

SPLENDID SPORT IS THE LURE OF THE LAURENTIANS

A Trout Dinner out of Square Lake, St. Faustin.

Falls of North River at St. Marguerite, Quebec.

Rapids of River du Diable near St. Jovite, Quebec. A Splendid Trout Stream.

Here is something to interest fishermen. Lake Dumouchel is full of red trout that you can catch as fast as you can bait and throw in your line. And where is this Lake Dumouchel? It is three miles north of Mont Laurier, which is at the end of a railway running out of Montreal 160 miles northwest to the Laurentian Mountains.

Nominating some forty miles south, is the letting-off place for six big fishing and hunting clubs. American and Canadian. Big Lac Nominique, near the station, is famous for pike. The record pike of last year weighed 58 pounds. Plenty of trout are to be found here too. Lakes Plus IX and Leo XII, in the club house district, twelve miles from the railway lines, are noted for speckled trout. Their near neighbor, little Lac des Isles is full of red and grey trout.

Lakes Francois, Superior, Quenouille and La Blanche, all within a six mile radius of St. Faustin, insure full creels. The Laurentians may be rightly termed the Delectable Mountains for summer guests as well as sportsmen. There are pleasures and accommodations to suit every taste. Should you want to rough it, there are cabin hotels and remote camps where you may live like a woodsman; should you desire to take your family into the hills for a summer of healthful roving, there are for your choosing comfortable cottages, boarding houses and hotels. Should you demand a little luxury along with comfort and good service, that too, is to be had in the more pretentious hotels at St. Marguerite, Val Morin or Ste. Jovite.

GO AFTER THE VIOLATORS

There are still a few automobile drivers who persist in opening up their exhaust and deafening the people of the city as well as forcing the suspension of all business in the business section whenever it becomes most of those who practiced this annoyance have stopped, but they will be at it again if the ordinance is not enforced rigidly. There is no excuse for the opening of the exhaust in the city limits either day or night, and the police should stop it right now. Sufficient warning has been given

MORE VILLISTAS KILLED BY FEDERALS

EL PASO, June 26.—Sixty-three Villa robots were killed and many wounded yesterday in a fight with Federal troops near Villa Ahumada, according to an official military dispatch given out here today.

Jump from Bed in Morning and Drink Hot Water

Tells why everyone should drink hot water each morning before breakfast.

Why is man and woman, half the time, feeling nervous, despondent, worried, some days headachy, dull and uninteresting some days really incapacitated by illness?

It would all practice inside-bottling, what a gratifying change would take place. Instead of thousands of half-wick, anemic-looking souls with pasty, maddy complexions we should see crowds of happy, healthy, rosy-cheeked people everywhere. The reason is that the human system does not rid itself each day of all the waste which it accumulates under our present mode of living. For every ounce of food and drink taken into the system nearly an ounce of waste material must be carried out, else it ferments and forms ptomaine-like poisons which are absorbed into the blood.

Just as necessary as it is to clean the ashes from the furnace each day before the fire will burn bright and hot, so we must each morning clear the inside organs of the previous day's accumulation of indigestible waste and body toxins. Men and women, whether sick or well, are advised to drink each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it, as a harmless means of washing out of the stomach, liver, kidneys and bowels the indigestible material, waste, sour bile and toxins; thus cleaning, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Millions of people who had their turn at constipation, bilious attacks, acid stomach, nervous days and sleepless nights have become real cranks about the morning inside bath. A quarter pound of limestone phosphate will not cost much at the drug store, but is sufficient to demonstrate to any one its cleansing, sweetening and freshening effect upon the system.—Ad

CUT YOUR WEEDS OR PAY A FINE

MAYOR STRUBLE ANNOUNCES THAT HE IS GOING TO ENFORCE THE ORDINANCE WITHOUT FEAR OR FAVOR

Mayor Struble has taken up the fight against the weeds that infest the city and he states that beginning this week he will enforce the ordinance relating to this nuisance without fear or favor. He says: "The time is at hand when the city must get ready to welcome its visitors who will be here from all over the United States during August, both for the Elks Convention and the Editorial Association. The people here should know that we have an ordinance providing for the destruction of weeds, and if they didn't know it before, they know it now. Well, that ordinance is going to be enforced from this week on. The police are going to visit every section of the city and arrest the owner of every piece of property where the weeds have not been destroyed. In the case of non-residents, they will be cut and the cost assessed against the property. But one thing that can be marked right down as going to happen in this Klamath Falls is going to be cleaned of weeds."

CALIFORNIA WILL AID GOLD MINING

SAN FRANCISCO, June 27.—Gold mining in California, which passed through hard days during the war, owing to the greater cost of production and the fact that this ore did not experience the advanced prices offered for other metals, will be aided in every possible way by the California State Mining Bureau to recuperate. Permanent headquarters will be established for field assistants at Auburn, Placer County, and at Redding, Shasta County. All the facilities of the bureau will be placed at the dis-

posal of miners to aid them in solving their problems.

War conditions did much to quicken mining in practically all metals used in the production of ammunition and war munitions, thus stimulating an interest in the development of the state's resources in many minerals which heretofore have been more or less dormant or neglected.

The aid of the bureau will be accorded not only to the gold mining interests, but also to the producers of the various other metals.

HOLSTEIN BRINGS A BIG PRICE

A Holstein bull owned by M. L. Enright of Grand Forks, Minn., was purchased back by the original owner in partnership with the Papst Brewing Co. of Milwaukee for the enormous sum of \$65,000.00. The sale of this animal establishes a new record in the sale of blooded cattle for the northwest. The world's topnotch price was reached in Milwaukee, Wis., several months ago when a bull brought \$105,000.00. Besides the sale of the bull Mr. Enright disposed of 17 females at \$1,000 each to J. B. Irwin, of Minneapolis.

Mr. Enright was in Klamath Falls last January visiting his brother and family, Mr. J. H. Enright, who are residents here. Another brother, who lives at San Jose, has bought several hundred acres in the valley.

List your property with us. We hustle to find the buyer when the price is right. Call at our office at 633 Main St., or Phone 66. Chilcote & Smith. 17tf
