KILGORE LAND TO AWAIT SURVEY

The application of the Kilgore company for the exclusion of certain lands included in the Langell Valley irrigation project was heard by the district at their meeting yesterday, and it was decided that no action would be taken until after a survey was made. If it is deemed that the company is entitled to a compliance with its request, after the survey is made and passed upon by the engineer and the director, it will be granted. The lands sought to be excluded are those covered by certain rights gained through water right grants made by the state. D. G. Horn also appeared before the board and asked for the exclusion of certain lands controlled by him, and it was decided to take up and dispose of the matter the publication of the usual advertising required by law.

The time is getting shorter every day for you to do what should be done before the Elks get here on August 14, 15 and 16. What are you doing?

A Boy Can Run a John Deere Dain Mower

While you are getting things in shape for making hay, put your boy on the John Deere Mower and let him do the cutting—he will do it just as well and just as easily as you can do it.

Because of the powerful lift, he can easily raise the cutter bar to pass over any field obstruction or to extreme height, when necessary. A foot lever, working in conjunction with the hand lever, makes the lift simple and easy.

He will never have to back up to get a start, even in the heaviest hay. The knife starts cutting the instant the mower is thrown in gear—no lost motion.

You will see big advantages in the drive on this machine—it's extremely simple—the gears are so placed that one set holds the other set in mesh constantly. The John Deere will cut all of the grass for years to come—a simple adjustment takes up all lag in the cutter bar, without affecting the centering of the knife. If the knife ever needs re-centering, a special adjustment is provided.

The John Deere is the simplest, most powerful and best-built mower we have ever seen. We know it will appeal to you.

Come in—it's to your advantage, to know all about this mower before you buy. While at our store, we want you to see the rest of our line of haying and harvesting machinery. We have a line of machines you can use with satisfaction and profit.
