

TALBOT BUYS M'KENZIE RANCH

Well Known Stockman Buys Ranch on Lost River to be Used in Connection With his Sheep Business

Ray Talbot, who has been identified with the sheep industry in this county for the past three years, has closed a deal whereby he becomes the owner of the McKenzie ranch, located on the Olene road, about 8 miles from the city. The ranch, which contains 320 acres, is one of the best on the banks of Lost River and will be used in connection with Mr. Talbot's business.

The purchase of this property and that of the Maddox ranch, both of which have just been consummated, is indicative of the solid foundation upon which the sheep industry is being built in this county. Like the cattlemen, the sheep men are recognizing the fact, that the days of the free open range are numbered, and they are beginning to make arrangements that will enable them to care for their flocks within inclosures.

MEN WANTED.

Planer man, edger man, cut-offs, off-bearers and tie up men, for night shift. Apply Big Lakes Box Co. 14-6t

Everyone Should Drink Hot Water in the Morning

Wash away all the stomach, liver, and bowel poisons before breakfast.

To feel your best day in and day out, to feel clean inside; no sour bile to coat your tongue and sicken your breath or dull your head; no constipation, bilious attacks, sick headache, colds, rheumatism or gassy, acid stomach, you must bathe on the inside like you bathe outside. This is vastly more important, because the skin pores do not absorb impurities into the blood, while the bowel pores do, says a well-known physician.

To keep these poisons and toxins well flushed from the stomach liver kidney and bowels drink before breakfast each day a glass of hot water with a teaspoonful of limestone phosphate in it. This will cleanse, purify and freshen the entire alimentary tract before putting more food into the stomach.

Get a quarter pound of limestone phosphate from your pharmacist. It is inexpensive and almost tasteless, except a sourish twinge which is not unpleasant. Drink phosphated hot water every morning to rid your system of these vile poisons and toxins; also to prevent their formation.

To feel like young folks feel; like you felt before your blood, nerves and muscles became saturated with an accumulation of body poisons, begin this treatment, and above all, keep it up! As soap and hot water act on the skin, cleansing, sweetening and purifying, so limestone phosphate and hot water before breakfast, act on the stomach, liver and bowels.—Adv.

FIRST TRANSATLANTIC PLANE TO BE CENTRAL PARK EXHIBIT

New York City and her thousands of visitors are to have a chance to see just what manner of flying machine it was that first crossed the Atlantic. This photograph shows officers and men of the Rockaway Naval Air Station at work setting up the NC-4 in Central Park for public exhibition. The naval flying boat was brought back recently aboard the U. S. S. Arostook. After the exhibition the plane will be shipped to Washington and placed in the Smithsonian Institute.

WAR PRISONERS AIDED BY YANKS

500,000 Russians Lifted Out of Despondency by Course of Training in American Sports and Spirit

PARIS, July 18.—Half a million Russians in Germany who formerly were prisoners of war have been lifted out of despondency within the last four months, partly by a course of training in American ideals, American sports and American spirit, said Major James A. Babbitt, of Philadelphia, when he returned recently from Germany on his way to the United States.

Major Babbitt is a professor in Haverford College and a member of the American Football Rules' Committee. He was chief of the Bureau of Medical and Surgical Relief for the American Red Cross in Germany and visited nearly all the camps where Russian prisoners were interned.

"We found the Russian war prisoners in a state of complete lassitude, mentally and physically," he said. "They had spent four years in the neglect and misery of German internment camps. It was enough to break the strongest man's spirit. Their own country had forgotten them and no word had come from their relatives and friends. There was no future in Germany nor hope of anything better in their own country. Hundreds of thousands of Russians who had fought valiantly for the allied cause were slowly dying from depression, mental inactivity and physical malnutrition.

"We put them to school like children. Athletic games were introduced into the camps and these stimulated the prisoners physically while motion pictures and other mental recreation brightened their dull hours. Their hospitals, were provided with every needed medical and surgical requisite. The camps were organized under the command of the American army personnel. They began to take on a new physical aspect, and the men showed signs of returning life and courage. Although they at first regarded us with suspicion, this was soon changed and they looked upon us as friends. They formed camp committees which brought all their needs, grievances and fears to our attention."

