ALLIED AIR STRENGTH STRONG AT WAR'S CLOSE

WASHINGTON, May 28.—Airplane strength of the allied armies on the west front when the armistice was signed was greater than that of the Germans by more than two to one, and Italians outnumbered Austrians by four to three in machines, according to official reports to the war department. In "balloon strength" the Germans were declared to be superior with 170 craft to 144 for the allies, of which the Americans had 23, French 72, British 43 and Belgians 6 in use. Of the airplanes in service, British units comprised 1758 machines, French 3321, American 740 and Belgian 153.

BIG FLEET IS NOW PLANNED FOR PACIFIC

WASHINGTON, May 27.—Secretary Daniels said today that the navy will have a big Pacific fleet by late summer.

RONANZA LOCALS.

Bonanza is very indignant over the attempt to destroy the pump house with dynamite the night of May 24. Considerable damage was done, doors and windows being wrecked. The guilty person or persons is being searched for. It is thought that some one who did not want irrigation is guilty of this outrage.

A lecture was given at the Bonanza school house May 22nd by Miss Helen Cowgill from Corvallis. The lecture was on cooking. Miss Edna Wells and Mr. Sexton were also present. After the lecture the members of the cooking club said they were more encouraged with their work.

Willis Pankey, a soldier returned from the training camps this week. Mrs. R. Dixon was in Bonanza this week on business.

A surprise party was given for Miss Myrtle Runn, May 24th. Everyone reported an enjoyable evening. Ice cream and cake were served at midnight. The party broke up about one o'clock.

A dam is being constructed across Lost River at Bonanza. The work is progressing rapidly.

Mrs. Burkhart, Margaret Rueck and Ward Rueck were initiated into the Rebekah's Thursday night, May 22nd.

Hilda Hamaker left Sunday for the Hamaker Sawmill where she is working.

Travis Houston left May 25 for the ranch of Geo. Noble where he is going to help during the spring "round-up."

The great popularity of the Travelers LOW COST Guaranteed life policies is reflected in the fact that during 1913 this progressive company issued more than \$213,000,000 of new life business. Ask Chilcote & Smith about the NEW 1913 policies. 9-11

BE PRETTY, TURN GRAY HAIR DARK

TRY GRANDMOTHER'S OLD FAVORITE RECIPE OF SAGE TEA AND SULPHUR

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, gray or streaked. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, for about 50 cents.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it, and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive.

DROWNED PASTORS BODY STILL LOST

CORVALLIS, May 28.—Despite the fact that continuous search has been made since the disappearance of Rev. J. Cronenberger a week ago yesterday, searchers have failed in their efforts to locate him or his body and hope is dwindling. Mr. Cronenberger, pastor of the Christian church here, left Corvallis Tuesday morning, going to a point one mile north of the city to bathe in the Willamette. A new man in Oregon, he evidently did not realize that the river is treacherous north of the city and, although reputed to be an excellent swimmer, he doubtless was swept under by the heavy current and undertow. Search is being continued, and the official board of the Church has signified its willingness to bear the expense in every possible effort to locate the body.

DRESS WARM AND KEEP FEET DRY

TELLS RHEUMATISM SUFFERERS TO TAKE SALTS AND GET RID OF URIC ACID

Rheumatism is no respecter of age, sex, color or rank. If not the most dangerous of human afflictions it is one of the most painful. Those subject to rheumatism should eat "less meat, dress as warmly as possible, avoid any undue exposure and, above all, drink lots of pure water."

Rheumatism is caused by uric acid which is generated in the bowels and absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine; the pores of the skin of this impurity. In damp and chilly weather the skin pores are closed thus forcing the kidneys to do double work, they become weak and sluggish and fail to eliminate this uric acid which keeps accumulating and circulating thru the system eventually settling in the joints and muscles causing stiffness, soreness and pain called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia and is used with excellent results by thousands of folks who are subject to rheumatism. Here you have a pleasant effervescent lithia-water drink which overcomes uric acid and is beneficial to your kidneys as well.—Adv.

