Physicians' Prescriptions Our Specialty

Drug Stores are really neighborhood department stores in which various lines are featured. One druggist may push patented preparations, another toilet goods, cameras, optical service, the fountain or other department which nets him good financial returns.

Our specialty has always been the filling of Physicians' Prescriptions, and as a result our store has become a prescription center. We carry an exceptional stock of prescription drugs, and our laboratory equipment is up-to-date. We employ only experienced graduate pharmacists.

All of your Prescriptions and Recipes are important and deserve the special care which we are able to give them.

PEACE TREATY PUT IN TYPE IN TWO HOURS

WASHINGTON, June 13.—Establishing a new speed record, the government printing office within two hours Monday night set up in type the German peace treaty, consisting of nearly 100,000 words.

Despite its length and the demands for haste, owing to the desire to have the treaty appear in the Congressional Record Wednesday, as ordered by the senate, the task was taken as a matter of every-day occurrence at the plant, which is the world's largest printing establishment.

The treaty covers 64 pages of the Congressional Record and cost the government \$5000 to print. The treaty will be printed in document form later.

Only the regular night force was called upon to assist in putting the treaty into print.

Decision of the senate to insert the treaty in the Record was not reached until nearly 5 P. M. Twenty minutes later it was being cut up into "takes" and distributed to 48 linotype operators.

Eighty-five proofreaders, hastily summoned for duty, made necessary corrections.

According to assistant Superintendent William McEvoy, 9600 pounds of print paper were used; while the type used alone weighed about 1300 pounds.

LIFT CORNS OFF IT DOESN'T HURT

With fingers! Corns lift out and costs only few cents

Pain? No, not one bit! Just drop a little Freezone on that touchy corn, instantly it stops aching, then you lift that bothersome corn right off. Yes, magic! Costs only a few cents.

Try Freezone! Your druggist sells a tiny bottle, sufficient to rid your feet of every hard corn, soft corn, or corn between the toes, and callouses, without one article of pain, soreness or irritation. Freezone is the mysterious ether discovery of a Cincinnati genius.—Adv.

ACID IN STOMACH SOURS THE FOOD

SAYS EXCESS OF HYDROCHLORIC ACID IS CAUSE OF INDIGESTION

A well-known authority states that stomach trouble and indigestion are nearly always due to acidity—acid stomach—and not, as most folks believe, from a lack of digestive juices. He states that an excess of hydrochloric acid in the stomach retards digestion and starts food fermentation then our meals sour like arbage in a can, forming acid fluids and gases which inflame the stomach like a toy balloon. We then get that heavy, lumpy feeling in the chest, we eructate sour food, belch gas, or have heartburn, flatulence, waterbrash or nausea.

He tells us to lay aside all digestive aids and instead, get from any pharmacy four ounces of Jad Salts and take a tablespoonful in a glass of water before breakfast while it is effervescent, and furthermore, to continue this for one week. While relief follows the first dose, it is important to neutralize the acidity, remove the gas-making mass, start the liver, stimulate the kidneys the kidneys and thus promote a free flow of pure digestive juices.

Jad Salts is inexpensive and is made from the acid of grapes and lemon juice, combined with lithia and sodium phosphate. This harmless salts is used by thousands of people for stomach trouble with excellent results.—Adv.

BOMBARDS PURSUERS WITH BOTTLES BOOZE

MILES CITY, Mont. June 12.—The thirsty residents of Moorhead, a Powder River county town, recently had the unique experience of being bombarded by quart bottles filled with whiskey by a bootlegger whom they were trying to overtake on horseback and whose automobile stalled in the middle of Powder river while he was endeavoring to cross it at a ford. Before the bootlegger learned that his pursuers were merely thirsty horsemen instead of deputy sheriffs, he had thrown 28 quarts at them, all which went into the river.

A salvage party was organized and much work was done until a large part of the liquor was rescued.

The story was told here by Chairman John H. Morris of the Powder River county board of county commissioners.

NAVAL RECRUITING.

