Steady and Advancing COSTS OF FOOD Make It a Problem as to How to Live

Every indication is that we must pay more for our Groceries this year than last.

Extra Good Diamond Values

Our diamond prices are values we could not duplicate if we had to buy diamonds now. During the past year we made extra efforts to secure diamonds, knowing that the scarcity of fine stones will continue for several years at least, and that prices will constantly rise. We purchased heavily and with extreme care.

Today's situation in the diamond market proves our judgment correct, and we believe our foresight represents a very worth-while saving for our patrons. We offer you a wide selection of fine diamonds of small, medium and large sizes.

The HALLMARK Store

At the Theaters

Mae Marsh's wistful appeal finds remarkable scope in the many absorbing situations of her latest Goldwyn Picture, "Hidden Fires." In it, for the first time in her career, the brilliant artiste portrays a dual role. Certain it is that no other photoplay in which "the whim girl of the screen" has appeared has given her so wide a range to demonstrate her charm.

Angles of Mae Marsh's many-sided talents heretofore unseen are brought out with telling effect in her latest triumph. Her thousands of admirers will see a new Mae Marsh, through snapshots of the old—the Mae Marsh of "The Cinderella Man" and "Money Mad"—are frequently in evidence.

Surrounded by a cast of exceptionally notable screen players and with a story more human and gripping than any she has yet had, Mae Marsh's unparalleled artistry radiates as never before. Mae Marsh will add thousands to her already tremendous following by her triumphant performance in "Hidden Fires," which comes to the Star Theater, beginning tonight.

People who long ago lost their faith in mermaids have come to believe that they are possible since seeing "Queen of the Sea" at the Liberty Theater. Annette Kellerman, the celebrated aquatic star, is not the only amphibious woman in the feature, for William Fox has surrounded her with a school of swimming sirens like those who caused Ulysses to seal his ears with wax so he could not hear their song. Miss Kellerman also makes the highest dive ever filmed—eighty-five feet from a slender wire into the surf—and it is a thriller. Altogether "Queen of the Sea" is a complete picturization of the prettiest waterfairy stories, and abounds in wonderful photography as well as real dramatic situations and sensational thrills. Don't miss seeing it. Last performance tonight.

Start Tomorrow and Keep It Up Every Morning

Get in the habit of drinking a glass of hot water before breakfast.

We're not here long, so let's make out stay agreeable. Let us live well, eat well, digest well, work well, sleep well, and look well. What a glorious condition to attain, and yet, how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices in the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing,

sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make anyone a pronounced crank on the subject of inside bathing before breakfast.—Adv.

The time is getting shorter every day for you to do what should be done before the Elks get here on August 14, 15 and 16. What are you doing?
