REAL PUBLIC SPIRIT.

It is noted elsewhere in the columns of this issue is an insignificant little item from our Shasta View correspondent that tells a story real public spirited enterprise. Down in the Merrill section is located a school house locally known as the Shasta View. Like all, or at least like so many, such buildings, it was surrounded by grounds unkempt and unsightly in the average community this condition goes on year after year unheeded, and we wonder why the children who are educated in these schools grow into manhood and womanhood with a poor idea and a lack of taste for the beautiful around their own homes. If the real truth were known, carelessness that accounts for weedy yards, broken down fences, powerless homes and the general dilapidated condition of so many homes has its inception in the yard of many of the country schools.

It must have been some such thought that entered the minds of two citizens of the Shasta View District, O. E. Hunt and C. M. Kirkpatrick. These gentlemen have just installed a pumping plant to furnish water for lands owned by them, and realizing that with water a little grass seed and a few trees a transformation could be made, they made a proposition to the other patrons of the school that if they would come and help them grade the yard, sow a lawn and plant trees, they would furnish the water necessary to keep the two acres embraced in the ground in proper condition. The response was enthusiastic and effective, and today the grounds present a different appearance to what they did a few days ago. The final touches will be put on them on the seventeenth of this month.

Klamath county needs more men like Hunt and Kirkpatrick. We need more spirit like that of Mt. Laki and Shasta View. We would like to see every yard in the county carpeted with green, level lawns, well kept and bordered with flowers and shade trees. There are in this city several silver cups that have been won by the county for exhibits at various fairs that could be offered as prizes for the best school house lawns in the county, the school winning the cup three years in succession gaining permanent possession of the trophy. Let Klamath do something to beautify the grounds surrounding its schools to the end that the esthetic may be developed in the coming generation and thus lead to greater pride in the home and its surroundings. We would suggest that whatever trophy is offered shall be known as the Hunt-Kirkpatrick Trophy, that the deeds of these men may be remembered.

At the Theaters

A more entertaining and amusing picture "Getting Mary Married," the high class comedy which Select Pictures offers on tonight at the Star Theatre, with beautiful Marion Davies, has not been seen in many a day.

This delightful story of youth and the fight it makes for its inherent right of fun, laughter and play which aristocracy is trying to make it live without, provides a splendid opportunity for Miss Davies to display her talent. Her beauty, her personality, her youth, her innate grace and charm—are all given chance for expression in "Getting Mary Married". She is a combination of piquancy, vivacity and irresistibility.

Allan Dwan directed the picture. Therefore, nothing more need to be said about the direction of the picture; it is superb. The story is splendid, human and interesting, written by John Emerson and Anita Loos especially for Miss Davies. The cast supporting this beautiful Select star comprises the following well known artists: Norman Kerry, Mar Moore, Frederick Barton, Amelia Summer-ville, Constance Beaumar and Elmer Grandin.

Loyalty, love and patriotism vie with one another for supremacy in "Wife or Country," the picture which will be presented at the Temple theatre tonight.

It is a heart-interest story of the conquering of a human weakness, picturing with rare dramatic effect the stimulating qualities of self-respect and the rejuvenation of an intemperate thru a man's affection for a good woman.

She finds the key to a man's downfall and opens the way for honor to triumph. He regains his self-respect and the wealthy clientele that is the just reward of an expedient lawyer. His success is the unexpected triumph that surprises his most intimate friends, while his marriage to the woman who has saved him is her reward.

Edith Storey, star of the Metro production, "The Demon," an exciting story of life among the bandits of Corsica and Algiers in which she portrays a young American girl raised in these wild surroundings, is the most fearless and intrepid star of the screen. Her work is always powerful and convincing, and her subjects deal with the strong, virile side of life. This picture gives her every opportunity to demonstrate unwavering courage and ability of outdoor life in which she excels.

Some of Miss Storey's best motion picture work has been done in the Metro productions, "Treasure of the Sea," "The Claim," "Revenge," "The Legion of Death," and "The Eyes of Mystery." In the "Legion of Death," a gripping story of the heroic women of new Russia, Miss Storey reaches the heights of dramatic power.

Before Miss Storey became a screen star she was an actress of note

Everybody Is Invited

on the stage, beginning her career at the age of ten when she made her debut with Eleanor Robson in "Audrey." Her evident talent was such that she was immediately engaged to play the child role in "The Little Princess." After that she joined the company of "Mrs Wiggs of the Cabbage Patch." She remained with this production for two years, playing each successive child part as she grew older in "Rebecca of Sunnybrook Farm," she enacted the part of a girl of sixteen.

