

RAILWAY RATES TO BE ADVANCED

Public Treasury Will Be Relieved
of Burden of Meeting Deficits
in Earnings.

EDITORS' POLL IN CONGRESS.

Heavy Vote for Return of Roads
Arouses Interest at the Na-
tional Capital.

Washington.—The national poll on the railroad question by 6,000 newspaper editors throughout the country has aroused great interest at the national capital. With \$1 per cent. of the editors giving it as their impartial opinion that the public favors an early return of the railroads to their owners and only 11 per cent. favoring Government ownership or operation, the members of Congress of both political parties propose to provide speedily for the legislation to make it possible to restore the roads to private management before the end of the year.

In Congress there is a general agreement that the following steps will have to be taken before the roads are returned to their owners:

1. An advance in rates to meet the greatly increased cost of labor and materials in order that the Public Treasury may be relieved of the burden of meeting monthly deficits and the roads made self-supporting. The Director General of Railroads states that the increase in rates thus far is about 25 per cent. as compared with an increase in operating costs of from 50 to 90 per cent.

2. Greater nationalization of public control of transportation—a single public control in the Federal Government in place of 49 masters in the different States, with conflicting laws and regulations.

3. Legalization of consolidations and common use of lines and facilities whenever in the public interest.

4. Assurance through an act of Congress that in the future the Government will approve of rates for freight and passengers that will not only be fair to the public, but fair to the roads, and that will yield a sufficient income on capital to attract the \$750,000,000 to \$1,000,000,000 of new capital needed every year for the expansion of railroad facilities.

Now the States voted in the national poll of editors on the question of the return of the railroads to private management is shown by the following chart. That the railroad question is a non-partisan issue is plain from a study of the table:

Willard 248 Pounds, Dempsey 201

These pictures give a very accurate idea of how Jess Willard and Jack Dempsey look, with their championship fight at Toledo only a few days off. The photographer does not state whether Jess was doing the old trick of holding in his 'tummy' but he

FOR THE SIX-YEAR-OLD GIRL

Wash Materials the Favorite for Children Regardless of Season or Climate.

As radiant style changes are infrequent in children's garments, a complete new outfit may be brought out between seasons without the fear that the little garments will be out of style before they are worn out. Wash materials reign supreme for the practical service frock for the girl of six years or under, regardless of season or climate. During the days of the war when the question of 'help' was a very real problem, mothers indicated a very decided leaning to the little wool and silk fabrics dresses that might be sent to the cleaners and come home as good as new, but under ordinary conditions dresses that wash are always the wisest selection for the child of six years or under.

The guimpe dress, always a favorite, is very much in evidence this summer, developed in heavy linen or cotton, in any preferred color, to be accompanied by sheer, cool-looking guimpe or underwaist of white.

Pongee is so fashionable this year and so much in demand that the supply is not equal to the demand. It is used for girls of all ages, from four years old up. Dainty hand embroidery or hand work of some sort is the preferred trimming, whether the dress be of silk or cotton. Hand-smocked garments are dainty and smart. Novel embroidery touches are much used, the quaint cross stitch or simpler patterns being generally approved.

Georgette is a prime favorite for party frocks for girls of all ages.

Georgette launders well, a strong point in its favor. A party dress that will go into the wash-tub and come out as good as new is a very good investment.

FABRICS FOR NEXT SEASON

Chinchilla Satin, Kumsi-Kumsa and Whippoorwill Among Latest Novelties.

Chinchilla satin is a novelty for next season. This is really a Roshanara crepe on one side and has a satin surface on the other. It is specially for tailored frocks and separate skirts. Kumsi-Kumsa is featured for fall, in a range of street shades in attractive plaids in combinations of black with purple, henna, brown or dark green. This is for both wraps and street dresses.

Whippoorwill is also among the latest novelties offered, and seems to be of the same family as Dew-Kist and Kumsi-Kumsa—that is, it has the same sort of sheen and metallic suggestion, but the crepe, or rib, is much finer and more regular, so that it gives the impression of a ribbed fabric particularly suitable for evening frocks. It would be equally suitable for draped wraps, but it will be shown in the darker shades as well as for afternoon wear.

