BONANZA WATER UNIT FINISHED

WATER WILL BE TURNED ON EIGHT HUNDRED ACRES BELOW BONANZA IN SHORT TIME. FOUR RANCHERS INTERESTED

The more irrigation unit which is to make the Bonanza section productive as the rose is almost completed and the water will probably be running on the land in the next thirty days, according to Ross Sutton, one of the promoters, who has been working hard to bring about the improvement.

The unit consists of about eight hundred acres and is known as Unit Number Four. The land included lies below Bonanza and the main ditch carrying the water is two and a half miles in length. This ditch has now been completed up to the point where the pumps are installed in Lost River. It will bring the total of the watered area around Bonanza up very materially, several other units having been already completed. The irrigation by pumping from Lost River has been made available at a very reasonable figure, and is fast developing the lands around the Clover Leaf Town.

Francis E. Bowne, J. H. Faught, and Albert Burgdorff are associated with Mr. Sutton in Unit Number Four.

LIFE TERM FOR WILHELM SUGGESTED.

CHICAGO, May 22—The death sentence, commuted to life imprisonment was the punishment for the kaiser recommended here by Dr. Henry Van Dyke, former minister to Holland.

"A sentence of death only would satisfy the demands of justice," said Van Dyke. "But life imprisonment would afford opportunity for the effect of the sentence to impress itself on what conscience is left in the culprits of his murder clique."

Distinctive

If we say that our Clothes are distinctive, we say the same thing that thousands of other Clothiers have said. It is a word that is much over-wrought and in most cases means nothing.

But we mean a lot when we say that KUPPENHEIMER CLOTHES are "distinctive." We mean that they have elements of style, definite refinements of tailoring and precise fabric qualities that distinguish them from other clothes—characteristics that set the precedence for Clothing Value.

KUPPENHEIMER CLOTHES have those distinctive qualities of fine wear that impart their distinction to you. They do not assert themselves blatantly, but draw attention to the individual rather than to his attire.

Franklin Tells Where Money Went

Lewis B. Franklin, director of the War Loan Organization, tells the why of the Victory Liberty Loan in these words:

"The money subscribed in the Fourth Loan, which was \$1,000,000,000 in excess of what we asked, lasted the Treasury Department only until the tenth day of December, when we found ourselves again pumped dry.

"The expenditure of the Treasury Department, the actual cash outgo, last December was \$2,050,000,000. The annual rate of expenditure before the war was about \$1,000,000,000 a year."

This money and more, Franklin said, went to pay the cost of guns, ships, ammunition, food and equipment that never actually got into the war but which caused Germany to surrender. Germany's surrender saved the lives of 500,000 of our boys.

A lot of the money to be realized from the Victory Liberty Loan has been spent already. It helped to save those 500,000 soldier boys' lives. Prepare to buy Victory Liberty Bonds.
