H. D. Mortenson and the logging operations of this concern will then be confined to the territory north of Kirk on the Klamath Reservation for which preparations have been underway for some time.

It is not generally realized here that since the city has launched the Strahorn railroad to Dairy, the Pelican Bay Company has constructed over twelve miles of railway from the Southern Pacific Terminal at Kirk to bring in the logs to the mill at Pelican city and that more than eight miles more will be built this summer. All kinds of railroad equipment, including several special engines, a variety box and flat cars and even what might be called private cars have been made ready. These latter cars although "private" in the strictest sense of the word, can be distinguished without difficulty from the ordinary Pullman variety by being prepared for the more particular needs of the loggers who will travel in them.

From the territory on the West side of the lake approximately two hundred and twenty-five million feet of lumber will have been removed by the end of the present season, seventeen thousand acres.

The big tract on the Klamath Reservation where operations will begin next year, contains a half a billion feet of timber and will take ten years at the present rate of operations to remove. In addition to the main line of the road on the Reservation a number of shorter spur lines are to be constructed.

AIR SERVICE SOON FOR SOUTH COAST

SAN FRANCISCO, May 9.—Aerial passenger service between San Francisco and Los Angeles will be in operation soon, the Pacific Aero club has announced, after securing landing sites at Stockton, Modesto and Fresno at which the planes will take on passengers. Mail carrying contracts will be sought by the company, according to the aero club announcement.

LAST CHANCE TO TAKE BONDS.

The time has now come for those who have agreed to take a certain subscription in the Victory Loan Bonds to make good their promise. The big drive will end tomorrow night and Klamath's good record can be upheld if the citizens stand by their agreements. A large number of these have simply neglected to come to the banks and take out subscriptions and it is urged upon all to do this before it is too late. Let Klamath maintain the proud place which she has won in a patriotic way during the great war so that the boys on their way home can refer to it with pride. Now is your chance, grab it.

WHO SAID THAT?

FLIGHT ACROSS OCEAN DELAYED

REPAIR WORK ON BIG MACHINES NECESSITATES REMAINING OVER FOR DAY AT HALIFAX. ONE PLANE LANDS IN OCEAN.

WASHINGTON, D. C., May 9.—The departure of companies NCL, NCB from Halifax for Trepassay Bay, Newfoundland on the second leg of the transatlantic flight has been postponed until tomorrow, according to a radio message to the navy department.

Commander Towers stated that it was necessary to do some work on the propellers of the planes.

Less favorable weather is forecasted for tomorrow. The planes reached Halifax last night.

CHATAM, Mass., May 9.—The NCL-4 which was towed into the harbor station here today after being compelled to alight at sea due to engine trouble, will resume its flight. Two of the four engines were put out of commission and the crew was compelled to spend a comfortable night on a smooth sea.

COUNTY MAY GO "OVER THE TOP"

The addition of ten thousand dollar subscriptions from the Western Land and Timber Company and the Fremont Land and Timber Company for the Victory Loan Bonds, have materially boosted the total for the County and the County leaders now have hopes of the district going over the top before the close of the Drive tomorrow night, provided the citizens who promised the solicitors to take out subscriptions at the banks make good this agreement before the time closes.

A strenuous effort is being made today to round up a number of subscriptions which are wavering.

The big tabernacle which was constructed on such short notice for the appearance of Billy Sunday, has disappeared by the same magic which was responsible for its advent, and the fact that it was planned put up and taken down in such record time shows the ability of the Klamath folks to do things and was a decided credit to the town. The lumber is being hauled away today.

\$25.00 REWARD

The practice of stealing the Evening Herald from business houses and residences is again becoming prevalent, and a reward of \$25.00 will be paid for the arrest and conviction of those guilty of these thefts. Our subscribers are urged to watch for these thieves and promptly notify this office, as we have made arrangements for promptly putting the police on the spot. Please co-operate with us in putting a stop to these annoying and dishonest practices.

