**BEND WILL SECURE B. P. O. E. CHAPTER**

BEND, Or., May 19.—Bend's population is amply sufficient to meet the requirements of the B. P. O. E. in regard to granting a charter for a local lodge, it was shown this morning, when the Elks' census committee reported at a special session of the city council that 5782 had been enumerated here. The census was certified by 30 officials, although it was admitted that the number turned in is by no means complete.

Many families claiming Bend as their home, but having one or more members working in the woods for the lumber companies, were not included, and in the brief space of time allowed for the completion of the census, it is known that a number of others were omitted.

Mayor Eastes believes that from the showing made in the incomplete enumeration, the entire number would run close to 6500.

**Get the Habit of Drinking Hot Water Before Breakfast**

Says we can't look or feel right with the system full of poisons.

Millions of folks bathe internally now instead of loading their system with drugs. "What's an inside bath?" you say. Well, it is a guaranteed to perform miracles if you could believe these hot water enthusiasts.

There are vast numbers of men and women who, immediately upon arising in the morning, drink a glass of real hot water with a teaspoonful of limestone phosphate in it. This is a very excellent health measure. It is intended to flush the stomach, liver, kidneys and the thirty feet of intestines of the previous day's waste, sour bile and indigestible material left over in the body which if not eliminated every day becomes food for the millions of bacteria which infests the bowels, the quick result is poisons and toxins which are then absorbed into the blood causing headache, bilious attacks, foul breath, bad taste, colds, stomach trouble, kidney misery, sleeplessness, impure blood and all sorts of ailments.

People who feel good one day and badly the next, but who simply can not get feeling right are urged to obtain a quarter pound of limestone phosphate at the drug store. This will cost very little, but is sufficient to make anyone a real crank on the subject of internal sanitation.

Just as soap and hot water act on the skin, cleansing, sweetening and freshening, so limestone phosphate and hot water act on the stomach, liver, kidneys and bowels. It is vastly more important to bathe on the inside than on the outside, because the skin pores do not absorb impurities into the blood, while the bowel pores do.—Adv.

**Velvet THE FRIENDLY TOBACCO**

*THERE may be some things that can be done well in a hurry, but pickin' a wife an' agein' a tobacco ain't amongst 'em.*

*Velvet Joe*

We put away millions of pounds of fine Kentucky Burley tobacco every year, stored in wooden hogsheads. It ripens two years. When we take it out it's *different*—Nature has improved it, good as it was—made it *friendlier*, more fragrant, cool-smoking, long-burning.

Nature has given it a *delicious* quality of mildness and fragrance that no artificial means can ever equal.

It's just that *extra* touch of friendly goodness that is building up VELVET Tobacco into the favor and good will of thousands of pipe smokers who prefer to smoke tobacco cured in Nature's way.

You would notice the difference.
