

## NO OPPOSITION TO INCREASING BOND ISSUE

If the various proposals to be voted upon in June receive approval by the people of Oregon the bonded indebtedness of the state and its municipal subdivisions will be increased to approximately \$90,000,000 or 50 per cent more than the existing total public debt of \$60,000,000.

Just as though it would be an ordinary undertaking, the problem to utilize public credit further in carrying out construction projects deemed to be advisable in meeting expected conditions of unemployment incident to the termination of the war and to hasten readjustment of industry and trade, seems to be approaching without much concern on the part of taxpayers generally. So far all activities favorable to further bonding are organizing, and the opposition, whatever there may be, appears to be without organized force. As a result it is probable that the several proposals to issue more general obligation bonds by the state, 18 counties and numerous other municipal subdivisions of the state, including the city, the port and the school district of Portland.

To expand the public credit in this state more than half within a year is

pawning the future. But almost all the states and subdivisions in the entire country are doing the same thing. Oregon has set out to do. The United States government and all the war-torn nations of the world have set the pace as a sequence to the return to a status of world peace. It is expansion that means wage scales, production costs and living costs permanently higher than prevailed before the war, economists declare, but no note of alarm is sounded. Confidence in the future is universal. Issuing more bonds will be reflected almost immediately in higher local taxes, and when the time comes around to create sinking funds for redemption of the mortgaged future it will be necessary to levy taxes yearly amounting to about 10 per cent of the new bond issues for interest and sinking fund requirements.

Investment dealers are confident there will be no difficulty in disposing of the new crop of Oregon state and municipal bonds, since this type of securities will be exempt from all taxation and there is a ready nationwide absorption of anything guaranteed by lawful taxing powers.

Starting with the state issue of \$10,000,000 of highway construction bonds, authorized by the recent legislature without vote of the people, whereby the interest and sinking fund charges will be provided out of annual license revenues on motor vehicles, the public debt in Oregon will have grown larger by \$29,631,000 if the proposals to issue more obligation bonds carry at the June elections. The items making up the to-

tal exclusive of the state highway \$10,000,000 of bonds are given below, which is the first comprehensive list published of proposals to be voted upon next month, to issue additional bonds, together with issues already voted this year.

For state building construction and land reclamation, \$5,000,000.

Roosevelt Coast highway (federal aid to match state), \$2,500,000.

Highway bond issues in 19 counties, \$5,524,000.

City of Portland building construction issues, \$1,657,000.

Port of Portland ship operating subsidy bonds, \$1,000,000.

Portland school construction bonds (June 21), \$2,500,000.

Bonds voted in inter-state counties since March, \$1,420,000.

### CHURCH UNION IS FAVORABLE.

NEW ORLEANS, May 21. Federal union of all Presbyterians and reformed churches of the United States was recommended in the report of the conference committee on federal union at the session of the 59th general assembly of the Presbyterian church in the United States, known as the Southern Presbyterian Church.

### RUTH GARRISON GLAD TO STAY AT PRISON.

YAKIMA, Washington May 21.—Ruth Garrison is pleased at a decision given yesterday that she be kept at the penitentiary and not sent to the asylum. She thinks "it will be much nicer at Walla Walla."

We are always on the job ready to take care of your fire insurance. Chilcote & Smith, 635 Main st. 9-11

## AN OLD RECIPE TO DARKEN HAIR

SAGE TEA AND SULPHUR TURNS GRAY, FADED HAIR DARK AND GLOSSY.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Compound." You will get a large bottle of this old-time recipe improved by the addition of other ingredients, at very little cost. Everybody uses this preparation now, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this thru your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two your hair becomes beautifully dark, thick and glossy and you look years younger.—Adv.

### SHASTA VIEW.

Rye even on dry land is looking fine in this section but a good rain would help it as well as other crops. C. M. Kirkpatrick and family went to Dorris Sunday to take Mr. Layman home. The latter has been working here for the past few weeks.

The ladies of the Helping Hand will meet with Mrs. Chandler next Wednesday, May 21st.

Mrs. C. C. Miller, who has been visiting near Klamath Falls for sometime returned to her daughter's Mrs. O. E. Hunt last week.

Judging from the passing cars, nearly every person in this vicinity went to the circus last Monday. Of course "Pa" always has to go and take the children.

R. Clugston, wife and two daughters, Bernice and Mrs. Ethel Griffith and baby girl of Poe Valley were pleasant callers at J. L. Bailey's Sunday.

Mrs. Turner of Klamath Falls is spending a few days with her daughters, Mrs. H. E. Wilson and Mrs. C. M. Kirkpatrick.

Those who have land on the lake front are still busy preparing the land and putting in crops. C. A. Hayden of Klamath Falls was down Friday attending to business in that section.

Miss Hatch of Tule Lake has returned from a weeks visit with relatives near Klamath Falls.

### OREGON MEN ARRIVE.

NEW YORK, May 21.—Nearly eleven thousand troops have arrived here on five transports, including members of the old Third Oregon, in company H of the 162nd Infantry in the 42nd Division. The company included four officers and 247 men.

### DRINK HOT WATER IF YOU DESIRE A ROSY COMPLEXION

Says we can't help but look better and feel better after an inside bath.

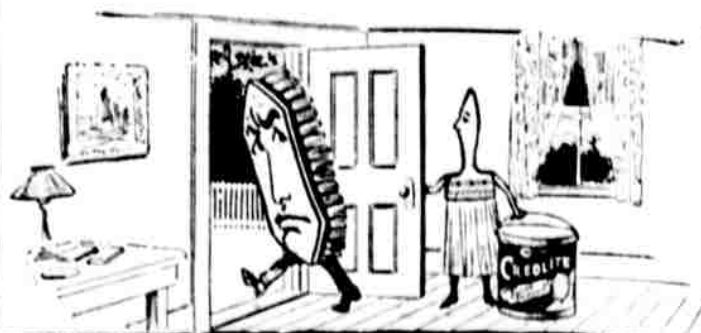

To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of incombustible material in the form of ashes, so food and drink taken each day leaves in the alimentary organs a certain amount of indigestible material, which if not eliminated, form toxins and poisons which are then sucked into the blood through the very ducts which are intended to suck in only nourishment to sustain the body.

If you want to see the glow of healthy bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning upon arising, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material and toxins from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and purifying the entire alimentary tract, before putting more food into the stomach.

Men and women with sallow skins, liver spots, pimples or pallid complexion, also those who wake up with a coated tongue, bad taste, nasty breath, others who are bothered with head aches, bilious spells, acid stomach or constipation should begin this phosphate hot water drinking, and are assured of very pronounced results in one or two weeks.

A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, purifies and freshens the skin on the outside, so hot water and limestone phosphate act on the inside organs. We must always consider that internal sanitation is vastly more important than outside cleanliness, because the skin pores do not absorb impurities into the blood, while the bowels pores do.—Adv.