Hot Water for Sick Headaches

Tells why everyone should drink hot water with phosphate in it before breakfast.

Headache of any kind is caused by auto-intoxication—which means self-poisoning. Liver and bowel poisons called toxins, sucked into the blood through the lymph ducts, excite the heart which pumps the blood so fast that it congests in the smaller arteries and veins of the head, producing violent, throbbing pain and distress, called headache. You become nervous, despondent, sick, feverish and miserable, your meals sour and almost nauseate you. Then you resort to aspirin, or the bromides which temporarily relieve but do not rid the blood of these irritating toxins.

A glass of hot water with a teaspoonful of limestone phosphate in it, drunk before breakfast for awhile, will not only wash these poisons from your system and cure you of headache, but will cleanse, purify and freshen the entire alimentary canal.

Ask your pharmacist for a quarter pound of limestone phosphate. It is inexpensive, harmless as sugar, and almost tasteless, except for a sourish twinge which is not unpleasant.

If you aren't feeling your best, if tongue is coated or you wake up with bad taste, foul breath or have colds, indigestion, biliousness, constipation or sour, acid stomach, begin the phosphate hot water cure to rid your system of toxins and poisons.

Results are quick and it is claimed that those who continue to flush out the stomach, liver and bowels every morning, never have any headache or know a miserable moment.—Adv.

STAND-BY CHARGE

You own a house in the City, or you rent a house and own the furniture in it. Not far away is an engine house where day and night, men and engine await the call to rush to your home, should fire start, and put it out and save your property. This Fire Department is a stand-by charge to you. You may not know how it is, but you pay for it just the same; it's in your taxes, it's in your insurance rate.

If you had to go out to the nearest electric light pole every time you wished to have light or heat in your home, and connect up with a wire to your house, and then take a chance as to whether the man at the power house was away, or the machinery for some other reason, was shut down, your cost for electric current would be very low, but you would not be satisfied. When you press the little button on the wall of your home, or turn the knob on your lamp or stove heater at any second of the day or night, immediately comes electrical energy to save you time and trouble and supply your wants for light and heat.

Like the men at the fire house, to give you Service, there are men always watching the big machines in the power house; there are men out in the snow and sleet, working in zero weather by day and night, keeping the line in shape; there are men way out in the mountains "riding the line" on horseback; there are men with spurred feet hanging to poles doing repairs, inspecting transformers, etc.; and all this army of men are working like a clock, each in communication with the other over the Company phone lines, while you work or while you sleep, and all this in order that you may at any second have Service; and just as the firemen save your physical property, you are saved time and energy and have immediate accommodation in the SERVICE for which you pay a Stand-By charge.

California-Oregon Power Company

IT'S A POOR DOCTOR Who Won't Take His Own Medicine

THAT'S WHY WE ARE USING THIS SPACE TO TELL YOU WHAT JOLLY LITTLE BUSINESS STIMULATORS HERALD WANT ADS ARE—AND WHY THEY GET RESULTS

THERE IS NO GUESSWORK about a Herald Want Ad. They do the business. We know they pay. Our customers have told us so time and again. We have used them ourselves and they have never failed to get results. They are the short cut to a quick turn-over—the modern method of merchandising on a small scale, where the value of the article to be sold or the importance of the want to be filled will not justify a heavy outlay.

If you had something to sell, trade or give away and went out on the street and told each person you met about what you wanted to do, you might get results—but the people you talked to would be very likely to say: "That poor fish has bats in his belfry." If, on the other hand, you used a Want Ad, you would talk to the whole county at once, instead of only one person, and do it in a businesslike manner.

The same rule applies to hiring help, renting a house, looking for a job, or any one of the important little incidents of life where you must call in the assistance of someone outside your immediate family. You MIGHT get results by telling your troubles to the neighbors—but the certain, quick and economical way is to use a little classified ad.

Do you want to buy, sell or trade, want to hire help or find work; do you want to find a room, a house to rent, or to rent the same to someone else; do you want to call attention to some new feature of your business, seek information on some subject, or have you any little unfilled want?