BLOND PEOPLE IN NORTH WILL BE LET ALONE

FORT YUKON, Alaska, (By Mail) "Blond Eskimos" discovered by Viljalmar Stefansson, the explorer, in the far northern Arctic, are to be let alone in their uncivilized aboriginal state, according to Leo Wittenberg, a trader and whaler who stopped on his "mush" from the Arctic Ocean to the states.

The Canadian government, Mr. Wittenberg said, has forbidden all white people from the outside world to trade, trap or even visit in the section of Victoria Land where the strange white race lives. Even missionaries cannot go into the country, he asserted.

Canada's orders are being enforced by the Constables of the Royal Northwest Mounted Police from the police station at Herschel Island, an Arctic post at the mouth of the Mackenzie River.

Wittenberg said he went among the "blond Eskimos" a year after Stefansson's discovery and established a post where he engaged in trading, whaling and trapping. He remained there, he asserted, until Canadian authorities requested him to leave.

Wittenberg's description of the strange race coincides with that given by Stefansson. They have blue eyes, light hair and European features in general, he said. Authorities believe the tribe descended from early Greenlanders.

Reports brought out of the north about a year ago by W. J. Bower, one of Stefansson's companions, said the "Blond Eskimos" used bows and arrows, dressed in skins, used flints for making fires and knew absolutely nothing of the great outside world lying far to the south.

MOVE MADE FOR NEW INDUSTRIES

STATE CHAMBER OF COMMERCE GETS BEHIND CAMPAIGN TO GET DESIRABLE INDUSTRIES FOR ALL PARTS OF OREGON

PORTLAND, May 9.—As a preliminary step toward obtaining for Oregon additional manufacturing industries, a survey of the needs of every community in this direction has been launched by the Oregon State Chamber of Commerce. Each community of the state has been solicited to list with the state chamber its needs for manufacturing enterprises and the probable success of such enterprises when they are established. This information then will be given to men looking for investments in industries so they may know of conditions which exist.

In the call for this information, Secretary George Quayle of the state chamber says:

"That the Oregon state chamber may have at its immediate command full information regarding the requirements of each section in this particular, it will be necessary that a survey of the state be made. It will be our aim to obtain such manufacturing enterprises as will provide profitable investments to investors and the communities in which they are established. Data should be furnished only where raw products are available, or where some peculiar local circumstance indicates an enterprise will be successful. For instance, raw materials may be available in an adjoining community, but that section may not have the proper transportation facilities and your district may have such facilities which are lacking in adjacent territory. Many things may enter into the problem of the location of factories. We wish information regarding present and future factory needs of your community."

HERE FROM CALIFORNIA.

Mrs. C. A. Johnston arrived last evening from Truckee, Calif., for a visit with her parents, Mr. and Mrs. Ben Southwell, near Olene. Mrs. Johnston is accompanied by her three children. Mr. Johnston, who formerly lived here, is sick in a railroad hospital in San Francisco, where he has been confined to his bed for the past three months, with little hope that he will get out for three months more.

SMOOTHING OF RUSS TROUBLE NOW POSSIBLE

Kolshak Government May Be Recognized.

FACTIONS TO UNITE

Believed That Defacto Government Will Be Recognized and That the Bolshevik Regime Can Be Brought to a Speedy End—Germans Are Peeved Over Terms Offered Them.

Dateless Dispatch by Associated Press.—The complexity of the Russian Government situation is apparently on the verge of simplification according to dispatches from Paris where are gathered the representatives of the various Russian factions. These dispatches indicated that the government of Admiral Koricak at Omsk will be adhered to by all the factions except the Bolsheviks and will be recognized by the Allies as the DeFacto government of Russia.

It is now hoped that the Koicnak government with the potential strength given it by such action will be able to bring about a speedy end of the Bolshevik thru the continued successful military operations.

The consensus of German opinion now is that the treaty is unexpectedly harsh and extremely difficult of acceptance.

The Austrian delegates have not left for France due to a delay over denunciation as to the inclusion of German and Russian delegations with their party.