The local Navy Recruiting office, at the City Hall, has received a wire from Recruiting Inspector that men enlisting in the Navy may have their choice of either being sent to the Great Lakes Station, near Chicago, or San Francisco. This is a special inducement, and besides the privilege of the machinists school at Charleston, S. C. and the Electrician School at Hampton Rhodes, Virginia. All branches of the navy are open for enlistment and the Navy specialized in its machinists, electricians, wireless operators, Gas Engine, mechanics, carpenters, musicians, yeomen, blacksmiths, painters, cooks and bakers.

KEROSENE MEANS LESS WORK FOR THE HOUSEWIFE.

No woman likes to be a household drudge. She wants time for ever so many other things than cooking and cleaning. For this reason, she is in need of coal or wood much of the old-time work and dirt is eliminated.

A clean, pure kerosene like the Standard Oil Company's Pearl Oil, assures the housewife a cool, clean kitchen the year round. All the drudgery of handling the heavy coal and ashes is done away with and there is no dust nor dirt nor odor. Unlike coal or wood, kerosene lights at the touch of a match, so that there is no waiting for the fire to come up.

Pearl Oil is economical and can be readily procured everywhere. It is always the same high quality whether it is bought in 5 gallon cans or in bulk, although there is a saving by buying in bulk. It is easy to handle and gives all the convenience of gas. Being refined and re-refined by a special process the impurities have been removed and it burns up clean without smoke or odor.

Clear, Peachy Skin Awaits Anyone Who Drinks Hot Water

Says an inside bath, before breakfast helps us look and feel clean, sweet, fresh.

Sparkling and vivacious—merry, bright, alert—a good, clear skin and a natural, rosy, healthy complexion are assured only by pure blood. If only every man and woman could be induced to adopt the morning inside bath what a gratifying change would take place. Instead of the thousands of sickly, anaemic looking men, women and girls, with pasty or muddy complexions; instead of the multitudes of "nerve wrecks," "rundowns," "brain fags" and pessimists, we should see a virile, optimistic throng of rosy-cheeked people everywhere.

An inside bath is had by drinking each morning before breakfast a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations and poisons, thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Those subject to sick headache, biliousness, nasty breath, rheumatism, colds; and particularly those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drugstore, which will cost but a trifle, but is sufficient to demonstrate the quick and remarkable change in both health and appearance awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside, because the skin does not absorb impurities to contaminate the blood, while the pores in the thirty feet of bowels do.—Adv.

MUCH BOOZE SOLD AROUND CAPITAL

BOSTON, June 13.—Congressman James A. Galvin of Boston, speaking 1,000 persons at a mass meeting called as a protest against wartime prohibition, said:

"I have seen men in congress when we have had a late session, in days when Washington was wet, at midnight under the influence of liquor; but since Washington has been dry I have seen them under the influence of liquor at noonday."

"I hope that on Wednesday, when I return to Washington, some members of congress will challenge me to prove that statement. You cannot step out of the capitol to go to your office in the congressional office building without a dozen members saying: 'Come and have a drink,' and Washington is dry!"

CASOLINE BOILING POINTS TELL THE STORY.

Contrary to the opinion held by a great many people, the real value of gasoline is not shown by the old-fashioned gravity test. This test tells nothing about the vaporizing and combustible qualities of the fuel, as has been pointed out by the National Bureau of Standards at Washington. Only the boiling point test is really efficient.

Boiling points, of course, mean exactly what the words say. That is, they are points on the thermometer at which a liquid will begin to boil. For a cold engine to start quickly the gasoline must vaporize at a low temperature. To get quick and smooth acceleration somewhat higher boiling points are necessary and for full power and long mileage the fuel must have still higher boiling points.

High quality gasoline must have a complete and continuous chain of boiling points, ranging from the low to the high. Combustion starts with the lowest and flashes on thru the uniform chain from low to high with the result that there is full-powered, instantaneous combustion. Eliminate one link and the full power chain is broken. The famous Red Crown gasoline has the complete power chain.

Ask Your Boy

When the fighting was thickest—
When the suffering was greatest—
Where was The Salvation Army Lassie?
He'll say:

"She was right on the job!"

And now, back home—in the byways and hidden places—where misery always lives, where a mother needs a home, where men, women and children are on the down grade, she's still—

"RIGHT ON THE JOB."

Help Her to Carry On
