U. S. Officer in Charge Of Great Inter-Allied Athletic Meet at Paris

Colonel Wait C. Johnson

Colonel Wait C. Johnson of the General Staff Corps, A. E. F., got used to doing big jobs during the war. He has a big one on his hands now. As chief athletic officer of the A. E. F. and chairman of the Inter-Allied Games Committee, he is in charge of the great meet which is to be held near Paris in the Pershing Stadium beginning June 22. He got good training by staging the recent A. E. F. championship games. Colonel Johnson was well known in athletic circles during his college days.

TRANSPORTATION IS BIG PROBLEM

TOLEDO.—To carry 60,000 impatient fight fans from the heart of Toledo to Tex Rickard's \$150,000 arena four miles away in five hours is the problem which will face traction officials and taxicab companies when Jess Willard and Jack Dempsey meet in their championship contest here July 4. To solve it, everything on wheels will be pressed into service.

The chief medium of transportation to Bay View Park, the site of the arena, will be street cars. Fortunately the city has a double track from the heart of the city to the Park, and, by running cars out on one track and returning on the other, can move approximately 15,000 persons an hour. To accomplish this, it will be necessary to tap other city lines for additional equipment. Officials of the Toledo Rail & Light company, the traction operating system, plan to operate 120 cars an hour—one every half minute—to the arena, which is at the end of Summit street, one of the main thoroughfares of the city.

Automobiles of various sorts will give street cars a close race in moving the crowds. In addition to the regular taxicab services, every automobile truck will go into service for the day, and hundreds of solid citizens will hang a "For Rent" sign on their family car.

Prices for the trips to and from the arena have not been established, but it is assured there will be no seats in automobiles bringing less than one dollar for the one way ride.

Those coming to the contest in special trains will be within walking distance of their seats. Railroad officials have arranged to park hundreds of sleeping cars in the switch yards along the Maumee river, only a few minutes walk from Bay View Park. This will relieve the transportation problem by several thousands.

The gates of the huge arena will be thrown open at 9 o'clock on the morning of the contest, but Willard and Dempsey will not climb into the ring until 3 o'clock that afternoon. It is safe to say that approximately half the crowd will be seated early as the first preliminaries will be started at 10 o'clock and the more eager of the fans will demand to be in the modern wooden structure to see the first gloves fly.

Toledo itself doubtless will send from 10,000 to 20,000 citizens to the arena, and, if the day is not too hot, these will cover the distance on foot,

provided they have no automobiles. In the light of past experiences, it is probable that the crowds will start to assemble outside the four entrances to the arena at the cool of the morning but the rush and crush is expected to occur in the afternoon.

Another method of getting to Bay View Park, which is more novel than practical, is a fleet of small motor boats which will ply between the downtown section and the park. The stadium is within a few hundred feet of the Maumee river and Maumee Bay and these boats could be made a factor in the transportation provided enough of them operate. The throngs, however, will choose street cars and automobiles with an inevitable crush, rash and jam incident to such an occasion.

Art.
"Talking of artistic decoration, have you greils in your house?"
"Lots of them."
"What kind are they?"
"The kind my wife puts me through when I come home late."

His Daughter's Voice.
"What were you teaching Gwendolyn?" asked Mr. Chumley.
"The natural sound," answered the teacher.
"I suppose you know. But it didn't sound natural to me."

Did Miss Faver.
"See, this is a golden opportunity. Small investment, no risk and your mans returns absolutely sure."
"Then I wouldn't have the heart to deprive you."—Lore.

TRUE.

"Beauty is only skin deep," he remarked.
"Yes," she replied calmly, "about as deep as some men's stock of wisdom."

Mercenary.
A sailor man, I would not be
And plow the bounding main,
I'd rather plow a farm, you see,
And bank my worldly gain.

His Early Training.
"Did you hear how that upstart talked back to the society favorite? And I did hear that he began life as a butler."
"Maybe that was the reason he was so quick to answer the belle."

Information Wanted.
"We hear a good deal about the arms of Morpheus."
"What of it?"
"I have been wondering if his feet get to sleep, too."

Enough to Kill Him.
Student—There goes the professor, talking to himself, as usual.
Second Student—Yes, I should think he would have died of boredom long since.

LONDON PRESS URGES FREE IRISH RULE

LONDON, July 1.—The Times came out today in advocacy of Irish self-government.

In a series of articles adjacent to the settlement of "peace with Ireland" it says that the prime minister must at once be hurried into action looking to this end.

"Ireland shall be her own mistress," declares the article. "We believe in the possibility of promoting Irish welfare under a generous system of Irish self-government."

MORE BOOZE IS NEEDED IN JACKSON.

MEDFORD, July 1.—Rumors are being circulated here that more deputies are to be added to the present force of three in Jackson county to watch for bootleggers and others who attempt to smuggle liquor from California. The officers are on duty at all hours and will continue their search for contraband until July 1, when nation-wide prohibition becomes effective.

Many automobiles have been coming thru from California but only one suspect was found. This driver, accompanied by a woman, slowed up as he approached the officers but, when a few feet away, speeded up and made his escape down the mountainside.

The time is getting shorter every day for son to do what should be done before the Elks get here on August 11, 15 and 16. What are you doing?