The Belgian delegation has protested against the reported decision of the Council of Four in making Great Britain a mandatory for German east Africa. Belgium claims to have African interests which should be considered.

GAME PUGILIST TO LEAVE RING

SAN FRANCISCO, Cal., May 9.—Personal friends of Willie Ritchie, former lightweight boxing champion of the world, believe he will abide by his announced intention of retiring from the ring for all time. With his final bow to pugilism, the curtain will come down on a fighter who was considered one of the gamest that the ring has known.

There are many who have watched the ring career of Ritchie who deem him in a class with Battling Nelson in the matter of standing up to, and taking punishment without a whimper. His last battle with Bennie Leonard, when he continued fighting while reeling from the effects of the Champion's blows, more than made good the claims of gameness made for him.

A notable instance of Ritchie's gameness was displayed in his championship fight against Joe Rivers in this city on July 4, 1913 when the latter made an attempt to take the title from the then champion. For the first five or six rounds Rivers outfought and outboxed Ritchie to such an extent that the crowd was looking to see Ritchie take the final count at any moment. Ritchie continued to fight back under merciless punishment and finally succeeded in landing a couple of stiff punches that slowed up Rivers. The tide then suddenly turned and in the eleventh round Rivers was prostrate.

Ritchie is comfortably fixed in the matter of worldly goods. Besides a handsome cash balance in the bank he owns a couple of apartment houses here which return him a good income. He never has dissipated and does not use tobacco in any form. His one frivolity, which has been the cause of much good natured banter on the part of his friends, has been his fondness for dancing, which he

PROPOSED SALE OF CANAL HAS BEEN PUT OFF

Notice of Postponement Received Today.

INJUNCTION FILED

Project Manager Announces in Letter to Klamath Irrigation Directors That Nothing Will Be Done in Ankeny Canal Matter Until Lane's Answer Is Considered.

Directors and members of the Klamath Irrigation District are saddened today by the news from Project manager H. D. Newell, that the proposed sale of the Ankeny Canal by the Reclamation Service, will be postponed until a reply from the Secretary of the Interior to questions regarding the original rights of the water users of the project can be carefully considered. An injunction to stop the proposed sale was signed by the directors here yesterday and will be filed with the County Clerk today.

The recent announcement of sale of the Ankeny canal by the government aroused the immediate opposition of the water users, who claimed that by their original contract with the government, the power and the water which would go with this sale are among the things they are now paying for. An inquiry for a definite understanding in this matter was recently sent to the Interior Department.

Following is a copy of the letter received today:

"Klamath Falls, Ore., May 9th 1919.—This will advise you that the proposed sale of the Ankeny canal will be postponed until you have had sufficient time to carefully consider the reply of the Secretary of the Interior to the questions asked in your letter of April 14th.

Yours very truly,
H. D. Newell, Project Manager.

CIRCUS DAY LUNCH SERVED ON MONDAY

The Circus Day lunch which was announced at the Dixie restaurant between Seventh and Eighth Streets by the ladies of the Presbyterian Church has been changed and the quarters of the Boys Club beneath the K. K. Store at the corner of Fifth and Main Street secured for this purpose.

It is believed that with the present shortage of eating houses in Klamath Falls, there will be many of the visitors who will be glad to avail themselves of a chance to get a substantial lunch at a reasonable figure. There are also the best of rest room facilities here for those that wish to take advantage of them.

indulges whenever the opportunity occurs.

Prior to becoming a champion, Ritchie worked in a garage and is an expert mechanic. He considered at one time going into the automobile business and it would not be a surprise if, eventually, he entered into this line of work.

BIG CIRCUS TONIGHT.

Don't forget to attend the big circus tonight at the Christian Church under the auspices of the Christian Endeavor Union. Come prepared to feed the animals, drink your fill of pink lemonade, fly a balloon and listen to the latest gags of the clowns. The biggest time ever for a nominal fee. If you are broke come anyway and maybe you can get in by carrying water for the elephant. Whatever you do don't forget this great event.
