

JOFFRE THANKS AMERICAN WOMEN

FRENCH WAR LEADER EXPRESSES DEEP APPRECIATION FOR CONTRIBUTIONS SENT TO AID FATHERLESS BOYS AND GIRLS

FAIRBANKS, Alaska. — Marshal Joffre has written Mrs. J. Harmon Caskey, Fairbanks, president of the Alaska committee for the Fatherless Children of France, thanking her and other Americans for contributions sent from here to help the French boys and girls whose fathers died in battle.

"The splendid results obtained by yourself and devoted collaborators do not surprise me," the marshal's letter said. "Too well do I know the soul of American womanhood, vibrating with a magnificent ideal of justice and goodness, full of love for France and compassion for the suffering of her people, to be astonished at the results.

"Better than anyone else have I been able to appreciate how great was your work. Be, madam, my interpreter to your compatriots. Tell them, assure them, that each orphan is a young French subject saved in some instance from death and in every instance from dire want and unhappiness. Tell them also that France whose territory is less than one-third the area of the territory of Alaska, has alone lost more than one million and a half soldiers on the field of battle and that all of her wounds still bleed.

"Thus shall they better comprehend how efficacious has proved what they have done and how great the

task which yet remains to be done. "To them, to your collaborators, and to yourself, especially, madam, in my own name and in the name of the French soldiers dead on the fields of honor are tendered my warmest and most grateful thanks."

Marshal Joffre is president of the French Committee for the Fatherless Children of France.

MEMORIALS STARTED BY HUMANE SOCIETY

SAN FRANCISCO, July 14.—A useful memorial which will last for all time and is within the means of those with limited incomes who wish to perpetuate the memory of the loved relatives or friends has been made possible by the San Francisco Society for the Prevention of Cruelty to Animals. This is known as a perpetual membership.

For the payment of \$250, the interest of which in perpetuity is devoted to the humane work of the organization, the name of the donor, or the person to be memorialized, is placed on a handsome bronze tablet set in the wall of the Society's rooms. A notation of the particulars of the gift is recorded in a special book preserved in the archives of the organization.

"A woman's shaft after the lapse of a few generations is likely to be forgotten," said a member of the board of trustees of the society, "beside serving no real useful purpose." A "perpetual membership" not only lasts for all time, but for all time the money invested is doing its quota of humanitarian work in the way of relieving suffering among dumb animals. Only the more wealthy are able to endow a hospital bed or a university scholarship. Ours is a similar memorial along more modest lines.

JAPAN AND AMERICA TO HAVE ANOTHER UNDER-SEA CABLE

TOKIO, July 14.—The project of laying another submarine cable line between Japan and the United States as a private enterprise with a view to facilitate and improve the telegraphic communications between the two countries is reported to be making headway. The plan is said to have secured the warm support of Japanese government authorities and of over thirty influential business men who are expected to finance the undertaking.

The organization committee, headed by Kakichi Uchida, former vice-minister of communications; Baron Kumakichi Nakajima and Baron Shibusawa, has entrusted the investigation of technical matters to the experts of the communications department, professors of the Imperial University and engineers of the navy.

Four lines have now been suggested and investigations are being made as to which route is the most available. One proposed route would land at Vancouver, the other three routes at San Francisco. Two of the proposed routes would touch Honolulu.

The investigators say that the number of words handled on the Pacific cable during the past few years shows yearly proportionate increase of about 35 percent. About 5,000,000 words were carried in 1918.

SHERIDAN, Wyo., July 15.

Twenty thousand head of cattle will make up a shipment, Ed L. Dana expects to make to the Omaha market tomorrow. Six hundred full sized cattle cars were ordered to the little station of Rowley, near Mr. Dana's ranch where the livestock will be loaded for transportation. A check for between \$2,000,000 and \$3,000,000 will be received by Dana in return for his trouble.

HAVE DARK HAIR AND LOOK YOUNG

NOBODY CAN TELL WHEN YOU DAREN GRAY, FADED HAIR WITH SAGE TEA

Grandmothers kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, for about 50 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and beautiful.

Be sure you get Dr. James' Headache Powders—then there will be no disappointment.

Jump from Bed in Morning and Drink Hot Water

Tells why everyone should drink hot water each morning before breakfast.

Why is man and woman, half the time, feeling nervous, despondent, worried; some days headachy, dull and unstrung; some days really incapacitated by illness.

If we would all practice inside-bathing, what a gratifying change would take place. Instead of thousands of half-sick, anaemic-looking souls with pasty, muddy complexions we should see crowds of happy, healthy, rosy-checked people everywhere. The reason is that the human system does not rid itself each day of all the waste which it accumulates under our present mode of living. For every ounce of food and drink taken into the system nearly an ounce of waste material must be carried out, else it ferments and forms ptomaine-like poisons which are absorbed into the blood.

Just as necessary as it is to clean the ashes from the furnace each day before the fire will burn bright and hot, so we must each morning clear the inside organs of the previous day's accumulation of indigestible waste and body toxins. Men and women, whether sick or well, are advised to drink each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it, as a harmless means of washing out of the stomach, liver, kidneys and bowels the indigestible material, waste, sour bile and toxins; thus cleaning, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Millions of people who had their turn at constipation, bilious attacks, acid stomach, nervous days and sleepless nights have become real cranks about the morning inside bath. A quarter pound of limestone phosphate will not cost much at the drug store, but is sufficient to demonstrate to any one its cleansing, sweetening and freshening effect upon the system.—Ad

Physicians' Prescriptions Our Specialty

Drug Stores are really neighborhood department stores in which various lines are featured. One druggist may push patented preparations, another toilet goods, cameras, optical service, the fountain or other department which nets him good financial returns.

Our specialty has always been the filling of Physicians' Prescriptions, and as a result our store has become a prescription center. We carry an exceptional stock of prescription drugs, and our laboratory equipment is up-to-date. We employ only experienced graduate pharmacists.

All of your Prescriptions and Recipes are important and deserve the special care which we are able to give them.
