

# COURT DECREES CUT IMPORTS

DECREE OF JUNE 20 LIFTS PROHIBITION ON IMPORTS—GREAT NUMBER OF ARTICLES REMAIN ON PROHIBITED LIST

NEW YORK, July 8.—An official announcement is made here by the French High Commission in explanation of two decrees recently issued by the French government under which restrictions on imports into France were partly removed.

Under a decree becoming effective June 20, the prohibition of imports was lifted on all merchandise not enumerated in the decree. The principal articles of merchandise which remain prohibited for the time being, except under license, are enumerated by the announcement as follows:

Cold storage meats, carded and combed wool, cheese, spelt and meslin in seed of flour (drinks), oil potassium, chemical products, derivatives of oil-tar other than those obtained directly by distillation of the tar dyes derived from tar, perfumes, twines, with the exception of binding twine, textiles, news-print paper, dressed or made-up furs, gold or silver wares, jewelry, clocks and watches, arms, powders and munitions, musical instruments and their parts, various articles of luxury, tobacco, and other materials prohibited by special law, such as saccharine, distilled liquors, chemical matches, etc. The second decree gives the table of surtaxes ad valorem to be levied in addition to the specific duties on taxes merchandise.

The rate of surtaxes varies with the nature of the products under consideration and according to whether the general tariff or the minimum tariff is to be applied; it ranges between 5 percent and 20 or 30 percent and occasionally 40 percent.

For example: The surtax on typewriters is 10 percent, general tariff, and 5 percent minimum tariff; that on automobiles is 20 percent general tariff, and 10 percent minimum tariff for those which are not already taxed ad valorem. For this latter, the tax is 70 percent. It has not been increased.

## AN OLD RECIPE TO DARKEN HAIR

SAGE TEA AND SULPHUR TURNS GRAY, FADED HAIR DARK AND GLOSSY.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Compound." You will get a large bottle of this old-time recipe improved by the addition of other ingredients, at very little cost. Everybody uses this preparation now, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this thru your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two your hair becomes beautifully dark, thick and glossy and you look years younger.—Adv.

KLAMATH FALLS, OREGON

# WATER

Just a few years ago the City of Klamath Falls was "Up against it." Perhaps there wasn't one person in five hundred knew it, but, nevertheless, it was a fact.

The situation was critical, the future of the City hung in the balance. Few realized, busy in their everyday affairs, that the Queen City of Southern Oregon, standing as she does on the banks of a great river and touching with her boundaries two great lakes, was famished for water.

There was "Water, water everywhere, but not a drop to drink;" it was starvation in a land of plenty, for the water of these big lakes and in the river was tulle soaked and germ contained.

The only available supply was being pumped from an open spring into distributing reservoirs, but the quality was questioned and the supply inadequate.

Something had to be done; something was done! And today the City of Klamath Falls is possessed of an abundant supply of the purest artesian water in the world.

Three 12-inch wells were drilled through hard rock, one to a depth of 78 feet, one to 80 feet and one to 160 feet, from which pure, cold, clear water gushed. These wells were cased, capped used in the City today is being pumped—water free from contamination of any kind, for it does not see the light of day until and sealed, and it is from these rock covered strata that the water it pours into the reservoir, and then only until it again runs away into the mains to serve you at the faucet.

## IT'S A POOR DOCTOR

### Who Won't Take His Own Medicine

THAT'S WHY WE ARE USING THIS SPACE TO TELL YOU WHAT JOLLY LITTLE BUSINESS STIMULATORS HERALD WANT ADS ARE—AND WHY THEY GET RESULTS

THERE IS NO GUESSWORK about a Herald Want Ad. They do the business. We know they pay. Our customers have told us so time and again. We have used them ourselves and they have never failed to get results. They are the short cut to a quick turn-over—the modern method of merchandising on a small scale, where the value of the article to be sold or the importance of the want to be filled will not justify a heavy outlay.

If you had something to sell, trade or give away and went out on the street and told each person you met about what you wanted to do, you might get results—but the people you talked to would be very likely to say: "That poor fish has bats in his belfry." If, on the other hand, you used a Want Ad, you would talk to the whole county at once, instead of only one person, and do it in a businesslike manner.

The same rule applies to hiring help, renting a house, looking for a job, or any one of the important little incidents of life where you must call in the assistance of someone outside your immediate family. You MIGHT get results by telling your troubles to the neighbors—but the certain, quick and economical way is to use a little classified ad.

Do you want to buy, sell or trade, want to hire help or find work; do you want to find a room, a house to rent, or to rent the same to someone else; do you want to call attention to some new feature of your business, seek information on some subject, or have you any little unfilled want?
