PRESIDIO CAMP WELL ATTENDED

500 YOUNG MEN TAKE SIX INTENSIVE MILITARY COURSE AT R. O. T. C.—WORK IS HARD BUT INTERESTING

SAN FRANCISCO, July 10.—500 young men from 42 universities and high school of the nine far-western states are learning the rudiments of soldiering in a six weeks' intensive course of instruction at the Reserve Officers' Training Corps camp at the Presidio, the government military reservation here.

They began their work on June 21. The course will come to a close on August 2. Colonel Pierce A. Murphy, who is in command, and the other officers who are aiding him in instructing the youngsters are proud of the physical record shown by them. Only six of those who appeared failed to come up to the required standard.

The camp consists of one company of college students of the Junior and Senior classes, who are taking the advanced course; four companies of college Freshmen and Sophomores who are taking the basic course, and three companies of high school students. The college men form the Senior Division of the R. O. T. C.

YANKEE GIRL SPURNS BERLIN STAGE OFFER

American stage artists do not care to perform for German amusement, regardless of the returns. Mile. Dazie, 16-year-old dancer, had a cable from the director of the Berlin Wintergarden telling her to name her own terms for an early appearance there. "I do not care to set foot on German soil," German appreciation is not what I am looking for," was her reply.

and the school boys the Junior Division.

The objects of the camp are to give the students six weeks of rugged outdoor life, to encourage interest in military knowledge and to promote physical efficiency. It also is expected to add to the efficiency of the various college and school cadet corps by contributing well-versed youngsters to their various units when they return to school.

The day's work begins at reveille, which blows at 6:15 every morning. Breakfast comes at 6:30. From 8 o'clock until noon are the drills, at which time all hands are more than ready for mess. From 1 o'clock until 4:30 comes more hard work of the body and mind-building kind. Supper is enthusiastically welcomed at 5:30 o'clock. Then comes a period of relaxation until 10 o'clock, when taps are sounded.

Among the activities are infantry drill, physical drill, army group games, musketry and target practice, bayonet combat, signalling, first aid and military hygiene. Minor tactics is specialized in by the Senior advanced course.

Forty-five non-commissioned officers of the army have been detailed to aid in giving bayonet, signalling and other instruction.

The government pays all the expenses including furnishing the uniforms, feeding and transportations to and from home. The boys wear the regular army uniform and are distinguished by an olive green hat cord, and collar and sleeve device bearing the letters R. O. T. C.

The camp is not only for the instruction of cadets. Army officers detailed to duty with it are devoting themselves so far as time permits to studies of methods of instruction and administration, to the end of making the work of military training fit more easily into the courses of instruction of educational institutions.

PUT STOMACH IN FINE CONDITION

SAYS INDIGESTION RESULTS FROM AN EXCESS OF HYDROCHLORIC ACID.

Undigested food delayed in the stomach decays, or rather, ferments the same as food left in the open air, says a noted authority. He also tells us that indigestion is caused by Hyper-acidity, meaning, there is an excess of hydrochloric acid in the stomach which prevents complete diges-

tion and starts food fermentation. Thus everything eaten sours in the stomach much like garbage sours in a can, forming acrid fluids and gases which inflate the stomach like a toy balloon. Then we feel a heavy, lumpy misery in the chest, we belch up gas, we eructate sour food or have heartburn, flatulence, water-brash or nausea.

He tells us to lay aside all digestive aids and instead, get from any pharmacy four ounces of Jad Salts and take a tablespoonful in a glass of water before breakfast and drink while it is effervescing and furthermore, to continue this for a week. While relief follows the first dose, it is important to neutralize the acidity, remove the gas-making mass, start the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices.

Jad Salts is inexpensive and is made from the acid of grapes and lemon juice, combined with lithia and sodium phosphate. This harmless salts is used by thousands of people for stomach trouble with excellent results.—Adv.

ATHLONE MY HOME

Mrs. H. R. Reynolds

Athlone my home, although from thee I roam
In dreams I re-visit thy Shannon's shore
And I pray when I return again, that it will be a day in Spring
A day when skies are soft and bright.