Miss Storey was born and educated in New York and her stage experience was gained in the leading theatres of that city. She is a noted athlete, excellent in all branches of sport—shooting, swimming, riding, motor-ing and now, aviation, being among her favorite pastimes.

"The Demon" will be seen at the Liberty tonight.

EX-KAISER WILL RETURN.

LONDON, June 19.—The former German emperor and the former crown prince will return to Germany as soon as the peace treaty is signed, according to a well-known German source in Amsterdam, quoted in a wireless press dispatch.

CORRECTION.

The item stating that C. L. McWilliams had gone to Bend to bring back a Lexington Six was a mistake. Mr. McWilliams does not handle the Lexington here, that car being sold

AS YOUNG AS YOUR KIDNEYS

The secret of youth is ELIMINATION OF POISONS from your body. This done, you can live to be a hundred and enjoy the good things of life with as much "zip" as you did when in the springtime of youth. Keep your body in good condition, that's the secret.

Watch the kidneys. They filter and purify the blood, all of which flows through them once every three minutes. Keep them clean and in proper working condition and you have nothing to fear. Drive the poisonous wastes and deadly uric acid accumulations from your system. Take GOLD MEDAL, Haarlem Oil Capsules and you will always be in good condition. You will feel strong and vigorous, with steady nerves and elastic muscles. GOLD MEDAL, Haarlem Oil Capsules are imported direct from the laboratories at Haarlem, Holland.

They are a reliable remedy which has been used by the sturdy Dutch for over 200 years, and has helped them to develop into one of the strongest and healthiest races of the world. Get them from your druggist. Do not take a substitute. In sealed packages—

by Martin & Son thru the Klamath State Garage. What Mr. McWilliams went after was a Liberty Six, which machine is sold in this territory by him.

CARRANZA'S ARMY IN PURSUIT OF VILLA

MEXICO, June 19.—Villa and his forces were in the Guadalupe district, in western Chihuahua yesterday. It is reported General Cuaraca, who was sent to the relief of Juarez with column of cavalry is pursuing Villa.

Hot Water for Sick Headaches

Tells why everyone should drink hot water with phosphate in it before breakfast.

Headache of any kind is caused by auto-intoxication—which means self-poisoning. Liver and bowel poisons called toxins, sucked into the blood through the lymph ducts, excite the heart which pumps the blood so fast that it congests in the smaller arteries and veins of the head, producing violent throbbing pain and distress called headache. You become nervous, discontent, sick, feverish and miserable, your toes smart and almost numb to you. Then you resort to aspirin, aniline, aspirin or the bromides which temporarily relieve but do not rid the blood of these irritating toxins.

A glass of hot water with a teaspoonful of limestone phosphate in it drunk before breakfast for awhile will not only wash these poisons from your system and cure you of headache, but will cleanse, purify and freshen the entire alimentary canal.

Ask your pharmacist for a quarter pound of limestone phosphate. It is inexpensive, harmless as sugar, and almost tasteless, except for a sourish twinge which is not unpleasant.

If you aren't feeling your best, if tongue is coated or you wake up with bad taste, foul breath or have colds, indigestion, biliousness, constipation or sour, acid stomach, begin the phosphated hot water cure to rid your system of toxins and poisons.

Results are quick and it is claimed that those who continue to flush out the stomach, liver and bowels every morning, never have any headache or know a miserable moment.—Adv

BUCKHECHT ARMY SHOE

BLACK GUNMETAL, MAHOGANY CALF OR INDIAN TAN CALF

GARAGE

So Big And Yet So Small!

Seen by itself, Swift & Company is one of the largest manufacturers and distributors of animal food products in the country.

Seen in relation to the total food business of the world, its size diminishes to small proportions.

We handle only about 22 per cent of the total output of the hundreds of packing plants, under federal inspection, and only about 12 per cent of the total meat supply of the nation.

We handle only about 6 per cent of the total quantity of butter, eggs, and poultry such to market in the United States.

Our tanneries handle less than 15 per cent of the hides made into leather in the United States.

Our soap factories make less than 10 per cent of the soap output of the nation.

This is done in keen and open competition with every concern handling these products, and at a profit of a fraction of a cent per pound.

In the meat packing industry there is no one dominant concern handling a large proportion of the output.