MANY CASES BEFORE COURT.

Judge Conn, of Lakeview, heard the divorce case between George Gerbino and Lucy Gerbino and dismissed it for lack of evidence. Other cases filed with the clerk are, one for divorce by Nellie Engle against Harry Engle, of Fort Klamath; and the Oregon California and Eastern Railway Company against Charles Burgdorf to acquire a right-of-way. The company has offered Mr. Burgdorf \$200, but he refuses to grant them right-of-way thru his property.

The case brought against F. U. Grennon by the city has been appealed to the Circuit Court by the defendant's lawyers, Renner and Chastain.

"HOME ON WHEELS" IS INSPECTED BY MANY REFUGEES SUFFER FOR NECESSITIES

Hundreds of people inspected the model little "Home on Wheels" that was parked on Main Street today and envied Mr. and Mrs. A. M. Neal, tourists from San Diego, who are motoring over the country and enjoying all the treats of home life.

In construction the "home" is simple being built on a one and a half ton Atterbury truck. The construction of the car and design are scientific, with all the little built-in features practical and easy to operate. A well appointed parlor bedroom and kitchen are enjoyed all in one, and every comfort may be had that one can enjoy in his own home.

Mr. and Mrs. Neal have a patent on the car and have traveled over 3500 miles in it. They will be in Klamath Falls for a short time.

American Office rWho Is Observer on the R-34

Colonel William N. Hensley, who was on board an official American observer. Friends say that although Mrs. Hensley is the best of mothers and it was then after one o'clock in the morning, she shook the bundle nestling in her arms and, pointing, said: "There's daddy."

Don't forget; the Elks will have a convention here August 14, 15 and 16. Get busy!

KAVADAR, Macedonia, July 18

Without food, without clothing, without medical attention, with hardly any growing crops promising relief when the harvest comes, 15,000 refugees of the district have returned and are desperately clinging to the little mountain farms which are their patrimony. Rather than abandon them they will die in the ruins and caves which today only half shield them from the elements.

To this field the Balkan Commission of the American Red Cross has sent Captain R. M. Blakely, U. S. A. Medical Corps, of New Orleans, La., with five nurses and several carloads of supplies. Villages within a radius of fifty kilometers are now being served by the "Amerikanska" Medicines are given at the dispensary, which never charges a dinar for its services or for flour, clothing and other supplies from the canteen. What that means to a people who have come back from exile, after 3 years of deprivation of the necessities of life, to find their homes in ruins can best be appreciated here on the spot.

The station here at Kavadar is but one of hundreds of similar stations in Serbia, Albania, Montenegro, Rumania, Herzegovina and Greece which the Balkan Commission of the American Red Cross has established.

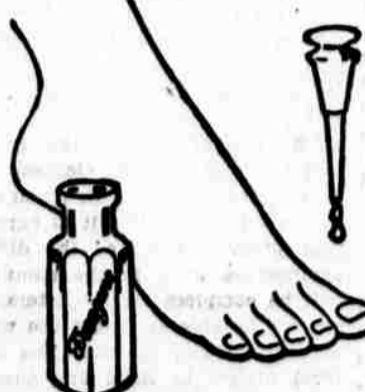

The townhall is used for an infirmary, and empty house for a food and clothing warehouse and an old mill has been made into a bakery. The dispensary is crowded from morning to night. Some days 250 patients are treated. The maimed and stricken come from a radius of thirty miles. One patient was brought in on an ox cart after an unbroken journey of four days. Tuberculosis in every form, anaemia, and other ills that follow in the wake of underfeeding and poor housing have affected a third of the population.

The task facing the Red Cross relief agencies is a heroic one.

Just Remember this. The dates for the Elks' Convention are August 14, 15 and 16. Get ready.

Lift off Corns!

Doesn't hurt a bit and Freezone costs only a few cents.

With your fingers! You can lift off any hard corn, soft corn, or corn between the toes, and the hard skin calluses from bottom of foot.

A tiny bottle of "Freezone" costs little at any drug store; apply a few drops upon the corn or callus. Instantly it stops hurting, then shortly you lift that bothersome corn or callus right off, root and all, without one bit of pain or soreness. True! No humbug!
