

WASHINGTON NEEDS COLUMBIA

PULLMAN, Wash., June 7.—That the completion of the Columbia basin irrigation project, preliminary surveys for which are to be made this summer by a commission authorized by the last session of the state legislature, would multiply by six the irrigated land area of Washington, is the statement of O. L. Walker, secretary of the survey commission, who recently has been over much of the land included in the proposed irrigation scheme. Irrigated land in Washington already totals 200,000 acres and last year produced, according to estimates, \$22,000,000 worth of farm crops.

Chief Engineer A. J. Turner and his field engineers already have made preliminary surveys from the headwaters of Rock Lake thru to Lind, in Adams county. Another party, which recently completed preliminary surveys around Spokane, has started work at Albany Falls, on the Coeur d'Alene river, and will work south to Spokane. One or two other surveying parties are to be organized to assist in the work. Secretary Walker announced.

MONTANA TEACHERS TO REPORT DISEASE

HELENA, Mont., June 7.—In an effort to increase restrictions upon contagious diseases, with a view to preventing epidemics in future, the state board of health is planning to hold annually a statewide conference of all city and county health agencies in which the general situation in the state will be canvassed.

The board has issued an order that not only city and county health officers, but school teachers and school nurses, must report all cases of contagious disease that come to their notice. When none of these officials are aware of the presence of the disease, the order provides, the head of the household is charged with the responsibility of seeing that the nearest health officer is informed.

DISEASE REPORTERS LATEST FOR IDAHO

MOSCOW, Idaho, June 7.—Plans are being perfected for the organization of a system of plant disease reporters in agricultural communities thruout the state. C. W. Hungerford, plant pathologist of the agricultural experiment station at the University of Idaho, is in charge of the movement.

Letters have been sent to county agriculturists of Idaho and to leaders of boys and girls' agricultural club work, soliciting their assistance in the work.

SOLDIERS SWORN IN AS DEPUTIES

WINNIPEG, June 6.—Brigadier General Ketchen, commander military of the forces of the Manitoba district, told a mass meeting of returned soldiers that steps were being taken to deal fully with revolutionaries and undesirables. The city government swore in 1000 constables, mostly returned soldiers. This number will be increased to three thousand.

WILL INVESTIGATE REPORTED LEAK

WASHINGTON, June 6.—The Senate after a sharp debate adopted Senator Hitchcock's motion for an inquiry into the charges made by senators and Borah that copies of the peace treaty had reached New York interests, but were withheld from the Senate. Senator Johnson's motion, requesting the state department furnish the senate with a copy of the treaty was also adopted.

FROM ARMY TO FOOTBALL

MISSOULA, Mont., June 7.—Steven Sullivan, halfback, and Harry "Swede" Dahlberg, tackle, members of former University of Montana football teams, will re-enter the university here in the fall and turn out for the eleven, it is announced. Both men were recently discharged from the military service.

WIRELESS PLANTS STRATING UP AGAIN

MILES CITY, Mont., June 7.—Wireless communication between Miles City and Jordan, Mont., will be an accomplished fact within a short time, according to statements by Ralph D. Campbell of Jordan. The wireless plant was purchased nearly three years ago and was on the

ground ready for installation when the war, entered when the United States entered the world war prevented further work. Special permission now has been received to proceed with the installation and Campbell has been employed to handle the work.

SAGE TEA KEEPS YOUR HAIR DARK

WHEN MIXED WITH SULPHUR TO BRINGS BACK ITS BEAUTIFUL LUSTRE AT ONCE

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks streaked, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred-fold.

Don't stay gray! Look young! Either prepare the recipe at home or get from any drug store a 50-cent bottle of "Wyeth's Sage and Sulphur Compound," which is merely the old time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully, besides no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger.

WATER

Just a few years ago the City of Klamath Falls was "fighting against it." Perhaps there wasn't one person in five hundred knew it, but, nevertheless, it was a fact.

The situation was critical, the future of the City hung in the balance. Few realized, busy in their everyday affairs, that the Queen City of Southern Oregon, standing as she does on the banks of a great river and touching with her boundaries two great lakes, was famished for water.

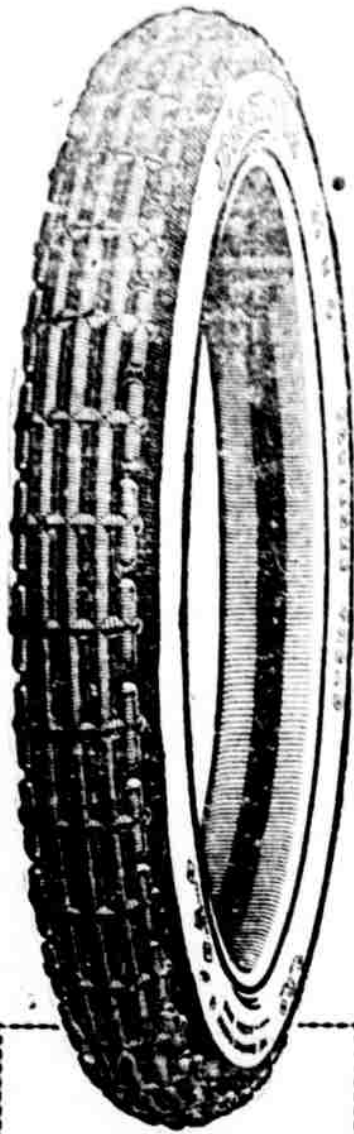

There was "Water, water everywhere, but not a drop to drink;" it was starvation in a land of plenty, for the water of these big lakes and in the river was tulle soaked and germ contained.

The only available supply was being pumped from an open spring into distributing reservoirs, but the quality was questioned and the supply inadequate.

Something had to be done; something was done! And today today the City of Klamath Falls is possessed of an abundant supply of the purest artesian water in the world.

Three 12-inch wells were drilled through hard rock, one to a depth of 78 feet, one to 80 feet and one to 160 feet, from which pure, cold, clear water gushed. These wells were cased, capped and sealed, and it is from these rock covered strata that the water used in the City today is being pumped—water free from contamination of any kind, for it does not see the light of day until it pours into the reservoir, and then only until it again runs away into the mains to serve you at the faucet.

SQUEEGEE TREAD
Tires

Diamond
Announces
Increased
Mileage
Adjustment

To Diamond Users,
and Diamond Dealers,
Here's Big News!

From today all Diamond Tires shall be adjusted on higher mileage—Fabrics, 6000 miles; Cord Construction, 8000 miles.

Furthermore, the new adjustment applies to every Diamond Tire of future or past sale, including tires in the hands of user or dealer.

Diamond users and Diamond dealers have long known the big mileage on Diamond Tires—the user's own tires.

We mark up our adjustment to 6000 and 8000 miles for Fabrics and Cords respectively, merely to measure out a definite share of the superb mileage that we know the wonderful strength and endurance Diamond Tires have in them.
