

Plus Mileage Adjustment for Diamonds

Because It's In Them

**Fabrics 6,000 Miles
Cords 8,000 Miles**

SHOW the striking figures of our new adjustment mileage — fabrics 6,000 miles; cords 8,000 — to any old-time Diamond user.

And he'll tell you Diamond adjustment mileage represents only the minimum of what Diamonds actually do with fair and square driving.

Adjustment mileage back of Diamond Tires always stands for greater mileage ahead of them.

NOTE. The new adjustment applies to all Diamond Tires in use or in dealer's hands.

IRRIGATION OF PRIVATE LANDS HARDEST WORK

(This is Mr. Wetzel's Fourth and Concluding Article on the Settlement of the Lower Klamath-Lake Bottom Lands)

It is a well known fact that about half the land in the Lower Klamath Basin are private lands, that is, owned by private individuals, while the other half of the lands are sovereign lands of the State and the State lands bear the same relation to the Government that private lands do. By going over the map and looking up the location of the State Lands in the Lower Klamath Basin, with reference to the private lands, it will be seen that they are the most difficult to irrigate being distributed in small tracts around the Lower Klamath Basin and furthest from the source of water supply. If it was impracticable and unfeasible to reclaim and irrigate the private owned lands, which were nearest the source of water supply, would it not be far more unfeasible and difficult to irrigate the state lands and would not the government have looked at it in this manner if they had not have abandoned the Reclamation of the Lower Klamath Marsh Lands.

Orders Survey of Lands.

On March 21st, 1919, the Assistant Secretary of the Interior ordered a segregation survey of all the lands in the Lower Klamath Basin, for which the State of California applied to have segregated as Swamp and Overflowed land. This seems to have been at that time the intention of the U. S. Land Department, but recently an opinion had been rendered by the Assistant Secretary of the Interior denying the segregation survey. This is the only reliable information that I have so far received. What is the import and meaning of the denial of this segregation survey?

Many Paid on Land.

It is a well known fact that about 140 settlers have built structures on this land and established their residences there, and are starting contest to obtain this land as State Agricultural Land from the State of California. The denial of the segregation survey in no way effects these settlers, as land around navigable lake belonging to the State and which never belonged to the United States need not be segregated by authority of the United States, because they do not come under the grant of 1850.

No Lands Under Contest.

To sum up the conditions as they are in the Lower Klamath Basin from the Court decisions and the decisions of the United States Land Department there are no swamp and overflowed lands in this Basin which are now under contest, but these lands were all sovereign, state lands, which became State agricultural lands upon the recession of the water which left them high and dry. These lands are mostly all settled upon the actual settlers in tracts of 160 acres, who are contesting the Swamp Land Claimants, who are taking large tracts. The water level in several feet below the surface of this land and it is now capable of growing crops without further drainage and has reached a condition where irrigation will be absolutely necessary. Title to these lands has never passed from the State to the National Government, but still rests in the State and these lands will be disposed of in accordance with the California law.

JOSEPH F. WETZEL,

President of the Lower Klamath Lake Settler's Association.

Fruit-Juice Essences

Jiffy-Jell desserts carry real fruit flavors in essence form, in vials.

A wealth of fruit juice is condensed for each dessert. So you get a fresh-fruit dainty, healthful and delicious.

This is the new-type quick gelatine dessert — five times as good as the old kinds.

Loganberry and Pine-apple are two of the best flavors. Try them.

They're found only in

Jiffy-Jell

DRINK HOT WATER BEFORE BREAKFAST

Says you really feel clean, sweet and fresh inside, and are seldom ill.

If you are accustomed to wake up with a coated tongue, foul breath or a dull, dizzy headache, or, if your meals sour and turn into gas and acids, you have a real surprise awaiting you.

Tomorrow morning, immediately upon arising, drink a glass of hot water with a teaspoonful of limestone phosphate in it. This is intended to first neutralize and then wash out of your stomach, liver, kidneys and thirty feet of intestines all the indigestible waste, poisons, sour bile and toxins, thus cleansing, sweetening and purifying the entire alimentary canal.

Those subject to sick headaches, backache, bilious attacks, constipation or any form of stomach trouble, are urged to get a quarter pound of limestone phosphate from the drug store and begin enjoying this morning inside bath. It is said that men and women who try this become enthusiastic and keep it up daily. It is a splendid health measure, for it is more he inside than on the outside, because the skin pores do not absorb impurities into the blood, causing disease, while the bowel pores do.

The principle of bathing inside is not new, as millions of people practice it. Just as hot water and soap cleans, purify and freshen the skin, so hot water and a teaspoonful of limestone phosphate act on the stomach, liver, kidneys and bowels. Limestone phosphate is an inexpensive white powder, and almost tasteless. —Adv

Some people have luck; others have

The trouble wit hluck is, it isn't a thing you can count on

Read the Ads--It Will Pay You

IT'S A POOR DOCTOR Who Won't Take His Own Medicine

THAT'S WHY WE ARE USING THIS SPACE TO TELL YOU WHAT JOLLY LITTLE BUSINESS STIMULATORS HERALD WANT ADS ARE—AND WHY THEY GET RESULTS

THERE IS NO GUESSWORK about a Herald Want Ad. They do the business. We know they pay. Our customers have told us so time and again. We have used them ourselves and they have never failed to get results. They are the short cut to a quick turn-over—the modern method of merchandising on a small scale, where the value of the article to be sold or the importance of the want to be filled will not justify a heavy outlay.

If you had something to sell, trade or give away and went out on the street and told each person you met about what you wanted to do, you might get results—but the people you talked to would be very likely to say: "That poor fish has bats in his belfry." If, on the other hand, you used a Want Ad, you would talk to the whole county at once, instead of only one person, and do it in a businesslike manner.

The same rule applies to hiring help, renting a house, looking for a job, or any one of the important little incidents of life where you must call in the assistance of someone outside your immediate family. You MIGHT get results by telling your troubles to the neighbors—but the certain, quick and economical way is to use a little classified ad.

Do you want to buy, sell or trade, want to hire help or find work; do you want to find a room, a house to rent, or to rent the same to someone else; do you want to call attention to some new feature of your business, seek information on some subject, or have you any little unfilled want?
