DRESS WARM AND KEEP FEET DRY

TELLS RHEUMATISM SUFFERERS TO TAKE SALTS AND GET RID OF URIC ACID

Rheumatism is no respecter of age, sex, color or rank. It is not the most dangerous of human afflictions it is one of the most painful. Those subject to rheumatism should eat less meat, dress as warmly as possible, avoid any undue exposure and, above all, drink lots of pure water.

Rheumatism is caused by uric acid which is generated in the bowels and absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine; the pores of the skin of this impurity. In damp and chilly air this is a means of freeing the blood cold weather the skin pores are closed thus forcing the kidneys to do double work, they become weak and sluggish and fail to eliminate this uric acid which keeps accumulating and circulating thru the system eventually settling in the joints and muscles causing stiffness, soreness and pain called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia and is used with excellent results by thousands of folks who are subject to rheumatism. Here you have a pleasant effervescent lithia-water drink which overcomes uric acid and is beneficial to your kidneys as well.—Adv.

CONCRETE FREIGHT CAR STANDS HEAVY HAULING TESTS

The new concrete freight car is standing every test in trials at Washington where the Bureau of Standards and General Inspection has it in hand. The car was first given 90 days' heavy traffic hauling on the Illinois Central. It withstood the dropping of a 4400-pound clam shell bucket a distance of 20 feet. It is much stronger than the steel car and costs \$700 less.

ALASKA NEEDS LOWER RATES

GOVERNOR RIGGS SAYS COUNTRY GO ALMOST UNPEOPLED UNLESS STEAMSHIP RATES ARE CUT

JUNEAU, Alaska, July 9.—Alaska gradually will lose population and revert to a vast territory unpeopled save for the seasonal fishing population and operatives of a few great mines, if lower steamship rates from the outside world cannot be obtained, Governor Thomas Riggs, Jr., declared in a message to the last Alaska territorial legislature here.

The governor's message advocated the consideration of the establishment of a territorially owned passenger and freight steamship line to compete with the privately owned lines which operate from Seattle. A line owned by the territory could operate for lower rates, the governor argued.

"I realize that I am advocating a most radical and startling departure from accepted standards" the governor's message said. "The first impulse is to characterize the scheme as impracticable. It is not impracticable; it is distinctly practicable and will allow the territory to take on renewed life."

"Every other question sinks to insignificance, for back of it all remains the basic fact that unless relief is afforded us in our most vital need, monies expended on roads, schools, charities and all other constructive projects constitute merely stop gap measures, never to bear fruit."

Ocean lanes, it was pointed out are the only routes Alaska has to the outside world and if the lanes are clogged by high freight rates Alaska will not prosper.

To carry out the governor's suggestion authorized the appointment of a territorial shipping board to get lower rates from the steamship companies or to work for the establishment of a territorially owned line.

Governor Riggs has been named

chairman of the shipping board. Maurice Leehey, a Seattle attorney has been employed by the board to handle the board's business. Leehey is in Washington at present and may endeavor to have congress pass a resolution authorizing Alaska to bond itself for \$5,000,000 to obtain money for the steamship line.

KAISER IRRITATED AT THOUGHT OF TRIAL

AMERONGEN, July 9.—The former German Emperor displayed marked irritation after reading the clause of the Peace Treaty in which the Allies announced their intention of putting him on trial on charges of violation of international morality and of the sanctity of treaties. For several hours after he had read the clause no one at the castle of Amerongen had the courage to approach him. He sat in a chair before the main entrance to the castle entirely alone and apparently in deep thought while the former Emperor, Auguste Victoria, and the members of his suite walked in the grounds occasionally glancing in his direction.

Next day he seemed to be in a state of nervous agitation, for he frequently ceased his sawing and walked away leaving those who assist him to continue the work alone. Later, however, he resumed with increased energy, so much so that one of his assistants was forced to take to his bed for some days in order to recover from a chill caught while

perspiring at the other end of the saw.

Subsequently the dull life at the castle resumed its ordinary dullness and since the first display of annoyance Count Hohenzollern has shown few signs of being much affected by the conditions of the Peace Treaty.

The former Emperor has seen his 4,000th log and it is asserted by some of his retainers that he intends to bring the number up to 10,000. The logs which now form a large heap are placed in piles to dry in preparation for use as fuel in the castle next winter.

"PEACE HAT" SOON TO BE OFFERED TO MEN

LONDON, July 9.—The 'Peace Hat' is a new kind of headgear about to be offered to London men. Mystery veils its shape and material and hat-ters thus far have managed to keep the secret strictly guarded, but they have hinted enough about a revolution in men's head covering to stir up a lot of curiosity.

"Men are tired of the old time-honored bowlers (derbies), toppers, straws and Homburgs," said one haberdasher, "and they want something new. The need is urgent for a new hat—the 'Peace Hat.'"

A London milliner said she favored an innovation.

"It's quite time," said she. "Men's hats at present are undoubtedly the dullest things in life."

Don't forget the non-divorce wedding rings at Davenport's. 8-3t

LOGS WANTED

Will contract for five to ten million feet of pine logs per year for any number of years. S. P. or Strahorn railroad delivery. Purchase in either large or small quantities.
