CORPS PLANNING SOCIAL AFFAIRS

LAST MEETING OF EACH MONTH
WILL BE DEVOTED TO SOCIAL
GATHERING OF SOME NATURE.
COMMITTEES APPOINTED

That the last meeting of each
month of the local Woman's Relief
Corps from this time, will be a social
affair of some nature was decided at
the regular meeting of this body
Monday night.

Preparations for festivities of
some kind on July 4th were discussed
at the meeting and a Committee
composed of Mesdames, Elizabeth
Ramsby, Henrietta Brookfield, and
Ceilia M. Bogardus was appointed to
promote this matter. A reception
committee composed of Mesdames
Louise Humphrey, Ione Terwilliger,
Hattie Garrett, Lina Martin and Margaret
Fleet was also appointed

WILSON REFUSES TEXT OF TREATY TO SENATE

WASHINGTON, June 17.—President
Wilson, responding to the senate
resolution asking for the text
of the treaty, advised the senate
through the state department, that
he did not consider it compatible
with public interest to transmit the
text of the treaty at this time, because
it is incomplete and there are
many delicate points still under
negotiation.

VIENNA RIOTERS SHOT DOWN BY SOLDIERS

COPENHAGEN, June 17.—When
six thousand Vienna rioters attempted
to obtain the release of communist
leaders arrested last Saturday,
eight persons were killed and
sixty-six injured in the rioting that
ensued, the soldiers firing into the
crowds.

PASSENGER PLANES TO AMERICA ARE PLANNED.

LONDON, June 18.—Fare to America
by air—4 cents a mile. This is the
Vickers company's predicted price
for a transatlantic trip in the new
gigantic airship, now practically
completed at the firm's Harrow yards,
and of which the trials are being
conducted. The vessel, which is of
the latest improved type, will have a
cabin capacity of over 1,200,000 feet,
and is designed to carry 100 passengers
to America in 45 hours. The
average speed for the trip will be 75
miles per hour, and the fare should
be about 4 cents a mile, or \$240.
Vickers are also building a number of
airships for sporting purposes, including
African big-game hunts.

SAYS HOT WATER WASHES POISONS FROM THE LIVER

Everyone should drink hot water
with phosphate in it,
before breakfast.

To feel as fine as the proverbial
fiddle, we must keep the liver washed
clean, and almost every morning to
prevent its sponge-like pores from
clogging with indigestible material,
sour bile and poisonous toxins, says a
noted physician.

If you get headaches, it's your liver.
If you catch cold easily, it's your liver.
If you wake up with a bad taste, furred
tongue, nasty breath or stomach
becomes rancid, it's your liver. Sallow
skin, muddy complexion, watery eyes,
all denote liver uncleanness. Your
liver is the most important, also the
most abused and neglected organ of
the body. Few know its function or
how to release the dammed-up body
waste, bile and toxins. Most folks
resort to violent calomel, which is a
dangerous, salivating chemical which
can only be used occasionally because
it accumulates in the tissues, also attacks
the bones.

Every man and woman, sick or
well, should drink each morning before
breakfast, a glass of hot water
with a teaspoonful of limestone phosphate
in it, to wash from the liver and
bowels the previous day's indigestible
material, the poisons, sour bile and
toxins; thus cleansing, sweetening
and freshening the entire alimentary
canal before putting more food into
the stomach.

Limestone phosphate does not restrict
the diet like calomel, because it
can not salivate, for it is harmless and
you can eat anything afterwards. It
is inexpensive and almost tasteless,
and any pharmacist will sell you a
quarter pound, which is sufficient for
a demonstration of how hot water and
limestone phosphate cleans, stimulates
and freshens the liver, keeping you
feeling fit day in and day out.—Adv.

ELECTRICAL WORKERS STRIKE CALLED OFF

SPRINGFIELD, Ill., June 17.—
The general strike order for the
electrical workers was cancelled yesterday
but the workers in Los Angeles
and other California cities went out
today, due to the slowness in transmission
of the cancellation order the
officials stated.

RECOGNITION OF IRISH IS URGED

ATLANTIC CITY, June 17.—The
American Federation of Labor, in a
resolution passed today urged con-
gress to recognize the Irish republic
and recommend that the Irish rep-
resentatives be given a hearing at
the peace conference. It also favored
self-determination for Ireland.

At the Theaters

"The Better Ole" which will be
seen for the last time at the Liberty
tonight, pleased a big audience yester-
day at its initial showing in Klamath
Falls. This picture opened in San
Francisco on May 1st and is still being
shown as yesterday's Examiner
noted in the announcement notice. It
deals with the funny side of life at
the front and is a welcome relief
from the usual war plays, which, at
best, are always more or less sad. The
experiences of Old Bill and his bun-
ks during the great world war is
what makes the picture and there is
no doubt that the patrons of the Lib-
erty will be well satisfied with their
evening's entertainment.

The time is getting shorter every
day for you to do what should be
done before the Elks get here on
August 14, 15 and 16. What are you
doing?

Firestone First

We want to bring to your attention
these facts about Firestone:

- First to build truck tires—
- First to build the channel type of truck tires—
- First to build removable truck tires—
- First to build the cup cushion truck tire—
- First to build a complete line of tires for all commercial vehicles—
- First to build a successful giant truck tire—
- First with a practical, efficient giant cord tire equipment, including demountable rims—
- First to establish 500 dealers with hydraulic press and service facilities in leading cities throughout the United States.

The only manufacturer that makes the tire and rim complete.

**RESULT: Over half the truck Tonnage of
America is carried on Firestone Tires.**

Our truck-tire service—in completeness, speed and dependability
—also ranks FIRST. We watch your truck tires, help you get
the most miles of service, suggest the correct tire for your
trucking when a change is required and make the change with
least delay. See us.

WATER

Just a few years ago the City of Klamath Falls was "Up
against it." Perhaps there wasn't one person in five hundred
knew it, but, nevertheless, it was a fact.

The situation was critical, the future of the City hung in
the balance. Few realized, busy in their everyday affairs, that
the Queen City of Southern Oregon, standing as she does on the
banks of a great river and touching with her boundaries two great
lakes, was famished for water.

There was "Water, water everywhere, but not a drop to
drink;" it was starvation in a land of plenty, for the water of these
big lakes and in the river was tulle soaked and germ contained.

The only available supply was being pumped from an open
spring into distributing reservoirs, but the quality was questioned
and the supply inadequate.

Something had to be done; something was done! And today
the City of Klamath Falls is possessed of an abundant sup-
ply of the purest artesian water in the world.

Three 12-inch wells were drilled through hard rock, one to a
depth of 78 feet, one to 80 feet and one to 160 feet, from which
pure, cold, clear water gushed. These wells were cased, capped
and sealed, and it is from these rock covered strata that the water
used in the City today is being pumped—water free from con-
tamination of any kind, for it does not see the light of day until
it pours into the reservoir, and then only until it again runs away
into the mains to serve you at the faucet.