Above thy silvery Shannon's sparkling light
A day from which the ashes white and cold
Of warrior's bold, like voices which slavery
Cannot kill, shrieks for freedom still

A day which in the strength of God, like His mystic rod
Stretched over the wave, and opened a path-way for the slave
A day which yet may point the bond-man's way, and tear
The spoilsman from his prey.

Oh! dear Lord—do make of it a day in Spring when I return
To Athlone again, a day when Mercv's voice of pleading
Has ceased for hearts in bondage bleeding, a day when
The graves-stones over buried right shines bright.

I hope it will be a day in Spring when I return again
A day when buds of feeling pure and bright
Has proven to Britain a sense of right; a day when the mellow
Mist of time has hid the crimson stain of England's crime.

SEES "DRY" WORLD

The U. S. helped Europe crush militarism, so now if national prohibition is possible at home, then world prohibition is bound to come, says Lars Larsen Ledet, foremost editor of Denmark, here to study anti-saloon methods.

Just Remember this, The dates for the Elks' Convention are August 14, 15 and 16. Get ready.

Don't forget the non-divorce wedding rings at Davenport's. 8-3t

65 Loganberries

Are used to flavor one Jiffy-Jell dessert. The juice is condensed and sealed in a vial.

This is one of our best fruit flavors. Compare it with the old-style quick gelatine desserts.

FOREST FIRES CAUSE DAMAGE

KESTERSON MILL AT IVAN WAS THREATENED WITH DESTRUCTION—FIRE BURNING ON EAST SIDE OF MT. LAKE

What for a time threatened to be a destructive fire and placed in jeopardy the Kesterson sawmill at Ivan, California, has been brought under control after it had burned some valuable timber and two cabins. There is some doubt as to the origin of the fire, one story being that it started from sparks thrown from a traction engine, the other being that burning slashings started the trouble. The timber destroyed belongs to the Western Pacific company.

Another fire is burning on the northeast side of Mt. Lake, and is plainly visible from the city. So far but slight damage has been done, but if it is not brought under control within a short time it will get into some valuable timber and the loss is sure to be heavy.

These fires bring home to the people of the county the absolute necessity for the exercise of the greatest care, not only on the part of mill operators, but their employes and especially campers. The most valuable perishable asset the county has is its timber. Destroy it and Klamath Falls will be but a country village. Every acre of timber that

is ever burned hurts this city just that much and the residents of Klamath Falls should constitute themselves into a committee to preach fire protection for the standing timber at all seasons of the year and to aid in the vigorous prosecution of anyone responsible for carelessness.

WRECK AND DESTROY WHEN TROOPS LEAVE

LAREDO, Texas, July 10.—Withdrawal of troops from bandit-infested regions in central and southern

Mexico to campaign against Villa in the north has led to a new wave of train wrecking and railway destruction in that republic, according to stories printed by Mexico papers received in this city.

If you get one of those seamless, hand made wedding rings at Davenport's, everybody will be happy. No divorces.

The time is getting shorter every day for you to do what should be done before the Elks get here on August 14, 15 and 16. What are you doing?

PRINCE ALBERT

the national joy smoke

NEVER was such right-handed-two-fisted smokejoy as you puff out of a jimmy pipe packed with Prince Albert! That's because P. A. has the quality!

You can't fool your taste apparatus any more than you can get five aces out of a family deck! So, when you hit Prince Albert, coming and going, and get up half an hour earlier just to start stoking your pipe or rolling cigarettes, you know you've got the big prize on the end of your line!

Prince Albert's quality alone puts it in a class of its own, but when you figure that P. A. is made by our exclusive patented process that cuts out bite and parch—well—you feel like getting a flock of dictionaries to find enough words to express your happy days sentiments!

Toppy red bags, tidy red tins, handsome pound and half-pound tin humidors—and that classy, practical pound crystal glass humidor with sponge moistener top that keeps the tobacco in such perfect condition.
