

## HOTEL MEN TO MEET AND TALK OVER DRY ERA

OAKLAND, Calif., June 10. Hotel men of the Pacific Coast will meet in this city from June 10 to 13 to wrestle principally with the dry problem. The occasion will be the eighth annual convention of the Northern California Hotel Association, but delegates also will be present from the hotel organizations of Southern California, Oregon and Washington.

About 500 are expected to attend and every subject pertaining to hotel keeping will be discussed, but overshadowing all will be consideration of ways and means how best to make the bar pay. Notwithstanding President Wilson's urging upon Congress the amendment of the war time prohibition law to permit the sale of wines and beers reports coming to the local committee on arrangements say that the bonifaces have about given up hope of continued wetness. Neither it is said do they gain much encouragement from Elihu Root's suit for the New York brewers.

To get some ideas on how to run hotels under the new regime, the convention plans to go into ancient history, one of the papers on the program having to do with the manner in which the Greeks and Romans did such things in the B. C. period. This will be covered in an address by Prof. C. M. Washburn of the Department of Archaeology of the University of California on "The Hospitality of Ancient Greece and Rome."

Another means of making up the deficit from "spirit-less" bars will be considered in the attraction of tourist travel. This will be discussed in a paper on "The New Playground of America," by Herbert Cuthbert, secretary of the Pacific Northwest Tourist Association of Seattle.

The "dead heat" will be brought before the convention in papers by Ezra Deco to district attorney of Alameda county, on "The Hotel, the Law and the Criminal," and by Albert L. Loeb, attorney for the Northern California Hotel Association on "The Credit Bureau."

## MEDFORD TO SELL IRRIGATION BONDS

MEDFORD, June 10.—Preparations have been completed for the bond sale of the Medford irrigation district, and it is believed that in a few weeks the bonds will be placed on the selling list by a number of the large bonding houses in the United States. Promoters encouraged by the prosperous condition of the Medford district are confident that the bonds will be readily disposed of.

For the Medford irrigation district, of 19,656 acres, \$1,500,000 in bonds has been issued. The entire territory, except 500 acres, is under cultivation. One third of this district is devoted to orchards extending in a crescent about the city of Medford. There are 670 farms on the project.

The principal crops of this district are hay, grain, fruit and vegetables and the principal agricultural industries are livestock, fruit growing and general farming. The price of lands in this district with water rights are from \$400 to \$2,000 per acre.

## PIONEER RESIDENT IS SERIOUSLY HURT

Judge J. B. Griffith who suffered a stroke of paralysis here at his home last Friday and has had very little use of his right leg since that time, yesterday had a narrow escape from death when he was dragged for some distance by a cow and is reported seriously sick at his home here today.

Mr. Griffith had picked up the rope to which the cow was picketed, according to report and was coiling it preparatory to leading the animal away when she started suddenly and his legs became entangled in the rope. Owing to his injured condition he was unable to extricate himself.

## RETURNS TO BERKELEY.

Miss Ethel Hughes returned this morning to her home in Berkeley after a brief visit on business and pleasure in this city. While here she was the guest of Miss Josephine Van Riper.

## COE GETS A DODGE.

J. A. Coe, who is operating a line of jitneys in this city, has purchased a new Dodge from Wakefield & Sullivan. It will be used in his service.