GERMAN PRESS NOW TALKING OF REVENGE.

AMSTERDAM, July 1.—The German press is urging a war of revenge as soon as the peace treaty is signed. The Deutsche Zeitung declares: "From today on we must arm. We must repeat daily the God who created iron does not make slaves."

seems to have taken off quite a lot of fat. He (the photographer) says, however, that the scales registered 248 pounds. Both used the same type of scales and the difference in their height can be seen at once. Again the evasive photographer states that the beam tipped at 178 when Dempsey stepped upon them, but that Dempsey was fussing with the mechanism and that his weight at the time the photograph was taken was about 201.

ACID IN STOMACH SOURS THE FOOD

SAYS EXCESS OF HYDROCHLORIC ACID IS CAUSE OF INDIGESTION

A well-known authority states that stomach trouble and indigestion are nearly always due to acidity—acid stomach—and not, as most folks believe, from a lack of digestive juices. He states that an excess of hydrochloric acid in the stomach retards digestion and starts food fermentation then our meals sour like cabbage in a can, forming acid fluids and gases which inflate the stomach like a toy balloon. We then get that heavy, lumpy feeling in the chest, we eructate sour food, belch gas, or have heartburn, flatulence, waterbrash or nausea.

He tells us to lay aside all digestive aids and instead, get from any pharmacy four ounces of Jad Salts and take a tablespoonful in a glass of water before breakfast while it is effervescent, and furthermore, to continue this for one week. While relief follows the first dose, it is important to neutralize the acidity, remove the gas-making mass, start the liver, stimulate the kidneys the kidneys and thus promote a free flow of pure digestive juices.

Jad Salts is inexpensive and is made from the acid of grapes and lemon juice, combined with lithia and sodium phosphate. This harmless salts is used by thousands of people for stomach trouble with excellent results.—Adv.

ST. HELENA NATIVES WANT KAISER EXILED.

JAMESTOWN, St. Helena Island, via Facts, July 1.—The St. Helena Observer, the only newspaper published on this island, where Napoleon ended his days, wants the former kaiser sent here to spend the remainder of his life in exile. The Observer says the entire population of the little island is excited over the possibility that it may have another imperial hostage.

Do Not Saw Your Tires With Bent Fenders

Tires are often injured by the sharpened edge of a bent fender.

When the car is loaded the bent sharp edge may press against the tire.

It is our business to sell and repair tires, but if we point out possible sources of tire injury and so help you get the most out of your tires, you may feel like coming to us when you need new tires or repairs on your old ones.

IT'S A POOR DOCTOR Who Won't Take His Own Medicine

THAT'S WHY WE ARE USING THIS SPACE TO TELL YOU
WHAT JOLLY LITTLE BUSINESS STIMULATORS HERALD
WANT ADS ARE—AND WHY THEY GET RESULTS

THERE IS NO GUESSWORK about a Herald Want Ad. They do the business. We know they pay. Our customers have told us so time and again. We have used them ourselves and they have never failed to get results. They are the short cut to a quick turn-over—the modern method of merchandising on a small scale, where the value of the article to be sold or the importance of the want to be filled will not justify a heavy outlay.

If you had something to sell, trade or give away and went out on the street and told each person you met about what you wanted to do, you might get results—but the people you talked to would be very likely to say: "That poor fish has bats in his belfry." If, on the other hand, you used a Want Ad, you would talk to the whole county at once, instead of only one person, and do it in a businesslike manner.

The same rule applies to hiring help, renting a house, looking for a job, or any one of the important little incidents of life where you must call in the assistance of someone outside your immediate family. You MIGHT get results by telling your troubles to the neighbors—but the certain, quick and economical way is to use a little classified ad.

Do you want to buy, sell or trade, want to hire help or find work; do you want to find a room, a house to rent, or to rent the same to someone else; do you want to call attention to some new feature of your business, seek information on some subject, or have you any little unfilled want?

USE HERALD WANT ADS

THEY DELIVER THE GOODS AND ARE ALWAYS WORKING
