**MAYBE THIS DOVE WAS SEARCHING FOR PEACE.**

NEW YORK, May 19.—When the steamship Charleton Richarton Hall put into port here, she had on board a pigeon which had taken refuge while the ship was still several hundred miles out at sea. The bird, which was in an exhausted condition when it alighted on the deck of the Charleton, bore no message.

Examination of the bird showed that one foot was incased in a brass band bearing the inscription "A. U. 19-U-7150." On the other foot were two bands, one celluloid and other brass, neither bearing any inscription.

**NAVAL FORCES GATHER AT SMYRNA**

PARIS, May 18.—Extensive allied naval concentration has begun at Smyrna in connection with a mandate to Greece to administer that city.

The great popularity of the Travelers LOW COST Guaranteed life policies is reflected in the fact that during 1918 this progressive company issued more than \$215,000,000 of new life business. Ask Chilcote & Smith about the NEW 1919 policies. 9-11

**RAIN IS NOW NEEDED OVER OREGON LAND**

PORTLAND, May 17.—Farm work progressed rapidly during the past week and light rain fell in nearly all parts of the state, partially relieving the drought, according to the weekly summary of weather and crop conditions, issued by the Oregon weather bureau here. The temperature was variable, averaging somewhat above normal in most sections but falling low enough several mornings to permit the formation of frost. Dry weather with abundant sunshine continued most of the week attended at times by cold, desiccating northwest winds. Rain fell toward the close of the week. Snow in the mountains melted slowly and the flow of streams diminished. Cultivation of summer fallow land has been begun in Umatilla County.

Winter wheat is generally in good condition, the summary says. Rain was needed in most places. In places the stand of wheat is unusually thick so that the moisture requirement is high. It is in the boot in Linn county and is heading in Douglas county. Rye is mostly headed and some is being cut for hay. Winter oats have done well. Seeding of spring wheat, oats and barley is complete over limited areas. On the whole the outlook for these crops is good but more rain is needed for best growth. Aphides are injuring oats in Polk county. Planting corn is progressing rapidly. Early corn is coming up well.

The heavy frosts of May 4th are found to have done considerable damage to cherries, prunes and apples in the eastern counties and to strawberries over most of the state. Other conditions, probably including earlier frosts rainy weather during blossoming, cold winds and perhaps the extreme dryness of the preceding season have conspired to cause a heavy drop of prunes and pears in several westerly counties. Strawberries are in market in Douglas and Lane counties.

Alfalfa is doing well, especially under irrigation, and in some warmer sections will soon be ready for the first cutting. Other hay crops are doing well but need more rain. The range is drying rapidly in places but in most parts of the state there is ample food for all stock. Lambing and shearing continue under favorable conditions.

Planting of potatoes continues and early potatoes are growing fairly well. Potatoes and tender garden vegetables have been injured by frost in some of the colder sections.

**HANSON SPEAKS AT NEW YORK BANQUET**

NEW YORK, May 16.—Mayor Ole Hanson of Seattle will be the principal speaker at the banquet of the National Manufacturers Association here on May 21st.

**ANNOUNCEMENT**

Spinks' Fishing and Outing camp on Spring Creek, Williamson River will be open to the public on and after May 29. The good fishing is now on. Good home cooked meals served. Tent quarters. Fish and Chicken Sunday dinners a specialty. Reservations must be made in advance. Rates by week quoted on application. R. C. SPINKS, Prop. P. O., Chiloquin, Oregon.

**PROBE ASKED INTO ACTS OF GAME BOARD**

PORTLAND, May 16.—Declaring that the Oregon state fish and game commission is dominated by commercial interests and that thru the classification of commercial salmon as game fish the commission has given practically all of its attention to the propagation of salmon to the neglect of trout, the Multnomah Anglers' club addressed a communication to Governor Elliott demanding an immediate investigation of the commission to correct this evil.

The sportsmen have been at odds with the state fish and game commission for several months past. Several previous communications have been addressed to the governor by officials of the club and anglers feel that the governor must have personal know-

ledge of the alleged demoralization in the administration of fish and game affairs.

Among other serious charges, the communication, which is signed by R. W. Price, president of the Multnomah Anglers' club, declares that the minutes of the last meeting of the fish and game commission will show collusion on the part of the state game warden and a member of the legislature. In the proposed game farm purchase. The statement is made that the Lane county representative withdrew his opposition to certain objectionable features of the new game code when he was promised the location of the game farm for his support of the code.

The members of the Multnomah Anglers' club call for an immediate investigation of fish and game affairs. Delay in taking this action, they say is limited to the best interests of the wild life of the state and they call upon the governor to react at once with a view of removing the alleged commercial domination and neutral control of the commission and substituting therefor a "sane, scientific business-like administration."

**LEGISLATION NOW BEING ARRANGED**

WASHINGTON, D. C., May 17.—The republican House steering committee has decided that among the legislation to be placed before the House after the appropriation bills, will be the repeal of the tax on amusements, the return of the telephone and telegraph companies and some measures for the benefit of the returning soldiers.

**Consult Us —It Pays**

LET us show you why Firestone Truck Tires will give you greater wear, greater resiliency, greater protection for your truck, greater saving in repair and fuel bills and Most Miles per Dollar.

This will not be merely a word of mouth demonstration; we want to give you proof of the above statements; we want to show you the whys and wherefores—truck tire facts that will positively mean a money saving to you.

And we want to acquaint you with our facilities, with our ability to render you truck tire service quickly and intelligently. Come in any time. We suggest today.

D. A. KENYON— 6th and Plum.

TELUS RHEUMATISM SUFFERERS TO EAT LESS MEAT AND TAKE SALTS

Rheumatism is easier to avoid than to cure states a well-known authority. We are advised to dress warmly; keep the feet dry; avoid exposure; eat less meat, but drink plenty of good water.

Rheumatism is a direct result of eating too much meat and other rich foods that produce uric acid which is absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine; the pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly cold weather the skin pores are closed thus forcing the kidneys to do double work, they become weak and sluggish and fail to eliminate the uric acid which keeps accumulating and circulating thru the system, eventually settling in the joints and muscles causing stiffness, soreness and pain called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water, and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia and is used with excellent results by thousands of folks who are subject to rheumatism.—Adv.
